SIGHT UNSEEN GUARANTEE:

Buyers unable to attend the sale should feel free to contact any of the Deer Valley Sale Staff. We will handle your bull purchases with the strictest of confidence. If for any reason you do not like a sight unseen purchase from Deer Valley and you have us select the bull for you, you will not own the bull! **SATISFACTION GUARANTEED!**

TERMS AND CONDITIONS:

All of the bulls selling sell FULLY GUARANTEED THROUGH THE FIRST BREEDING SEASON. Cattle will sell under the suggested Terms & Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf)

COOPERATOR BULLS:

Deer Valley works with a select set of cooperators around the country that source genetics from Deer Valley. We consult these cooperators on breeding and management decisions. The resulting bull calves that meet our requirements are sent to Deer Valley at weaning and are raised, developed and marketed through our program. These bulls are a designed product of Deer Valley and are bred to be consistent with what is bred and born on our farm. These bulls are sold with the same strict standards, 100% guarantee and terms that every bull sold here carries. Deer Valley owns these bulls with each cooperator, but in some cases the breeder on the certificate may not show up as DVF. They will all carry the Deer Valley name and be branded DVF.

**Free Delivery on ALL BULLS Anywhere in the United States
\$100 DISCOUNT FOR ANYONE PICKING UP THEIR OWN BULLS ON SALE DAY**

Dear Customers and Friends,

It is with great pleasure that we welcome you back to Deer Valley for another exciting bull offering. We believe this to be our best set of bulls to sell to date. We hope you can find time in your busy schedule to come and enjoy our hospitality and experience a superior set of sound made, big numbered, stout breeding age bulls ready to go to work.

As always, we have done everything possible to assemble a set of problem-free bulls that have jumped through every hoop to make it to this point and be chosen to sell in the fall offering. The bulls will sell with our standard breeding season guarantee as always and we will do everything reasonable to stand behind them for you. We believe that the quality of our product will bring you to Deer Valley but our customer service will hopefully be a bigger reason to keep you as a customer. We offer free delivery on the bulls and will get them to you in a timely fashion. We want your experience with Deer Valley to be profitable and a pleasure. The bulls are trich tested, semen tested, and ready to go to work.

Our philosophy is pretty simple. In the landscape that we sell into, a herd bull sometimes has to be all things. It has been our goal for many years to multi-trait select and try to design a bull that can do many things, and he has to be a positive combination of the breeds most relevant traits. We like to believe that he can be calving ease without giving up growth, that he can be maternal without giving up carcass merit, and he first of all must be sound and functional before any of the other matters. We do not concentrate on single trait selection as we believe you compromise too many positive things to try and chase one rabbit. Instead, we strive for balance and try to reach the top 10% of the breed for many traits. Our program is built around some of the most prominent females in the business and do believe that the cow power behind them is what separates many bulls. One of the greatest compliments we have ever received was from the head of the Select Sires team. He stated, "We can find bulls by these sires anywhere in the country. What we can't find is bulls by these sires that have this kind of proven cow power behind them".

Please come and join us November 13th and 14th, we will show you a phenomenal set of bulls, a ton of hospitality, and a little entertainment. Please plan to be here on Friday night for our annual prime rib and calf fry supper. There will be plenty of fellowship, spirits, and fun. If we can help you with your decision making please don't hesitate to ask, we will be glad to help. We hope you can make it and look forward to seeing you.

Sincerely,
Jonathan Perry

Fred, Rinda & Kim Clark

Schedule of Events

Friday, November 13th, 2015

All Day Cattle Available for Viewing
5 pm Spirits & Appetizers
6 pm DVF's Annual Prime Rib Supper

Saturday, November 14th, 2015

7 am Coffee & Doughnuts
8 am Cattle Available for Viewing
10 am The Focused On The Future Females

Lunch will be served immediately after the Females conclude.

The Bulls will begin selling at approximately 1:00 pm.

SELLING 176 BULLS

Directions

From Fayetteville

Take US Highway 64, west for approximately 2 miles to Hwy 273 and turn Left. Go approximately 1/4 mile to Ben Berry Road, and turn Left. Take the first Right (Pitts Bend Road) to the Deer Valley Farm Show & Sale Facility. Watch for Deer Valley signs at each turn.

From I-65

Take Exit 14 on US Hwy 64, going East past Deer Valley's main headquarters until you reach Hwy 273. Turn Right & go approximately 1/4 mile to Ben Berry Road. Turn Left & take the first Right onto Pitts Bend Road. Continue to the Deer Valley Farm Show & Sale Facility. Watch for Deer Valley signs at each turn, starting at Hwy 273.

