# VALUES & VISION II

Limousin Production Sale

*LEFT - son-in-law, Jim Strothmann; daughter Jill; granddaughter Annie; and Grandson Jon  
RIGHT - son, Kevin; daughter-in-law, Fawn; grandson Jet; and granddaughter Emma.*

Dear Limousin Breeders,

Joanne and I would like to invite you to attend this year's Values and Vision Sale. We promise you a good time, great cattle and a wonderful atmosphere to visit with others in the Limousin breed.

I owe a sincere thanks to the Limousin Breed and many of its producers for partnering with Laura's Lean Beef (Laura's) some 20 years ago. Laura's did not have a defined cattle program when I joined the Company, and a local cattle buyer suggested we try Limousin bulls on commercial females. We started using Limousin cross cattle and the rest is history. My partner and I grew Laura's business from a \$1 million to over \$160 million in 2007 when we sold the business.

During the Laura's years we had sheer tests and taste panel tests done on Laura's steaks from Limousin cross cattle and the results were amazing in that Laura's steaks tested as tender as choice and prime steaks, and more tender than other exotic cattle steaks. I only learned about the Myostatin gene marker F94L in 2007 and since most of our producers used Fullblood bulls the F94L gene marker would have been present in many of our cattle.

Englewood Farms will always maintain a herd of Fullblood Limousin cattle. We will continue to improve the genetics in our Fullblood herd and hope to produce more cattle like ENGD Unbridled 832U in the future with above breed average EPD'S in growth, milk and rib.

When we planned to sell Laura's in 2007, I decided to get more involved in the Limousin seedstock business and invested in a herd of purebred Limousin cattle. John Ethington joined Bob and I as herdsman with a primary focus on building the purebred herd, one at a time, from some great Limousin cattle. I am very pleased with the Purebred herd John selected and the matings he has produced during these three years. Many of the heifers from these matings will be in the female sale this year. I think you will like them.

Our initial effort in the purebred cattle was to maintain muscle in these purebreds so when crossed with other breeds they could primarily produce choice grade carcasses and eliminate most yield grade 4's and 5's. Another benefit from these thicker purebreds is better feed efficiency for their calves on the feedlots.

During the past year we have purchased several Angus and Lim-Flex females that are very high in Marbling. The Lim-Flex cattle produced by these females will add considerably more marbling than our present selection of Limousin cattle. We will offer some Lim-Flex genetics in this year's sale but plan to have many more in the following years.

Our goal is to produce and sell the best Limousin Fullbloods, Purebred and Lim-Flex cattle possible. We hope you can join us on sale day to see first hand the sale offerings, the feed efficient bulls just back from the test station and our battery of herd sires. In addition we promise you great Kentucky hospitality that will include a Limousin tenderloin steak dinner and live entertainment after the sale. We hope to see you sale day.

Thanks for your interest,  
John Tobe

# VALUES & VISION II

Limousin Production Sale

Wednesday, November 17th  
4:00 p.m.  
at the farm  
Lancaster, Kentucky

**Solid Values, Futurist Vision**

# SCHEDULE OF EVENTS

TUESDAY, November 16th - Cattle Available for viewing all day.

WEDNESDAY, November 17th -

8:30 am Chartered bus departs Louisville going to Wild Turkey and Four Roses distilleries in route to Englewood Farms. Lunch will be served on tour bus.

1:00 pm Second chartered bus departs Louisville going direct to Englewood Farms.

**4:00 PM VALUES & VISION II PRODUCTION SALE BEGINS**  
Bus returns to Louisville immediately following sale

6:00 pm Limousin steak dinner

7:00 pm Concert by Casey Jamerson

*Second bus leaves immediately for Louisville after concert. Both buses will be on the South side of Foundation by Freedom Hall.*

*Singer,  
Casey Jamerson*

# OFFERING

- We are proud to offer
- 74 Limousin and Lim-Flex Lots
  - 1 Proven Donor
  - 5 Spring Split Heifer Calf Pairs
  - 12 Fall Pairs
  - 6 Fall Open Heifers
  - 5 Spring Open Heifers
  - 27 Spring Bred Heifers
  - 14 Spring Bred Cows
  - 1 Elite Heifer Pregnancy
  - 1 Embryo Lot
  - 2 Unique Flush Opportunities

