

LIBERTY RANCH

LR 2 DAY PRODUCTION SALE LIMOUSIN & LIM-FLEX

Friday, February 7th &
Saturday, February 8th, 2014
Plainville, KS

Dear Cattleman,

On behalf of all the employees at Liberty Ranch and the Roger Comeau family we would like to welcome each and every one of you to our annual sale. Liberty Ranch was established 30 years ago by the Comeau family as a registered seedstock producer of Limousin cattle and since then we have worked together at producing the very best product possible for our valued and repeat customer base. I came on board 27 years ago and now with my wife and two sons we have built a life here at Liberty Ranch. We continue to work as a team and surround ourselves around employees that love our cattle, the lay of the land and the customers that we sell to.

Liberty Ranch, which encompasses over 20,000 acres of land and continues to rank in the top 10 Ranches in terms of registered Limousin and Lim-Flex in our breed. This annual sale will give our strong customer base, repeat and potentially new customers a chance to select from a large offering of our genetics. We have always been focused on taking care of the customers with a priority and matching up our product with what will work the best with theirs. Working side by side and hand in hand with propagators of commercial cattle, Limousin and Lim-Flex seedstock for over the 30 years has given us an insight on what kind of product works best for them.

We are excited for you to review this extensive sale catalog to see what we have been up to for so many years. We are proud of what we have to offer and we look forward to shaking your hand on both sale days. We urge you to attend our female sale on Friday and then join us that evening for our "Customer Appreciation" Supper and refreshments at the local Knights of Columbus in Plainville. Then on Saturday will be our annual Bull sale with a select few Quarter Horses.

If we can be of any assistance with you after viewing the sale catalog then please give us a call. We take pride in what we have created at Liberty Ranch and want to share our genetics with you.

Best Regards,
Michael L Smith, Manager
Liberty Ranch

SPECIAL GUESTS -

Joe Epperly	Assistant Executive Director NALF
Mark Anderson	Executive Director NALF
Bernie Tonroy	High Plains Nutrition Midway COOP
Earl Ward	Plainville Livestock
Grant Davidson	Zoetis
Scott Coakley	Laura's Lean Beef
Bonnie Swayne	B & D Feeds
Craig Iwanski	Central Veterinarian Services

AIR TRANSPORTATION -

Hays, Kansas
Wichita, Kansas ... Approximately 3 hours
Denver, Colorado ... Approximately 5 hours
Kansas City, Missouri ... Approximately 4 & 1/2 hours

SALE ACCOMMODATIONS -

Hampton Inn	785.621.4444
4002 General Hays Road, Hays, KS 67601 • Located off I-70 and Hwy 183	
Holiday Inn Express Hotel & Suites	785.625.8000
4650 Roth Ave, Hays, KS 67601 • Located off I-70 and Hwy 183	

TERMS & CONDITIONS - Terms of the sale are cash unless satisfactory credit arrangements have been made prior to the sale. A representative will be on hand sale day if your wishes are to insure your purchases. Please note: The sale manager is only an agent for the seller and has no responsibility other than those involved in conducting the sale. All persons who attend the sale do so at their own risk. Neither the sale manager nor Liberty Ranch assume liability, legal or otherwise, for any accidents which may occur.

SALE ORDER & SUPPLEMENTAL INFORMATION - Sale order is the catalog order and supplemental information will be posted at www.RRMktg.com for your convenience on Thursday evening, February 6th.

EPD'S - All EPD's are current as of December '13. Make note that the new EPD's are subject to change as of January 01, 2014.

LIBERTY RANCH BREEDING GUARANTEE - We guarantee that all bulls sold are fertile to the best of our knowledge and have passed a breeding soundness exam 30-45 days prior to the sale. Although all bulls have passed a BES, we know certain problems will arise after you receive your purchase. To help insure your investment, Liberty Ranch will guarantee all bulls selling against breeding injury, and to be sound breeders for the first breeding season. Breeding season is defined as the 90 days period following the first turnout of the bulls. We will provide you with a satisfactory replacement, if available, or issue you a credit equal to the bull's purchase price minus the salvage value received for that bull.

