Done Right Bull Sale

Limousin Friends & Enthusiasts,

It is our pleasure to invite you to the 4th edition of our "Business Done Right" Bull Sale, Saturday, March 2, 2019, at our sale facility near Leon, Iowa. We are a family operation just north of Leon in the heart of cow-calf country in southern Iowa. Our Limousin and Lim-Flex seedstock operation began in 1979 and has grown to nearly 600-producing females.

Over the years, we have worked hard to create a quality product and share in our customers' success and while always doing things the right way.

In this offering we have brought you our very best. The bulls presented to you here have withstood the rigors of our stringent selection criteria. This group of 68 bulls consists of both spring yearlings and 18-month-old bulls. Like in years past, the influence of our premier donors, elite herd sires, progressive A.I. program and no "shortcuts" approach is evident in the bulls we are offering.

As you study the offering and evaluate the bulls as they relate to your overall production goals, we ask you to keep in mind the true "value" of a herd bull.

While we as an industry continue to enjoy excellent cattle prices relative to historical averages, the spread in value of genetically superior calves is at an all-time high. Regardless of whether you sell your calves at weaning at a sale barn, run them as yearlings or retain ownership throughout the feeding phase, buyers are becoming more selective as to the types of calves that generate premiums. Factor in the long-term value of the females you retain, and reasons to purchase superior herd bulls becomes evident.

We are confident the bulls in this sale have the inherent genetic ability to sire market topping calves based on the comprehensive data supplied to you in this catalog. So rest assured, the product at hand is exceptional and will come to you at various price levels. Bid with confidence.

It's our goal to make all business transactions with customers a pleasant experience. In addition, all cattle sold are fully guaranteed to the catalog in accordance with the North American Limousin Foundation. Furthermore, if you would like to discuss our sight-unseen purchase program, financial arrangements or trucking plans we are happy to accommodate. As a reminder to both our existing and prospective bull buyers, we encourage you to check out our industry competitive "Linhart Bull Program" incentives found on page 2 that we have in place to stand behind this quality set of bulls.

We look forward to seeing you at the sale. Plan to join us for lunch. If we can be of any assistance to you prior to or during the sale we have an open door policy and welcome all calls and questions. Don't hesitate to give us a call anytime.

Sincerely,

The Linhart Family
Linhart Limousin

**BUSINESS
DONE RIGHT
ANNUAL BULL SALE**

SPRING YEARLING BULLS

LOTS 1-45

We are proud to offer this outstanding set of spring yearling bulls. Through our aggressive A.I. and embryo transfer program, we continually push the genetic envelope while using the same common sense approach we know our commercial customers use. While fresh pedigrees and breed-leading EPDs have value in the marketplace, they are of little importance if the bulls themselves are not packed with the convenience traits all true cattleman demand. We feel our program is on the right track, but you, our customers, are the measuring stick. Your feedback is not only welcomed, but appreciated, as we continue to fine tune our program into one capable of assuring our customers remain profitable based in part on the genetics we supply them.

CELL 8208F is the result of the most successful flush ever created at Linhart Limousin, and no doubt one of the most industry-accepted matings the breed has ever seen. His full sisters generated in excess of \$145,000 in our female sale this past fall, going to reputable junior programs in four states. Their sire, MAGS Ali, is the Consensus son out of one of the most consistent Deuce daughters ever, MAGS Yoko. On the bottom side is none other than LLJB Absolute Style 3056A. After a wildly successful show career, Absolute Style has settled into the most prominent position in our donor pen. She has been mated a variety of ways, each time with outstanding results. When analyzing this tremendous herd-sire prospect, he is hard to criticize as he comes to you in an extremely complete package. His phenotypic superiority is bolstered by his very useful number set including top percentile rankings for weaning weight, scrotal circumference, marbling and mainstream terminal index. Great herd bulls most possess a rare combination of both convenience traits as well as the intangibles necessary to elevate them above their contemporaries. Study the many positive attributes he brings to the table and realize herd bulls of this caliber are not every day occurrences.