# DIRECTIONS

*Lexington to Englewood Farm (Follow Red Arrows):*

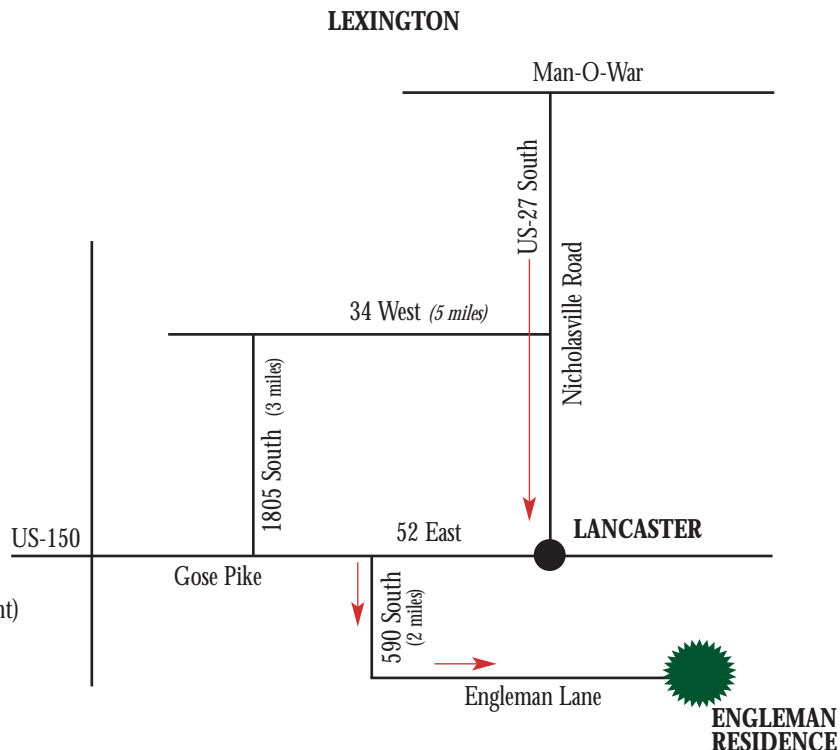

- Take Nicholasville Road (US-27 South) to Lancaster.
- Turn RIGHT at red light (52 West)
- Turn LEFT (south at 590 South)
- Turn LEFT on first blacktop road (Engleman Lane)
- Look for stone pillars on left

*Danville Hampton Inn to Englewood Farm:*

- Turn RIGHT onto US-150 Byp
- Turn LEFT on Gose Pike
- Go straight past street light onto 52 East to 590 South
- Turn RIGHT (south on 590 South)
- Turn LEFT on first blacktop road (Engleman Lane)
- Turn LEFT through stone pillars

*Louisville To Englewood Farm:*

- Take I-64 East
- Take KY-151 (Exit 48) to Graefenburg/Lawrenceburg
- Bear RIGHT onto KY-151
- Go 6.6 miles to US-127 Byp
- Continue to US-127 Byp to Danville for 35 miles
- Continue straight to US-150 (thru street light past Lowe's on right)
- Turn LEFT on Gose Pike
- Go straight past street light onto 52 East to 590 South 4
- Turn RIGHT (South) on 590 South
- Turn LEFT on first blacktop road (Engleman Lane)
- Turn LEFT through stone pillars

## TRUCKING

Trucking will be available to central points. it will not exceed \$200/lot. Reliable, honest truckers will be available. We will do everything possible to get your cattle to you as efficiently and quickly as possible.

## INSURANCE

Livestock Mortality Insurance will be available through Grassroots Genetics, Mark Smith.

## EMBRYOS

Embryos will be shipped from Englewood Farms. Buyer pays shipping expense.