GPS Address: 62 Pitts Bend Rd, Fayetteville, TN 37334

DNA - Decoded!

Most of us have read how DNA has changed the game in Livestock Evaluation. Most of us have tried to read the scientific explanations on how it works. Simply put, cattle that excelled in specific traits were tested, and DNA identified the genes (or markers) that superior animals had in common. For example, let's look at Weaning Weight (WW). Many thousands of animals with actual weaning weights recorded were evaluated with DNA. Some with very high weaning weights had the same gene markers in common, while some with poor weaning weights possessed an altogether different set of gene markers. We can now DNA test to investigate whether an animal outside the discovery group possess these favorable markers proven for superior weaning weight. The DNA possessed by a sire is directly correlated to his ability to transmit desirable traits to his offspring.

EPDs are good, DNA makes them better.

EPDs work. They are the best information in the industry, but are inherently dynamic with something called "possible change", which says that EPDs can change significantly once progeny arrive. No fault of the system, because a pedigree prediction cannot describe which genes an animal actually got from its parents, as there are billions of possible combinations. The American Angus Association owns the most complete database in the industry, comprising millions of animal records. When DNA for these favorable (or unfavorable) markers is applied to the calculation of EPDs for each trait, they become much more accurate. In fact, Zoetis HD 50K can make EPDs up to 6 times more accurate and predictable than a pedigree prediction alone.

Another way to look at it is with Progeny Equivalents. They describe how many progeny a bull would have to sire in order for his EPDs to reflect a comparable amount of accuracy:

- Birth** - BW EPD with 50K has the same accuracy as 8 progeny birth weights turned in on your bull.
- Weaning** - WW EPD with 50K has the same accuracy as 16 progeny weaning weights on your bull.
- Yearling** - YW EPD with 50K has the same accuracy as 20 progeny yearling weights on your bull.
- Milk** - M EPD with 50K has the same accuracy as having 12 daughters in production out of your bull.
- Carcass** - CW EPD with 50K has the same accuracy as 7 progeny carcasses weighed from your bull.
- Rib Eye** - RE EPD with 50K has the same accuracy as 9 progeny carcasses measured for Rib Eye.
- Marbling** - MB EPD with 50K has the same accuracy as having 12 progeny carcasses graded.
- Ultrasound** - Carcass EPDs with 50K have the same accuracy as up to 30 progeny scanned.

Do not accept substitutes!

The Zoetis 50K DNA test analyzes over 50,000 different markers spread across the entire bovine genome for the most comprehensive analysis, unlike cheaper DNA tests that only look at 400 gene markers, and are obviously less accurate.

Today we can reliably put bulls together for uniformity as well or better with Genomic-Enhanced (GE) EPDs than we can with half-brothers or even full brothers with non GE EPDs.

Service is synonymous with Deer Valley and we have invested heavily in Zoetis HD 50K DNA technology to bring you the most predictable and profitable bulls you can buy. There is no additional cost to you.

For more information on Zoetis HD 50K DNA and Genomic-Enhanced EPDs visit Angus.org or zoetisUS.com/genetics.

HOW TO PARTICIPATE ON THE PHONE OR ONLINE

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. **Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.**

HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock and is the suggested process for anyone who does not have excellent, high-speed internet. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form. Fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Turn in Bids Over the Internet through Click-To-Bid. This is Superior's online bidding program for cattle buying. **Please note that high speed internet is required - this is not for dial-up or satellite internet.** Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy - just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. The sale will be broadcast via satellite on **Dish Network channel 231** and **DirectTV channel 345**. Please note that there is a short delay if you are watching the auction on television so call in a few lots ahead of the lot you are interested in bidding on. There are 2 places to view the sale broadcast live on the internet: www.superiorlivestock.com or www.superiorclicktobid.com. Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone, or tablet go to www.superiorlivestock.com, but if you want to bid over the computer you must go to www.superiorclicktobid.com. Remember you can call in to bid whether you watch on the TV or on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid". Your computer must have Flash Media Player installed to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452.

Bidders who are successful in making purchases via satellite or internet will be contacted by the ranch after the sale to settle payment and make shipping arrangements.

GET CONNECTED.