Most years and most sales, ADLL 8189F would be the featured bull. This son of the Angus great, EXAR Denver is out of Aaron's premier past show heifer, EF Yadda Yadda, who has earned her spot as one of our premier donors. Very few bulls in our business are able to combine body capacity and overall thickness into a package this impressive. What's more, his EPD profile is extremely balanced, making this homozygous polled Lim-Flex bull one who has the potential to make a huge impact on even the most progressive of programs.

If you are looking to infuse power and performance without sacrificing your phenotypic standards, take a long study of CELL 8070F. The Homozygous polled Lim-Flex son of Cowboy Kind, has the added bonus of having both Rodemaster and Dollar General on the bottom side of his pedigree. As such, his EPD profiles are among the breed's best, led by high numbers for WW, YW, MA and YG. He is truly a combination bull with the inherent ability to steer a program in the right direction.

It's been proven time and again, some of the best Lim-Flex in the land are the result of high-quality Angus sires like BSF Hot Lotto, back to any female with DHVO Deuce in her pedigree. Take note, CELL 8099F bends the curve from birth to yearling, while sporting impressive EPDs for MA, SC, DC, YG, MS and \$MI.

Remember what we said about Lot 13, well Lot 14 is another prime example of the impressive results you can achieve with Angus bulls back on Deuce-bred females. Simply stated, it just works. From a body dimension and total mass standpoint, this double homozygous herd sire, is as impressive as there is in those departments.

What we have here is one bred about as royally as you can breed one. EXAR Denver 2002B has written numerous chapters of Angus breed history, while the family tree of his dam, MAGS Wassail, continues to bear fruit. Wassail is in fact, the dam of Absolute Style, the premier donor who produced our Lot 1 bull this year.

LOT 18

Take an extra minute both now, and sale day, to study these three flushmate brothers, as they without a doubt, represent what is good and proper about the Lim-Flex business. They are each homozygous black and homozygous polled, while displaying ample muscle and thickness in concert with plenty of rib and capacity. From an EPD standpoint, they check nearly every box, including top percentiles for weaning, yearling, scrotal, docility, yield grade and carcass weight. If you are in the market for multiple bulls that are made right and will more importantly sire the right kind, these page of herd sires should give you something serious to think about.

Much has been said the last six months about the sire of these next three lots. MAGS Aviator has without question turned the breed on its ear. They are as consistent of a sire group as there is at the moment as they combine a multitude of industry relevant traits into the kind of cattle that are easy to sell. The icing on the cake for this particular lot, is that he goes back to our great Arrowhead cow on the bottom side.

“We use Lim-Flex® bulls on our British-based cows because it allows us to achieve our goal of producing a high percentage of cattle that grade Choice, have higher yielding carcasses, while maintaining feed efficiency and uniformity.”

-Erik Roen, Sierra Valley Ranch California

Roen is a profit-minded cattleman who uses Lim-Flex bulls on his 2,000 head cow herd. Roen markets his calves through Superior Livestock Auction. One set of calves averaged 94% Choice or Prime, had greater than a 65% dressing percentage and returned \$117 per head of profit for the feeder.

FALL YEARLING BULLS

LOTS 46 -68

We are equally excited about this group of stout, well-developed fall yearling bulls. Rest assured, these are not “left-overs” or “picked-throughs.” They are part of our comprehensive plan to provide a variety of genetic combinations in different age brackets. Many of the same cow families and sire groups found in our spring bulls are represented in their fall-born contemporaries. We developed these bulls with longevity in mind and as such, are comfortable they will hold up under tough conditions while providing years of trouble-free service. Equally important, these bulls should sire the kind of calves that cause your neighbors to slow down as they drive by and your buyers to stand at attention when your sale day rolls around. As always, we welcome your questions and concerns and in the event a problem arises when you get your bulls home, we hope we will be the first call you make.

Kicking off the fall yearling bulls is this massive made, homozygous black meat wagon who is packed full of performance yet maintains a pleasing look. His sire side features the exciting Al sire, MAGS Ali, who continues to churn out the type and kind of cattle that cattlemen from all facets appreciate. The bottom side of his pedigree features the exciting donor AUTO Adorie 439A who is a direct daughter of the immortal donor for the Pinegar program, AUTO Rebeca 292S. It would be hard to stack more pedigree predictability into one. From an EPD vantage point, CELL 7336E excels in genetics for weaning weight, yearling weight, scrotal circumference, yield grade, marbling and mainstream terminal index. When studied from every angle, the bull presented to you here has all the parts and pieces to become a herd sire of distinction. A full brother sells as Lot 47.

