## Online EMBRYO Auction Closes 9/27 | 7 PM (MST)

//0308" is the program. This female is the #1 \$M cow in the breed who has Pathfinder status and is 12 years old.

This represents maternal, production, fertility, and longevity. "0308" is 12 years old, and is currently nursing another calf, still perfect feet, and udder. "0308" is a female we are building around here, very seldom sell embryos out of her anymore, take advantage here. She has 6 calves BR 6/92, NR 6/105, and YR 5/102. "0308" is a pathfinder female and has a calving interval of 362 days on five calves, while being flushed once after each calf the past three years. "0308" has never not bred first straw AI in her life. She is having a major impact on our program, her daughters are outstanding here. "South America" has created quite a stir, he was the \$180,000 top-selling bull, the people's choice, and pick of the flush, at the 2021 Cattleman's Congress. We rarely go and purchase bulls to bring into our program, however, he fits our visions, beliefs, and breeding philosophies. South America is a son of a past Palermo Grand Champion Bull, Don Aparicio Serrucho 57 Maxi, one of the great female sire makers in South America. His mother was selected as the heifer calf champion at the 2018 Palermo show one of the worlds most respected and admired shows. He is an individual with outcross

Hummel South America  
Sire of Embryos

genetics, tremendous shape, and extra center belly depth in a dense, eye-appealing package. Visitors here to the ranch have loved him. We have our first calves out of South America, they are extremely good, very stout, big boned, tons of body, exactly what we expected him to do. South America's progeny have been a visitor favorite here this summer, he's having a major impact on our program. This mating is the first time we've ever offered it for sale. BIG TIME OPPORTUNITY! **These are IVF embryos (Trans Ova), we are selling three embryos in this mating and guaranteeing one pregnancy.** These embryos are exportable to Canada.

Coleman Donna 9220 – The definition of what you want your two-year-old females to look like is this daughter of SAV Resource 1441, back to the now deceased Coleman Donna 4203. This was our lot 1 female this past fall and we sold one-half interest for \$45,000 for a \$90,000 valuation. She ranks among current dams as the 14th highest daughter of Resource for \$M for non-parent females in the breed. Coleman Banker, a maternal brother, was the \$75,000 feature in the same sale and two other maternal sisters sold for \$22,000 and \$22,500. Another maternal sister sold in the 2020 sale for \$20,000. This mating will be incredibly special. The cattleman's kind is a perfect way describe the early indicators on Coleman Rock 7200. Rock would currently be one of the heaviest used sires here at Coleman Angus. He sires cattle with extra three-dimensional shape

Coleman Rock 7200  
Sire of Embryos

with added performance in the right size package. His offspring have tons of center body and explosive muscle shape in a sound-structured package. Rock is low birthweight, high growth, and ranks in the Top 10% for \$M. **These are IVF embryos (Trans Ova), we are selling three embryos in this mating and guaranteeing one pregnancy. These embryos are exportable to Canada.** These embryos have been sexed for females, 90-95% accurate.

Donna 504 has been one of my favorite females we have ever made since she was a calf. I try not to get too excited about young cows, but I'm having a tough time with her, she is special in my opinion. Very first time we have ever offered embryos out of her for sale on this mating. Ratio's on her BR 4/89, NR 4/110, YR 3/110. 504's sons topped our 2021 bull sale, many going to registered breeders all across the US. Deeper we get into her, the better she is, we have lots of progeny out of her, and they are at the top of every calf crop we've had. Take advantage here. "Trademark" is a bull we're excited to add to our program. We're excited to be working with Conley Angus on this elite herd-sire. Trademark was selected as the \$165,000 top selling bull of the Cattleman's Cut Bull Sale. He is a low-birth weight calving ease bull, with double digit calving ease direct, with an outcross pedigree for our program. "Trademark" has caught the

J Trademark 1037  
Sire of Embryos

attention of cattleman from all across the country. He has tremendous performance, added muscle shape, with unique combination of phenotype, and an incredible number package. We are excited to own Trademark's dam. She has a progeny record of 6 head/103 weaning, and a calving interval of 347 on 6 head. **These are IVF embryos (Trans Ova), we are selling three embryos in this mating and guaranteeing one pregnancy.** These embryos have been sexed for females, 90-95% accurate.