FOLLOW THE SALE LIVE ON THE INTERNET

To register and follow the auction in real time on the internet, log on to: <http://www.liveauctions.tv>

If you wish to follow the sale on the computer and bid by telephone, please call the sale day phone numbers or one of the consultants listed in our catalog.

★ Leading off the 2015 fall Deer Valley bull sale will be ONE-HALF INTEREST in Deer Valley Old Hickory, one of the top sons of Plattemere Weigh Up K360 to be found and leased to the Select Sires AI stud. **THE BUYER WILL BE PARTNERS WITH DEER VALLEY FARM AND SELECT SIRES.**

★ OLD HICKORY is without question one of the most impressive bulls ever raised in the DVF program combining an excellent phenotype with a superior pedigree and a balanced EPD profile that places him in the top 20% or higher for several economic relevant traits - he is in the top 1% for CED, YW, and \$F traits, top 2% for \$W, top 3% for \$B value, top 4% for WW, top 10% for Docility and \$G traits, top 15% for MB EPD, and is in the top 20% of the breed for BW and RE EPDs.

★ His impressive dam is a member of one of the most successful embryo flushes from the \$300,000 valued GAR Objective 2345 and she has earned a progeny record of WR 2@112, YR 1@113, and UREA 11@102. In addition, Deer Valley Rita 1126 is a maternal sister to several of the highest valued females ever produced in the DVF program and she is a maternal sister to Deer Valley Rita 0274 who is the dam of Deer Valley All In and Deer Valley Patriot 3222 who are both members of the Select Sires AI stud. Plus, Rita 1126 is a maternal sister to the longtime Select Sires calving ease specialist, GAR Progress.

★ With a genomic enhanced EPD profile that places him among the breed's most elite for CED EPD backed by a pedigree that has proven to excel for calving ease and maternal values combined with impressive individual performance and a smooth made phenotype make Deer Valley Old Hickory a herd bull that we intend to use heavily in our program and believe he will have an impact in the breed.

Deer Valley Walkin Tall 4182 -- Lot 202

Deer Valley Center Stage 4175 -- Lot 203

GAR Objective 2345

The \$300,000 maternal grandam of Lot 201, 202, and 203.

★ This flush brother to Lots 201 and 202 offers another impressive genomic enhanced EPD profile that excels for growth and performance values.

★ He excels again to the top 1% of the breed for YW and \$F traits, with a 3% ranking for \$B value, a 4% ranking for WW EPD, he is in the top 10% of the breed for \$W value, and top 20% for \$G value.

Deer Valley Weigh Up 4101 ↔ Tot 204

This son of Weigh Up from the Primrose family sells as Lot 204.

- ★ This impressive Weigh Up son combines the extreme carcass traits of both Weigh Up and Predestined with the high maternal values of the Primrose family that produced the breed's legendary Pathfinder sire EXT.
- ★ His maternal grandam served as a longtime donor in the DVF program and she is a direct daughter of the \$100,000 dam of EXT, NBAR Primrose 2424.
- ★ His genomic enhanced EPD profile places him in the extreme top 1% of the breed for yearling growth as well as for \$F, \$W, and \$B traits plus he is in the top 2% for WW EPD, top 10% for MB EPD, and top 15% for both CED and RE values.
- ★ Individually he posted BR-88, W-107, YR-108, %IMF-100 and UREA-107 and his dam has a phenomenal record of BR 3@91, WR 3@101, YR 1@108, %IMF 2@110, and UREA 2@110 with two daughters combining for WR 2@109.

★ Leading off this section of Weigh Up sons is this impressive multi-trait leader who excels to the extreme top 1% of the breed for calving ease direct and is also in the top 1% of the breed for \$W value. In addition to these impressive EPD rankings, he is also in the top 2% for YW, 3% for WW and Milk traits, with a 5% ranking for BW, 15% for MB and RE EPDs, and a 20% ranking for \$G value.

★ His dam has been a donor in the Deer Valley program and combines the Pathfinder traits of the Select Sires AI sire GAR New Design 5050 with the \$300,000 dam of GAR Progress, GAR Objective 2345 and she has two daughters in production combining for WR 4@109.

Deer Valley Weigh Up 4343 -- Lot 256

Deer Valley Weigh Up 4355 -- Lot 255

GAR Objective 2345

Lots 255 and 256 are produced from a full sister to this proven calving ease sire.

