OFFERED BY SHELBY SKINNER CATTLE CO., BOLIVAR, MO

These lots are ones to get excited about. This open female is extended through her front one-third, clean in her lines, sound on the move and carries plenty of natural rib dimension. Both she and the embryos are out of the proven Silveiras Forbes 8088, a son of Silveiras Style 9303, and dam, WLR Prada, who needs no introduction to the breed. We highly anticipate this female's bright future in any program. She has every single thing stacked in her favor—flawless presence, a captivating future and one heck of a proven pedigree. SHSK Prada's Diamond 305L, a full sibling to this female, recently commanded \$109,000 in Shelby Skinner's Girls on Film Sale. There is no guesswork here.

We can always appreciate a young herd sire prospect that has all the bells and whistles from a pedigree standpoint, but when one can combine a prominent look no matter the angle with skeletal integrity, we've got an exciting blend! SPHA Let Me Ride 102L is a 53% Lim-Flex son of RKNQ Shawshank 926G. His dam is TASF Java 509J, a daughter of PVF Blacklist 7077 and out of an EF Xcessive Force daughter, GVAF Double Shot. One of the very best features of this young bull is the way he combines his heaviness of bone, massive foot size and into his fluidity of movement. We admire this guy's strength down his top, his levelness of hip and his overall masculine build. He is homozygous polled and double black.

Thank You for Your Support

A large part of the excellence achieved at the National Junior Limousin Show and Congress stems from support of involved Limousin breeders - support from both the heart and the wallet.

This year, the National Junior Limousin Show and Congress in Tulsa, OK, promises to surpass even the high points of past experiences.

As you can see from the program, this year's benefit auction is filled with genetic opportunities and many other interesting items, thanks to the generosity of the many contributors. You will have the opportunity to choose from:

- some of the most popular and useful sires and dams in the breed today
- preferred position pages in the National Junior Limousin souvenir program to advertise your ranch or program
- award sponsorships
- unique art
- genetic packages
- fishing trips

This "Genetics On Ice" benefit auction gives you the opportunity to help yourself and your program while supporting one of the breed's major events of the year.

The benefit auction, as we know it today, was started in 1984 by American Cattle Services to fund the first All-American Limousin Futurity in the summer of 1985 in Springfield, Missouri, which was the first time the National Junior Heifer Show was held in conjunction with an open Limousin show. This first auction was held at the American Royal in Kansas City, Missouri, with assistance from the Kansas and Missouri Limousin Breeders Associations. Most items offered were frozen semen and pregnant recipients, thus the auction was named "Genetics On Ice" from the very beginning.

The fundraiser was initially one where the donor received 50 percent of the revenue and the AALF received 50 percent. After the second such auction in Kansas City in 1985, Dr. Greg Martin, NALF Executive Vice President, and Ken Holloway, principal partner of American Cattle Services, thought it would be appropriate to hold the benefit auction in Denver at the NALF banquet and split the proceeds between NALJA and AALF. The "Genetics On Ice" auction has enjoyed a 37-year run with much success thanks in no small part to the generosity of those who attended, contributed and purchased.

Totals indicate some \$1.75 million has been raised from Limousin breed promotion at the "Genetics On Ice" auction. A special thanks to all involved!

All semen and embryos will be released for shipment upon payment, unless otherwise noted.

Shipment will be at the buyer's expense. Semen and embryos are not necessarily exportable outside the United States.

Please make checks payable to:

NORTH AMERICAN LIMOUSIN EDUCATION CORPORATION

EPDs are current as of 12/5/2023.

See you in Oklahoma City!

HONORING KEN HOLLOWAY

For 37 years, this event has helped raise funds for the National Junior Limousin Show & Congress, NALJA events and the Limi Boosters. \$60,725 was raised from this benefit auction held during Cattlemen's Congress and Annual Limousin Convention. Thank you to all the donors and buyers for the continued support!

The oversight committee for the All-American Futurity scholarship program and Genetics on Ice Benefit Auction met in April to discuss the renaming of the scholarship program generated out of Genetics on Ice and the Genetics on Ice Benefit Auction itself in honor of Ken Holloway.

Ken Holloway was as dedicated a Limousin breeder as any man could possibly be. That dedication was also extended to his family, fellow breeders, and friends in the cattle business across the country. Ken was also the breed's most dedicated supporter of the North American Limousin Junior Association since its inception. Ken started the Genetics on Ice Program in 1984 to provide the vehicle that not only financed the junior association's activities annually, but additionally helped run the All-American Limousin Futurity until its conclusion in 2020. The Genetics on Ice Benefit Auction has raised over \$1.75 million of revenue for the Limousin Junior Association.

Today, thanks to Ken's foresight and passion for juniors in the Limousin breed, the proceeds that previously funded the Limousin Futurity show were diverted to fund over \$17,500 of scholarships annually to juniors. The remainder of the proceeds help fund the juniors' annual operating budget.

As we move forward, the \$17,500 of annual scholarships awarded at the National Junior Limousin Show & Congress out of the Genetics on Ice allotment will be named the Ken Holloway Memorial Scholarship Awards. The Genetics on Ice benefit auction will be renamed as the Ken Holloway Genetics on Ice Benefit Auction.

2020 marked the end of the All-American Limousin Futurity after 36 years. 100% of the funds generated by the Genetics on Ice sale will go to the North American Limousin Junior Association and will continue as a fundraiser for the NALJA summer event. \$17,500 of the funds to be earmarked for scholarship awards to show winners as follows:

UNION STOCKYARDS GAME

From the Civil War through the 1920's, more meat was processed in Chicago's Union Stockyards than anywhere in the world. During its height, 40,000 workers, mostly immigrants, labored in "the busiest square mile on earth", where over one million livestock passed monthly, supplying 80% of all U.S. meat. There were over 2,300 livestock pens and 130 miles of railroad within the "yards". You play one the "Big Five" meat packers, developing technologies to use every part of the animal while battling labor unions and adjusting to historical events. The livestock cost is the same for all players, but your meat values will differ due to your decisions of constructing buildings, establishing branch houses, and improving brand reputation. At the end of each year, livestock costs (cattle, hogs, sheep) will be adjusted up or down depending on the demand that you created. Sometimes you may choose to slaughter certain livestock just to manipulate the market in your favor. Whichever packer accumulates the most wealth wins the game.