## POST SALE ENTERTAINMENT

Enjoy our post-sale Limousin steak dinner and live entertainment from up-and-coming country artist, 19 year old Casey Jamerson. Preview her at [www.caseyjamerson.com](http://www.caseyjamerson.com)

Dear Limousin enthusiasts,

Welcome to the Values & Visions II sale at Englewood Farms. It is with great pride we at R & R Marketing Company welcome you to this spectacular event. Englewood Farms owner John Tobe along with herdsman John Ethington and manager Bob Knudsen have assembled their very best offering from the heart of the Englewood Farms. For those of us that love the beautiful countryside and the lay of the land then you will definitely appreciate this gorgeous Kentucky Farm. The beautiful scenery coupled with a great set of Limousin cattle and some of the finest people you can imagine add to wonderful day in the making on November 17th.

At 4 p.m. on November 17th Englewood Farms will be offering to us the very best they have in Fullblood, Purebred or Lim-Flex. They are committed to being seed stock suppliers for all three categories of cattle in our great breed and are in hopes that you will come participate in the activities. They are firm believers that all three divisions of our breed have their place in our beef industry and they can't wait to display them for you on sale day. We have tried to highlight them in this sale catalog where you can read along and see what they mean to them in their program. The entire Englewood Farms program takes pride in being a seed stock source and supplier for their fellow breeders. Just as committed as they are to the product it doesn't take precedence over the emphasis they place in you as their customer.

If we can be of any assistance with you on making your selections at the sale then please don't hesitate to call. We love Limousin cattle and enjoy the selection process found in a sale of this caliber.

Sincerely,

Randall O. Ratliff

9127W is a true sale highlight and one of the very best purebred females ever created at Englewood Farms. As you can tell by her picture and when you see her on sale day, she is truly amazing! We love her extreme depth of flank and rib shape. She is extremely big boned, very soft in her pasterns and fluid in her movement. This daughter of Wulf's Shop Talk is from a powerful producing daughter of JCL Lodestar 27L back to a daughter of Quarterback out of an Ironsides. Her pedigree is prominent and combined with her flawless conformation she makes it as lot 1 in this prestigious event.

If you are in need of a big time show heifer then this young March heifer could suffice. She is sired by KYLD Daytona 730T, the son of KRVN Naskar that is one of the main herd sires at Englewood. He has really done a top job at siring elite show cattle. Like him, his daughters are very big boned and very sound in their structure. This young daughter is extremely long necked, level topped, very level and square out of her rump. With her unique pedigree and striking profile we really think this dark cherry red heifer will be the ticket for whatever junior might want to invest in her.

**Selling 6 embryos by the bull of the buyer's choice!**

SSTO Sadie 6854S is the new lead Lim-Flex donor at Englewood Farms and is owned in partnership with Milam Cattle Co., Olmstead, KY. She is a homozygous polled 50% Lim-Flex daughter of JLC Lodestar 27L that is made as gorgeous as you want one made. She is big footed, soft in her pasterns and very easy on the eye. She has an extreme amount of rib and volume and very brood in her appearance. Please note that the picture of her in this catalog was taken with her being open. Can you imagine if she was close to calving and how deep bodied she might be. We love her ability to maintain her body condition score and the job she has done in the past in production. She has a -1.6 for birth, 103 for yearling weight, 30 for milk, .46 for marbling and 56 for MTI. She scanned a 4.14 for IMF and 11.2 for REA. This donor cow is set up and ready for immediate transplant. *The buyer supplies the semen and in return they will get 6 grade 1 embryos. All expenses are taken care of by Englewood Farms.*

**Selling 6 embryos by the bull of the buyer's choice!**

SAF Rita 846 is the lead Angus donor at Englewood Farms. She is a daughter of 616 and is from a daughter of B/R New Frontier 095. She is very clean and feminine up through her front end. She is very angular through her shoulder and very maternal in her appearance. We love her udder with uniform placed teats when in lactation and how the udder collapses when she is dry. This Angus female has a remarkable set of epd's with a leading 114 for yearling weight, 31 for milk, .97 for marbling and 75 for MTI. We are very confident that whether you should use Limousin, Lim-Flex or Angus that the resulting progeny will sure have some value!