The History of Dr. Fredric H. Clark

“Rocket Scientist turned Cattle Farmer” – That’s not a story you hear every day, but that’s exactly the path that Dr. Fredric H. Clark took to end up where he is now. Born in a sleepy little town in northeast Arkansas, Fred grew up as the middle child of three to a single mother and school teacher who struggled to raise her children to be the hard-working, highly-valued individuals they became. Times were tough and things didn’t come easy, but they had all they needed. Fred’s father, who served under Gen. George Patton in the Third Army during WWII, was a victim of PTSD and disappeared after his return from the war. His Uncle Toby, a farmer in Arkansas, would become his mentor. Fred spent his evenings, weekends, and summers following Uncle Toby, learning the ways of farming and developing an undeniable love for the land. This is where Fred’s passion for agriculture was born.

When Fred was in 8th grade, Russia launched the first manned spacecraft that orbited the earth. He recalls the words of cosmonaut Yuri Gagarin, “I have just proven that there is no God; I have circled through Heaven and I didn’t see him.” Because of his strong Christian faith and his belief in American ingenuity, this event had a major influence on Fred’s life. It was then that he decided he was going to be an Electrical Engineer and work in the U.S. Space Program. He received his Bachelor’s of Science Degree from the University of Arkansas, followed by his Masters and Doctoral (Ph.D.) Degrees from the University of Alabama in Huntsville, all in electrical engineering.

Fresh out of college, Fred did indeed join the U.S. Space team working for the IBM Corporation, just after the fire that killed the Apollo 4 astronauts White, Chaffee, and Grissom. He continued his Rocket Scientist role through the rest of the Apollo and Saturn Programs, including all of the moon landings and the Skylab program. While still working for IBM, he worked on upgrades to the B-52 aircraft, the radar for the Tomahawk Cruise Missile, and a special cruise missile that was the first design used in combat during the Vietnam War.

When IBM phased out of the Huntsville, Alabama area, Dr. Clark was offered a promotion and the opportunity to move anywhere that IBM had a permanent location. Fred declined that offer as he had grown to love the Huntsville area, and he was raising two young children and believed the area to be their permanent home. Since family is so important to Fred, which is as evident today as it was then, he and a partner decided to use their many years of experience and contacts in the area to launch a new company. The company would be called CAS, Inc., specializing in the design of radar and missile systems.

Over the next 27 years, CAS grew to over 1000 employees with annual revenue exceeding \$250,000,000. CAS applied their expertise to many programs including the PATRIOT Air Defense System, the HAWK Air Defense System, the THAAD Air Defense System, the Apache Helicopter Program, the Blackhawk Helicopter Program, the UAV Program and numerous other short-range missile and radar programs.

In 2006, Dr. Clark and his partner sold CAS. As a condition of the sale, Fred agreed not to practice his engineering skills anywhere in the world for seven years. Not willing to sit idle, Fred decided to focus his efforts on growing his farm and enjoying more time with his family. The Clarks sold their Alabama home and made Deer Valley Farm their permanent residence, returning Fred to his childhood farming roots.

The Dean of The College of Engineering at the University of Arkansas would later tell his good friend Dr. Clark, “Fred, you are the only PhD Rocket Scientist turned farmer/rancher that we know”.

The History of Deer Valley Farm

“As with most operations, Deer Valley Farm has seen many transitions and changes as it has evolved into the thriving operation that it is today. Few would have envisioned our look today when, in 1988, Fred Clark purchased a tract of land in a beautiful valley nestled in the hills of Tennessee, primarily for recreation and hunting. As time passed and he continued to amass land, a commercial herd was started to utilize the grass that grew on the valley’s rolling hills. As with most of Fred Clark’s ventures, it wasn’t enough just to own cattle; he wanted to own elite cattle. “It costs the same to feed a great one as it does to feed an average one,” he was known to say, and his philosophy then has not changed today. This mindset led him to start an elite Limousin program that grew to great proportions.

At the time of Deer Valley’s inception, most of the value in the Limousin breed was established in the show ring; so, we built a herd that had the ability to compete there. We were fortunate enough to win many shows around the country, and at one time had as many as 5 National Champions walking the pastures at the same time. Deer Valley exhibited the National Champion Carload in Denver and raised and sold many females that won several major shows across the country.

As the luster of the show ring wore off and the landscape of the business became more production-oriented, it became apparent that to create a sustainable operation with the ability to cash flow year in and year out, a change needed to be made. As we looked around at what was happening in the cattle industry, we quickly realized that our competition wasn’t other breeders in the Limousin breed, but another breed that was very progressive and taking over the countryside one operation at a time: the Angus breed. It was apparent that the power of a black hide was becoming more and more important. No matter what each breed did to change its color, it always came back to a comparison of them versus Angus. That made for an easy decision at Deer Valley – join the number one breed in the industry or become irrelevant. In 2005, we began that transition.