“6206” is a very Maternal Pathfinder female that we have pulled out of production and started flushing. “6206” has an impeccable record here, calving interval of 364 on her first 4 calves, BR 4/95 NR of 110 and YR of 105. She has her fifth calf on her now, has always bred 1st straw AI in her life. Her son, was one of our feature bulls in our 2022 Bull Sale, and was one of the sale toppers. “6206” has proved herself the old-fashioned way, in the pasture. Her heifer calf by Triumph has been a visitor favorite here this summer. Perfect udder, and feet on her also. Study her pedigree, lot’s of very proven maternal bulls in there. “Glacier” has been a standout since he was born. Glacier’s first calves are on the ground, they are very impressive as babies. Glacier has the best feet I’ve ever seen on a bull before, extremely sound, and athletic, with a great herd bull look and presence. He’s the bull the industry has been looking for. Glacier’s flush sisters are calving this spring, and look impressive, perfect udders, great feet, stout, with a great look. We believe it all starts with the mother cow; Glaciers Pathfinder dam is the fourth consecutive generation to

Coleman Glacier 041  
Sire of Embryos

make it the donor pen here. “439” has ratios of BR 5/93, NR 5/107, and YR 5/106. 439 has been a favorite of visitors here since she was a heifer calf, we’ve kept 4 different sons of her here that we are currently using, she would be as good as any female we’ve ever had the opportunity to work with here. “439” is also the Dam of Ace 989, who is doing a tremendous job for us also. **These are IVF embryos (Trans Ova), we are selling three embryos in this mating and guaranteeing one pregnancy.** Buyer has the option to take six embryos out of this mating and we will guarantee 2 pregnancies. **These embryos are exportable to Canada.**

“3125” is as complete of a female as we have had the opportunity to work with here.

“3125” checks all of the boxes for us as an ideal Angus female, progeny ratios of birth ratio 4@94, nursing ratio 4@110, and a yearling ratio of 4@110. She has proven herself the old-fashioned way, in the pasture. She brings so much to the table with her massive amount of rib and body, perfect udder, and overall femininity. “3125” is the best “Right Time” daughter we have seen and had the opportunity to work with. Extremely excited for here future here. The cattleman’s kind is a perfect way describe the early indicators on Coleman Rock 7200. Rock would currently be one of the heaviest used sires here at Coleman Angus. He sires cattle with extra three-dimensional shape with added performance in the right size package. His offspring have tons of center body

Coleman Rock 7200  
Sire of Embryos

and explosive muscle shape in a sound-structured package. Rock is low birthweight, high growth, and ranks in the Top 10% for \$M. **These are IVF embryos (Trans Ova), we are selling three embryos in this mating and guaranteeing one pregnancy.** Buyer has the option to take six embryos out of this mating and we will guarantee 2 pregnancies. **These embryos are exportable to Canada.** These embryos have been sexed for females, 90-95% accurate.

Coleman Donna 197 is a direct daughter of the historic Rainmaker 654X. 197 has established herself as one of the all-time great donor females in the Coleman Angus program. She is a full sister to the \$200,000 valued Coleman Donna 386, who has been a staple at the Coleman Angus ranch for a number of years and stems back to the \$60,000 KMK Donna J311. Her actual production records are through the roof, with daughters also in production with an average nursing ratio of 108! 197 is a picture perfect, ideal Angus cow that has tremendous depth of body, a beautiful udder, with plenty of thickness. She is loaded with breed character along with extreme maternal. The sire of these embryos is PM Executive Decision. Executive Decision is a Canadian bull that we have used here quite a bit. He sire's cattle with added muscle shape, length, and