*JONK Poll Unique 70U*

Featured here are two set of embryos from the Englewood Farms donor, JONK Poll Unique 70U. She is a homozygous polled and homozygous black purebred daughter of AUTO Dollar General 122R. This young female has proven to us that she has what it takes to raise a great one! When in lactation she formed a beautiful udder and still maintained her flesh while nursing her last calf. She has a breed leading set of epd's with a 111 for yearling weight, 32 for milk, .52 for MTI.

GAR Predestined has proven to be one of the leading Angus sires to use on Purebred Limousin cattle. He is big numbered, sound made and his daughters are very maternal and high marbling. We think we are going to love the results of this mating. The future calves will be double homozygous and extremely big numbered.

MAGS Undoing is a GAR Predestined son out of the \$50,000 valued donor EXLR 199H. MAGS Undoing calves were the featured lots in the recent Ratliff Dispersal where many cattlemen were impressed with their moderation in frame, soundness and balance. We are very confident in this mating of him to the leading donor JONK Poll Unique 70U.

**P.E. 12.10.09 to 2.08.10 to EAFF Medallion.**

"18P" has been the leading fullblood donor at Englewood Farms for the last few years. She has earned her title as one of the very best fullbloods to ever step foot on the Kentucky soil at Englewood Farms. Bred in the Lenape herd in Pennsylvania, this granddaughter of Orion is from a daughter of MH Whipstich that goes back to a daughter of TEXS Ranger Ted back to the TEXS Star Luv cow family. This donor cow has proven her worth at Englewood in production over the last few years. Highlighted in this sale will be her 5 daughters. Her biggest accomplishment to date is raising her son ENGD Unbridled. He is a homozygous polled fullblood son of ENGD Polled Liberty 283R that is now owned in partnership with our friends at Wulf & Sons Limousin, Morris, MN. He posts a .81 for REA epd, scanned a 15.9 for REA and 2.86 for IMF. He is one of the finest homozygous polled fullblood sires in our breed at present. "18P" has earned her rights as a big time homozygous polled fullblood donor. If you love a brood cow with a lot of rib shape, volume and body then here she is. She is massive in any way that you look at her, sound in her structure and very appealing in her profile.

**A.I. 6.30.10 to EAFF Polled Pugilist**

Unleashed is a full sibling in blood to the elite homozygous polled fullblood sire ENGD Unbridled. She is also a homozygous polled fullblood and one of the finest ever raised at Englewood Farms. She is extremely clean fronted, strong topped and very long bodied. She stands strong and powerful with an abundance of bone and power. This is the type fullblood female you can surround a program around. We just really appreciate her look and prominent stance.

This homozygous polled female is packed full of muscle with a lot of power and performance bred into her. She is a complete outcross to most established bloodlines of fullblood cattle in the USA and we feel has all the right ingredients to be a "powerhouse" in production. Her extreme thickness combined with her depth of flank makes her a prime candidate for transplant down the road.

One of the highest ribeye females in our breed at .95 is this daughter of Wulf's Sirloin 3172S. She is a very well made direct daughter of Lenape Aphid "18P". This young heifer is a top replacement heifer that has a solid set of epd's with a very predictable pedigree. Her mating to our new outcross herd sire Wulf's Upgrade will be an added bonus to the new owner of this female.

One of the sale highlights is this guaranteed heifer pregnancy from the MAGS River Wild female. River Wild is a homozygous polled daughter of EXR New Generation 017M that goes back to the leading Magness donor, MAGS Lady Ace. Pages can be written about the legacy surrounding the Lady Ace cow family. She is a daughter of EXLR Intrigue and from the CHAZ Miss Greta 7003G cow family. MAGS River Wild is one the leading purebred females at Englewood Farms. She is a solid producing donor where her progeny continue to amaze us with their above performance and achievements within their contemporary groups. This mating sired by GAR Predestined is for sure to be a highlight in any program. Take a close look at the strength in numbers and we can only imagine what the heifer is going to look like.

One of the sale features is this HC Final Time 407 daughter from the elite donor MAGS River Wild. She offers a very strong maternal look to her with her depth of flank and over all capacity. She is still very feminine up through her front end and very appealing in her design. This heifer offers a 22 for milk, .44 for REA and scanned a 3.51 for IMF. She is homozygous polled and we are excited about her going into production where we think she will be an overachiever.