TRUCKING - Free delivery on Central Locations (Bulls Only). Liberty Ranch offers its customers free delivery to anywhere in the lower 48 states. As a part of that delivery we work with reputable livestock transportation companies that we feel comfortable with the handling of your cattle in both a professional and conscientious way. Liberty Ranch will do everything possible to deliver your cattle to a central location that is convenient for both you and the trucking company. Central locations for delivery will include auction barns, vet clinics and ranches that offer to serve as a delivery point. We will map out the route after the sale and do our best to get your bulls to you as quickly and conveniently as possible. If you would like to insure your cattle, you can do so on sale day. Most of the cattle will be delivered within 30 days following the sale. If you have questions on delivery then please call the Liberty Ranch office at 785.885.4881.

REBATE - We will also be offering a \$50 PER HEAD REBATE (bulls only) for customers that arrange to pick up their bulls here at the sale location or within one week of the sale.

PAYMENT - Cattle must be paid for at the time of the sale unless prior arrangements are made with sale management at the time of the sale at 615.330.2735.

Hybrid Vigor Made Easy with **LIM-FLEX**

LIMOUSIN · ANGUS HYBRID

Progressive producers recognize the advantages of hybrid vigor

- 20% more pounds of calf per cow exposed (due to hybrid advantages in age at puberty, conception rate, survival to weaning, milk production, and weaning weight)
- 1.3 years of additional cow longevity
- 30% greater lifetime production
- Increased fertility and decreased gestation length with hybrid bulls

"Not only do Lim-Flex females offer unprecedented longevity, but they are extremely fertile and maternally inclined."

~ Andy Bailey,
Star Valley Ranch, Hiko, NV

"Our cattle have to be stout, easy fleshing, maternal, and able to fend for themselves. Lim-Flex do this better than any other type of cattle we've ran."

~ Casey Deuter,
Deuter Ranches, Ree Heights, SD

The Ideal Complement to British Based Cows

Maternal Efficiency, Limousin's Best Kept Secret

- Leading major continental breeds in Calving Ease, Calf Vigor, and Calves Weaned per Cow Exposed
- Low maintenance requirements and high efficiency over wide range of feed resources
- Unrivaled Longevity

¹Breed Differences for Maternal Efficiency

Breed	² Biological Efficiency Rank			First Calf Heifers (2 years old)		Mature Cows (5 years old)	
	Low Feed	High Feed	Composite Rank	Birth Wt. (lbs)	Weaned %	Born %	Wean %
Limousin	2	2	1	80.1	73	95	91
Hereford	3	6	5	81.4	70	94	91
Angus	1	5	2	79.6	76	95	89
Gelbvieh	4	4	4	83.4	68	90	86
Simmental	6	2	5	79.4	69	90	87
Charolais	5	1	3	81.4	73	90	86

¹Germplasm Progress Reports, ARS-USDA Meat Animal Research Center

²Ranked by grams of calf weaned per kilogram of dry matter intake per cow. Composite rank across high and low feed compiled by NALF

"A carefully constructed British X Continental can come a lot closer to hitting most of the targets for reproduction, production and end-product than any straightbred I'm aware of."

~ Dr. Jim Gosey,
University of Nebraska
Beef Specialist

LIMOUSIN Means Profit...

Whether you are a producer or a feeder, whether you sell calves or retain ownership, wherever you are, whatever your cowherd, whatever your market; Limousin and Lim-Flex genetics can enhance your profit from the pasture to the rail.

In the Pasture...

- Research has shown that Limousin cows wean a higher percent calf crop per cow exposed.
- Limousin cows are efficient producers on both low and high intake diets, making them fit in various environments
- The average Limousin cow culled for age is over 12 years old, adding 5 to 6 years of production past breakeven
- Docility EPD values have doubled in the past ten years
- Strauss Veal® offers a premium market for weaning age, natural, Limousin/Lim-Flex calves

"Some of these old cows we're running are 93 to 95 months. Those cows are 15 to 17 years of age. They calve well, wean heavy, and keep breeding back. They've paid for themselves a long time ago."