Today we run close to 2500 head of the most progressive Angus cattle that can be found in the breed. Deer Valley is home to some of the most prominent donor females in the breed and one of the most progressive young herd sire batteries in the business. Today Fred Clark’s saying still rings true, “It costs the same to feed a great one as it does to feed an average one.”

Deer Valley Farm is a fully integrated operation that is fortunate enough to grow and harvest the majority of everything we feed. We operate on approximately 5500 acres of land, and we farm hay, corn, and soybeans on 1500 to 2000 acres of it. With primarily river bottomland, we utilize minimal till and rotational farming practices to improve the land and minimize erosion and topsoil loss.

We have positioned our program around raising commercial bulls for the progressive commercial producer, and we have always believed that the success of a breeding program lies in the depth of their cow power and the strength of their cow families. For this reason, you will continue to see Deer Valley searching for that next great individual that we consider a “breed changer”. Our mission is to raise superior seed stock that are outstanding in every segment of the industry.

We are certain that just as we have seen many twists and turns up to this point, we are sure to see many more. We plan to take them head on and continue to approach each situation with a long-term outlook and a vision toward the future.

★ One of the most impressive sons of GAR Prophet to sell through the DVF program is this excellent individual who has performed at every turn posting BR-93, WR-110, YR-108, %IMF-117, and UREA-107.

★ His dam who has been very productive and prolific in the DVF ET program is a maternal sister to many of the highest valued females to sell throughout past DVF female offerings as she is a direct daughter of the world record selling GAR EXT 614 and in addition, has earned a progeny record of BR 3@98, WR 3@101, YR 2@103, %IMF 19@107, and UREA 19 @103.

★ He is a multi-trait leader in his EPD profile excelling for calving ease, growth, and end product values with his GE EPD profile placing him in the top 1% for both weaning and yearling growth as well as for \$W value. He is also in the top 2% of the breed for \$F value for a 3% ranking for Milk and MB EPDs, a 10% ranking for \$G value and a 15% ranking for Calving Ease Direct combined with a \$B value that places him in the top 20% of the breed.

DEER VALLEY FARM

People and a Program committed to the Beef Industry and Customer Success

Welcome to the Annual Fall Performance-Tested Bull Sale at Deer Valley Farm, an event that has grown to be one of the largest offerings of 18 month-old Angus bulls in the Southeastern United States. Each year the quality and consistency of the offering grows and there is no doubt in my mind that you will find this year's offering to be the strongest set of bulls ever offered in the history of Deer Valley Farm.

For purebred breeders looking to add breed-changing genetics to your program, you will find a set of bulls sired by the breed's most popular and proven AI sires and backed by the most trusted and highest valued cow families in the breed. Several of the bulls selling will either be direct descendants or maternal grandsons of such breed-impacting donors as Sitz Henrietta Pride 643T, GAR Objective 2345, GAR EXT 614, and many more donors that have established themselves among the breed's greatest of all time. Quality in volume from the very first pen to the last!

Each year, many top commercial cattlemen make their way to Fayetteville, Tennessee, to select genetics to add to their own programs that have the built in accuracy and genetic power to add value to their calf crop. If you have never had the opportunity to attend a bull sale at Deer Valley Farm, I invite you to be with us to see firsthand why many of these commercial cattlemen invest in bulls carrying the DVF prefix. Simply put, these bulls are genetically geared to increase pounds and performance to a calf crop with the built in genetic power to excel in all of their carcass traits and they do all of this without sacrificing added maternal strengths.

The people at Deer Valley Farm are as committed to working with their valued customers as any program in the business. Fred Clark and Jonathan Perry have built a superior operation with a strong genetic base that will ensure their customers have access to genetics that excel for all economic relevant traits. I enjoy the opportunity to work with both of these gentlemen and their entire staff throughout the year and would invite you to place your trust in Fred, JP, and the entire DVF program to be your genetic source and supplier in the future.

If I can help or be of assistance in discussing these bulls please don't hesitate to call me at (918) 510-3464. I look forward to seeing you in Fayetteville, TN on Saturday November 14, 2015 for a big day of superior Angus genetics!

Sincerely,
Rance Long