Talk about predictability, CELL 7345E is a full brother to Lot 46, and is an impressive herd-sire prospect in his own right. The genetic heritage of this homozygous black, homozygous polled herd sire is unmatched in the industry, giving him the necessary predictability to sire females that will make awesome replacements and sons that will be easy to sell. Study the way this bull is put together in concert with his impressive EPD set and imagine the many ways he can make a positive contribution to your program.

MAGS ALI
Sire of Lots 46 & 47
Popular AI sire known for calving-ease and maternal with growth and performance.

Much has already been said about the sire of this lot. It is safe to say, MAGS Aviator and his resulting progeny are among the breed's elite for good reason. They have all the necessary ingredients to be major players in today's beef industry. What is interesting about this lot, is that on the dam side, he traces back to one of our most important foundation donors, Sennett Heather 448P. The contribution she has made to our program through her numerous progeny is immeasurable. Suffice is to say, when you get a chance to own a piece of the Heather family, you should not pass up the opportunity.

MAGS AVIATOR

The sire of Lot 49, ADLL Axle 3007A, is a bull we raised and one who is impressing us with the way he stamps his progeny with plenty of base width, thickness and capacity. CELL 7441E is a powerful made homozygous black, homozygous polled, 75% Lim-Flex son who will not only be able to cover a good number of cows, his resulting calves will be special.

Quite simply, CELL 7515E is a beef bull. He is chock-full of muscle and performance which he combines with plenty of center dimension which is anchored by a tremendous set of feet and legs. This homozygous polled, 62% Lim-Flex will sire pounds, increased scrotal circumference and added ribeye area. Bid with confidence.

In the cattle business, they say you are supposed to avoid extremes. The one exception to that rule is extreme performance, which CELL 7493E has. Being out of COLE Absolute O5A and out of an LH U Haul daughter, gives us all the confidence in the world, he will sire the kind of performance he projects.

Another ADLL Axl son we think quite a bit of. From his level top, to his sound structure, CELL 7430E has all the tools needed to make a lasting impression in the breeding pasture. The fact that he is homozygous polled and homozygous black, coupled with tremendous EPDs for milk, scrotal and marbling, make him a bull who will earn many friends sale day.

Lot 53 is what you get when you cross a known and proven performance sire, with a past champion for a National Junior Show. This well-rounded sire can be considered the complete package, given his proven pedigree, structural correctness and impressive EPD profile, highlighted by top genetics for growth and milk.

At most ranches and in most production scenarios, pounds still pay the majority of the bills. That's why bulls like CELL 7545E are in such high demand. Long spined, sound made, packed full of muscle, yet still big middled and easy moving, this is one homozygous polled herd sire with a bright future.

"In these times when the margin on feeding cattle is so slim, the difference between YG 1-2 and YG 3 can be the difference in a profit or loss on a set of calves. We run a lot of Limousin influenced cattle through our barn and they consistently top the market and make our customers money."