Laura's Accent

One of the premier fullblood donor cows to ever grace our great breed was Laura's Accent. She is a daughter of the all-time great Harvest Olympus and from the famed TEXS Star Golly. She made her mark has being one of the very first big time fullblood females ever produced at Harvey Limousin. She was named after the recently deceased Laura Harvey.

Talk about power and performance! This young female has it all stacked in her favor! This daughter of Laura's Accent is sired by CTCA Criss Cross 6254S, a leading son of GPF Blaque Rulon from a daughter of Wulf's Dawson. He is leading Englewood Farms herd sire where a select few of his progeny are highlighted throughout this sale offering. This young heifer is super thick made with loads of performance. She has the muscle and the rib capacity, performance needed to make a top brood cow in the future. She posted a .71 for REA, 81 for yearling weight and scanned a 11.86 for REA and 3.75 for IMF.

A.I. 5.04.10 to Wulf's Upgrade; P.E. 5.08-8.16.10 to Wulf's Upgrade.

The blending of Purebred with fullblood has created some exciting results in these three young full sisters! Sired by the Englewood Farms bull, Wulf's Shop Talk 2332S and of course from the reputable fullblood donor Laura's Accent. They all seem to be made alike in that they are extremely clean fronted, strong down their topline and very appealing in their stance. They have the strength in epd's for weaning weight, yearling weight and ribeye. All three of these full sisters sell bred to the black and homozygous polled out-cross sire, Wulf's Upgrade 0550U. He is a very deep bodied, big footed and sound structured bull that will work very well on these heifers.

**Will calve before the sale to Wulf's Sirloin.**

302R is a very powerful female. She is double polled and double black and sired by the consistent breeding bull AUTO Black Dakota 129J. 302R is long down her top, easy fleshing and stands on a good set of feet and legs. When you see this female you will notice how well she balances up and how smooth she is in her pattern. This purebred female has a -0.9 on birthweight EPD and a .50 for rib-eye area.

**Will calve before the sale to Wulf's Sirloin.**

Sired by Wulf's Reno is this black and polled performance female. This moderate framed, deep sided female has a 64 weaning EPD, a 111 for yearling weight, 29 for milk and a huge REA with a .92. We think you can't truly appreciate this female until you see her. She is complete in phenotype and on paper and will be a tremendous asset to any progressive program.

Here is a tremendous female sired by TNUH Blue Print 245H out of a LKCC Tomahawks Touchdown dam. She is homozygous black and double polled and has a balanced set of EPD's highlighted by a 91 for yearling EPD, a 25 for milk, a 26 for carcass weight and a .61 REA. If you study this female phenotypically you want find many flaws. She is deep in her fore and rear rib, square in her hip, strong over her top, youthful and balanced in her udder and stands on a great structure with a big foot. Take an extra look at a cow with unlimited potential.

**LOT 37A - ENGD 088X** - Heifer, calved 9.10.10, black, polled. Sired by KYLD Daytona. BW: 52 lbs.

This red and double polled Fullblood female is loaded with power and muscle. 746S is sired by the popular EAFF Medallion and out of a MINE Gold Medal 436G daughter. She is in the prime of her production and combines moderate birth weight, adequate growth and a 21 for milk. 746S scanned a 4.96 which is a tremendous marbling scan for Fullbloods. This is a unique opportunity to purchase one of our really great producing Fullblood cows.

**LOT 41A - ENGD 0109X** - Bull, calved 10.05.10, black, polled. Sired by Wulf's Sirloin. BW: 88 lbs.

This is a young prospect you will really appreciate on sale day. This 50% Lim-Flex is balanced very nicely, smooth in her neck and shoulder, deep in her flank and has a good disposition. 57W has tremendous EPD's with a 69 weaning, 125 for yearling and a 29 for milk. Not only are her performance EPD's tremendous but she has a .52 for marbling and a \$MTI of 66. This is a top quality replacement female that is sure to generate some attention.