## Online EMBRYO Auction Closes 9/27 | 7 PM (MST)

“5207” is a Pathfinder female, with a calving interval of 352 days on her first 4 calves, BR 4/95, NR 4/109, and YR 3/108. She has bred back first straw AI for the 3rd year in a row. “5207” is extremely angular, deep sided, perfect udder, and a big, long level hip. We’re overly excited for her future here. “5207” consistently has one of our best calves each year, her son by Coleman Resource 710 was one of our high selling bulls in our 2021 Bull sale. “5207” just weaned a big stout bull by Coleman Rock 7200. Sitz Barricade, a featured Genex sire, is a new bull we have started using, lots of body, deep ribbed, and good footed. Extremely exciting mating here for sure. **These are IVF embryos (Trans Ova), we are selling three embryos in this mating and guaranteeing one pregnancy.** Buyer has the option to take six embryos out of this mating and we will guarantee 2 pregnancies. **These embryos are exportable to Canada.**

Donna 5222 is a Pathfinder female; she reminds me a bunch of Donna 714. They are full sisters in blood. "5222" has a calving interval of 352 days on her first 3 calves. BR 4/94, NR 4/108, YR 3/110. She has a bull calf on her side now by Resource, and he's a stud. Extremely long sided, big, long level hip. We have pulled her out of production and have started flushing on her. We feel that she has big time potential for sure. "Glacier" has been a standout since he was born. Glacier's first calves are on the ground, they are very impressive as babies. Glacier has the best feet I've ever seen on a bull before, extremely sound, and athletic, with a great herd bull look and presence. He's the bull the industry has been looking for. Glacier's flush sisters are calving this spring, and look impressive, perfect udders, great feet, stout, with a great look. We believe it all starts with the mother cow; Glaciers Pathfinder dam is the fourth consecutive generation to make it the

Coleman Glacier 041  
Sire of Embryos

donor pen here. "439" has ratios of BR 5/93, NR 5/107, and YR 5/106. 439 has been a favorite of visitors here since she was a heifer calf, we've kept 4 different sons of her here that we are currently using, she would be as good as any female we've ever had the opportunity to work with here. "439" is also the Dam of Ace 989, who is doing a tremendous job for us also. **These are IVF embryos (Trans Ova), we are selling three embryos in this mating and guaranteeing one pregnancy.** These embryos are exportable to Canada

Donna 5222 is a Pathfinder female; she reminds me a bunch of Donna 714. They are full sisters in blood. "5222" has a calving interval of 352 days on her first 3 calves. BR 4/94, NR 4/108, YR 3/110. She has a bull calf on her side now by Resource, and he's a stud. Extremely long sided, big, long level hip. We have pulled her out of production and have started flushing on her. These embryos are sired by the now deceased "Banker" who is a bull we kept to use in our program, visitors have loved him here this summer. "Banker" is extremely impressive, exceptionally smooth, extremely sound on the move, stout, with about as much rib shape and depth as you can put in one. Banker's flush sisters that calved here this summer are as impressive as anything we have ever calved here. We have plugged Banker in here extremely hard, Banker's first calves are very

Coleman Banker 9215  
Sire of Embryos

impressive. Calves come light and explode quickly. Banker will be used very heavily here this spring. **These are IVF embryos (Trans Ova), we are selling three embryos in this mating and guaranteeing one pregnancy. These embryos are exportable to Canada.** These embryos have been sexed for females, 90-95% accurate.

0277 is truly a sale highlight. She is a pathfinder female and is a full sister to the true breed changer, Coleman Charlo! 0277 is packed full of natural base width, depth of body, along with length of body you can only dream of. She carries extreme ratios from BR to YR on 5 of her calves, excellent footed, with a next to perfect udder. 0277 has been a dominate force in both female and bull sales in Colemans past few sales! She has worked across the board on several sires. The females out of her are as good as any I have seen out there. 0277 may very well be one of my favorite cows at Colemans. With her length, power, and killer phenotype she is big time cow power! Marshall is a direct son of Resource and back to Coleman Donna 197, who is a full sister to the legendary Coleman Donna 386. Marshall is a curve bender and an elite calving-ease sire. His

Coleman Marshall 7170  
Sire of Embryos

pedigree blends some of the all-time breed leaders for low-birth-weight genetics and performance. His sons and daughters have been highlights in our past sales. Very exciting mating here for sure. **These are IVF embryos (Trans Ova), we are selling three embryos in this mating and guaranteeing one pregnancy.**