*-Jackie Moore, Owner/Operator,
Joplin Regional Stockyards, Missouri*

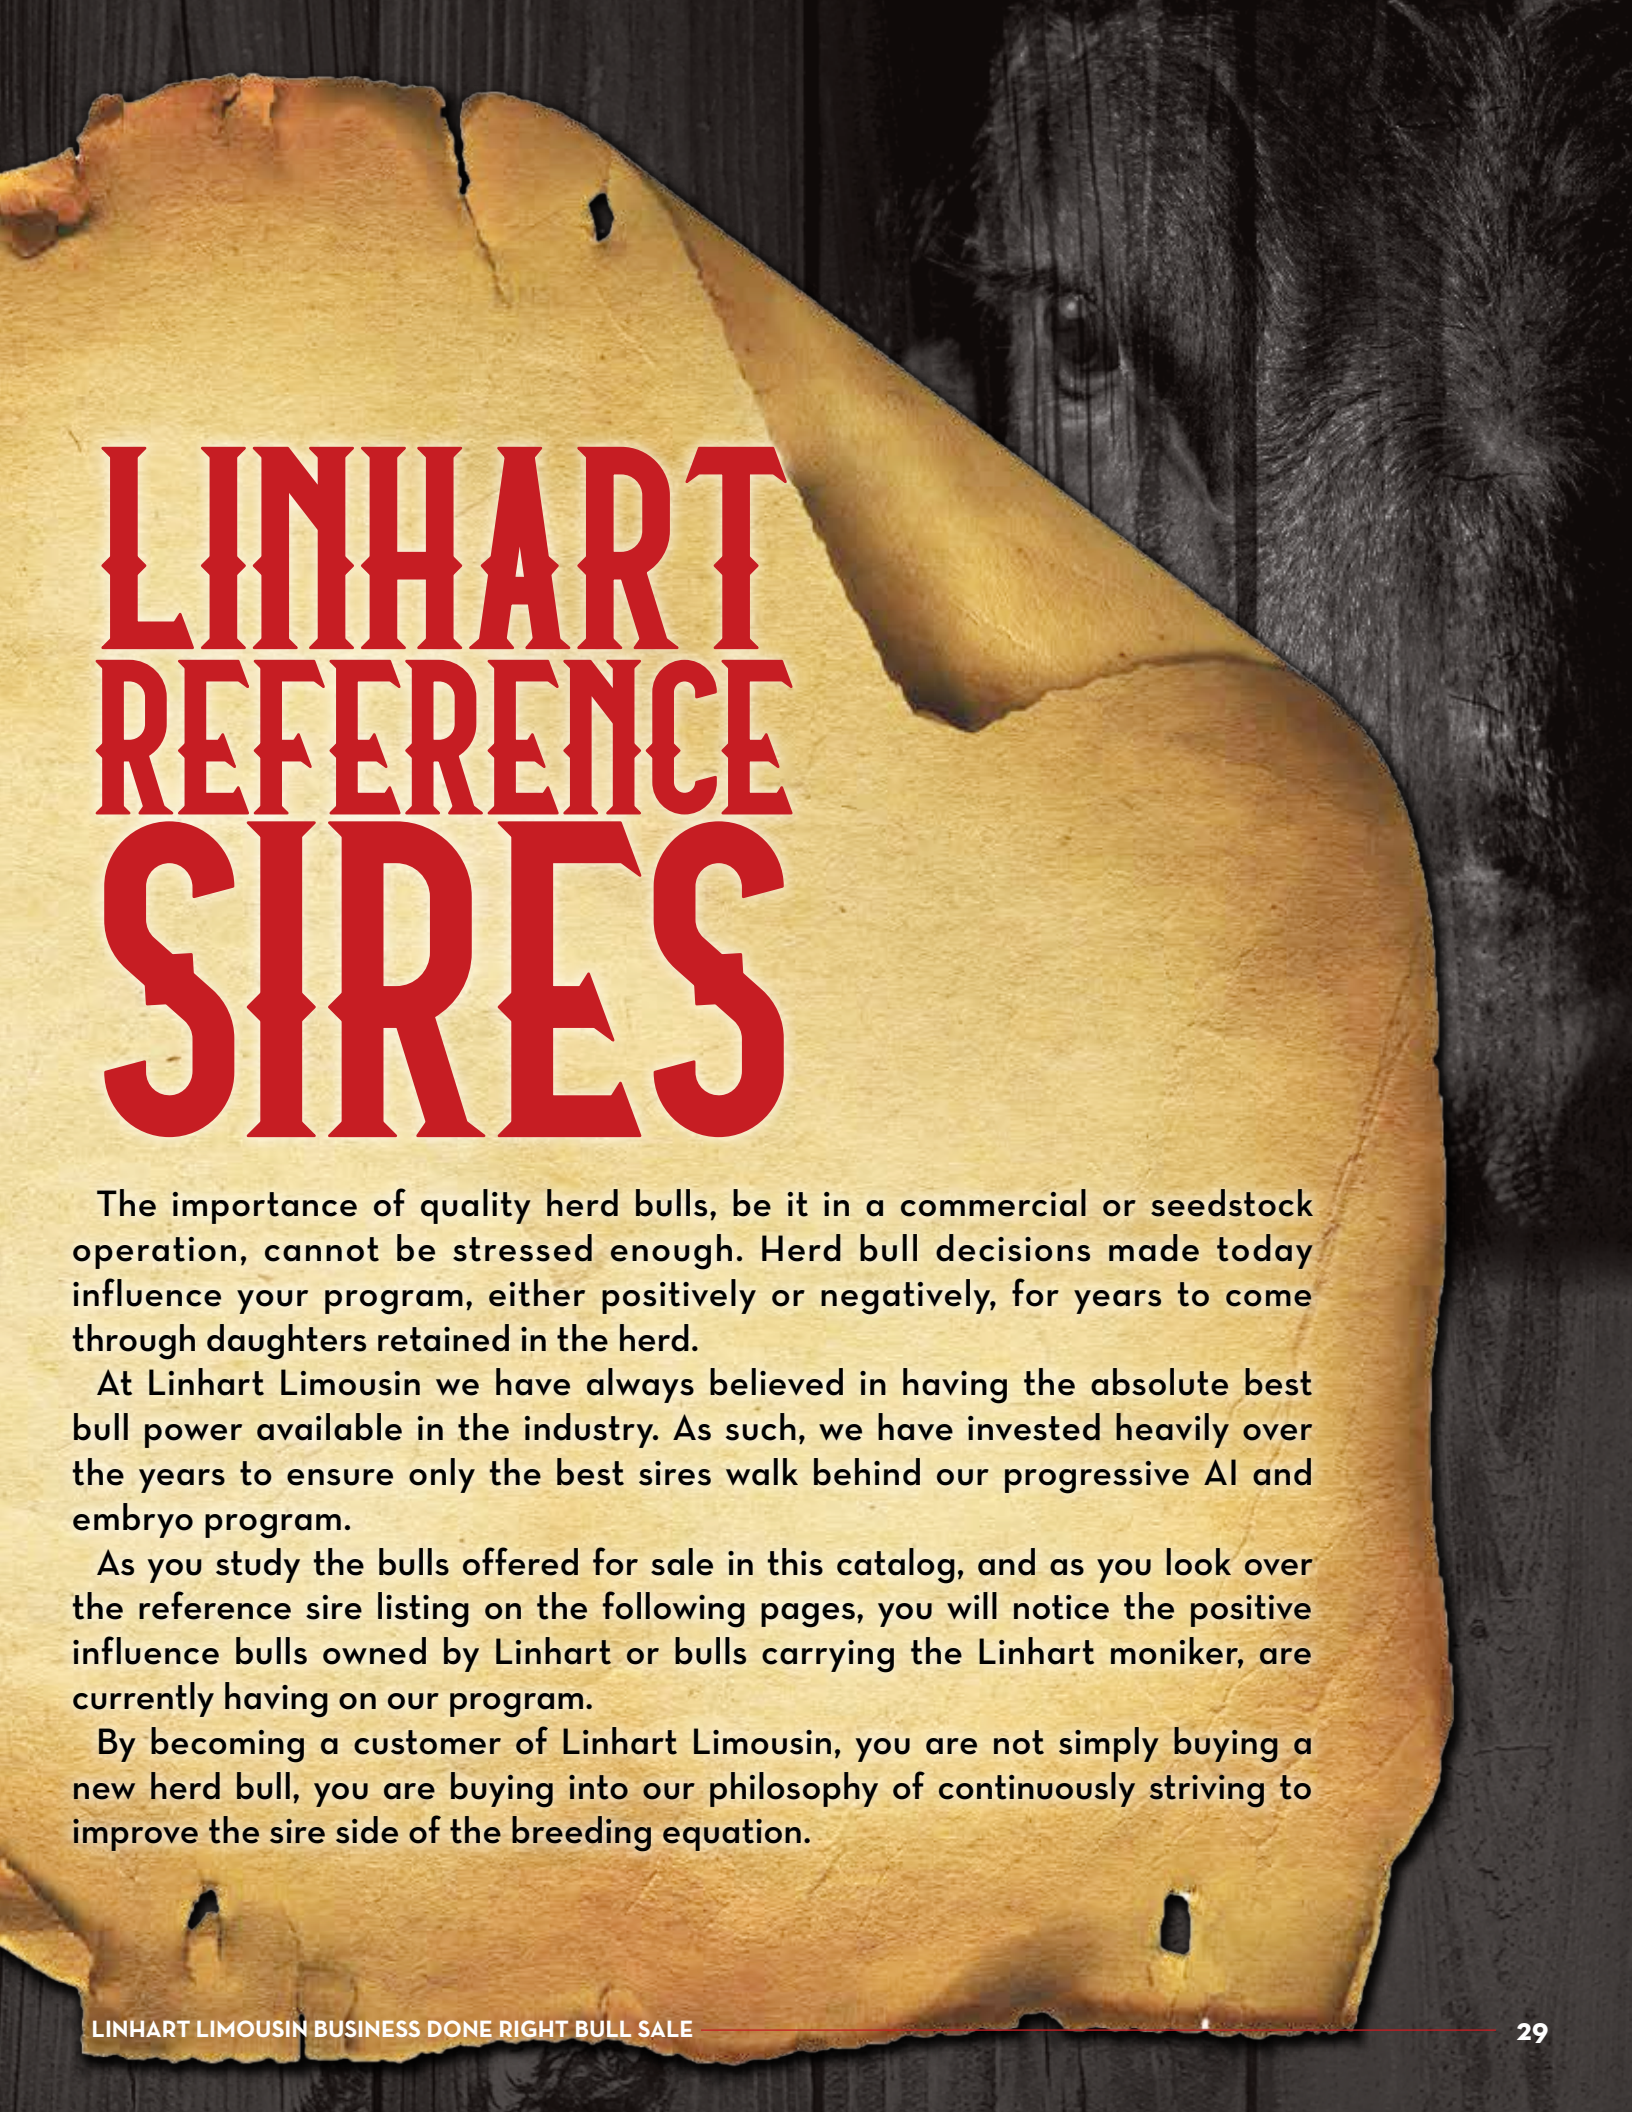

Limousin and Lim-Flex® (Limousin x Angus hybrid) deliver to your bottom line.

- ‡ Calving ease & calf vigor
- ‡ Tested & proven docility
- ‡ More pounds to sell at weaning
- ‡ Cow & bull longevity
- ‡ Feed efficiency
- ‡ Carcass merit

To find out more about how you can profit tomorrow with Limousin or Lim-Flex® bulls and females, contact a NALF regional manager, Andy Rest or Nathan Smith, or visit www.NALF.org.

North American Limousin Foundation • 303-220-1693 • Limousin@NALF.org • NALF.org

LINHART REFERENCE SIRE

The importance of quality herd bulls, be it in a commercial or seedstock operation, cannot be stressed enough. Herd bull decisions made today influence your program, either positively or negatively, for years to come through daughters retained in the herd.

At Linhart Limousin we have always believed in having the absolute best bull power available in the industry. As such, we have invested heavily over the years to ensure only the best sires walk behind our progressive AI and embryo program.

As you study the bulls offered for sale in this catalog, and as you look over the reference sire listing on the following pages, you will notice the positive influence bulls owned by Linhart or bulls carrying the Linhart moniker, are currently having on our program.

By becoming a customer of Linhart Limousin, you are not simply buying a new herd bull, you are buying into our philosophy of continuously striving to improve the sire side of the breeding equation.

The **POWER** of a program
 begins and ends
 with **POWERFUL
 HERD SIRES.**

A Sincere Thank You From

LINHART LIMOUSIN

We appreciate your support and interest in our breeding program. We take the people side of the business seriously and never for granted, that's why producing a quality product and making sure our customers are satisfied has always been a top priority. Simply put, your attendance and participation at our sales has humbled us, and we wish you many successes with your purchases.

Thank you for taking time to view the catalog and allowing us the opportunity to earn your business.