~ Casey Deuter, Deuter Ranches, Ree Heights, SD

Current rank of four major Continental Breeds, based off of MARC trial results.

Breed	Feed Efficiency		Repro/Maternal 1 st Calf Heifers	Repro/Maternal 3-6 Year Old Cows	
	Time 187 d	Fat Thickness 0.43 in	Weaned %	Born Alive %	Weaned %
Simmental	2	2	2	2	2
Gelbvieh	3	3	4	2	3
Limousin	1	1	1	1¹	1¹
Charolais	4	4	1	2	3

*Ranking determined from results published in the 2007 Germ Plasm Evaluation Report, ARS-USDA Meat Animal Research Center, Clay Center Nebraska.

¹Denotes ranking amongst all breeds included in study (Hereford, Angus, Red Angus, Simmental, Gelbvieh, Limousin, Charolais)

In the Feedlot...

- Limousin remains atop the Continental breeds for feed efficiency
- Limousin cattle maintain high feed efficiency at higher finishes and deeper in the feeding cycle
- Marketing opportunity with Laura's Lean Beef for high percentage or full blood Limousin cattle

On the Rail...

- Limousin can eliminate Yield Grade 4 and 5 cattle and increase percent Yield Grade 2 in one generation
- Limousin cattle excel in percent retail product, yield grade and ribeye area
- In tasting panels, Limousin beef ranks high for tenderness, juiciness and flavor

Here is a guide to understanding the whole herd report. Utilize this tool to determine an animal's horned/polled and color status, performance and carcass EPDs. Refer to the breed averages under the "Genetics & Performance" tab on the NALF web site to familiarize yourself with the breed EPDs. Evaluating breed averages and percentiles will allow you to narrow down your bull selection. NALF has a useful tool on its website called the "Sire Selector," which allows you to search for sire prospects based on your own selection criteria and benchmarks.

1 TATTOO identification number along with a herd prefix typically located in the upper or center rib of the ear

2 SEX of animal indicated by M for Males, F for Females, S for Steers.

3 PLD - Polled Status of the animal with P denoting a polled animal

4 BLK - Black color status of the animal with B denoting a black animal

5 CED - Calving Ease Direct EPD and accuracy. When sires A and B are bred to similar replacement heifers, you'd expect 5 percent (the difference between +10% and +5%) more of sire A's calves to be born unassisted as compared to sire B's calves. Said another way, due to genes for calving ease passed on from the sires to their calves, each of sire A's calves out of first-calf heifers have a 5 percent greater chance of being born unassisted as compared to sire B's calves.

6 BW - Birth Weight EPD and accuracy. When mated to equal dams, progeny of sire A (listed above) are expected to weigh 4.0 lbs. less at birth than progeny of sire B (-1.0 - 3.0), due to genes for birth weight passed on from the sires.

7 WW - Weaning Weight EPD and accuracy. Weaning weight EPDs are predictors of pre-weaning growth of progeny. Of the two sires represented above, progeny of sire A are expected to weigh 6 lbs. less than progeny of sire B (44-38) at 205 days of age (when bred to dams of equal value), due to genes inherited for pre-weaning growth from the sires.

8 YW - Yearling Weight EPD and accuracy. Yearling weight EPDs are predictors of progeny growth to yearling ages. For example, progeny of sire A are expected to weigh 20 lbs. less (92-72) than progeny of sire B at 365 days of age (when mated to equal dams), due to genes for growth from the sires.

9 MA - Milking Ability EPD, and accuracy. Milk EPDs are predictors of pounds of daughters' progeny weaning weight due to genes for milk the daughters inherit from the parent in question. For example, daughters of sire A are expected to wean calves which are 7 lbs. heavier than calves from daughters of sire B (30 - 23 lbs.), due to genes for milk passed on to daughters.

10 CEM - Calving Ease Maternal EPD and accuracy. When daughters of sires A and B are bred to similar bulls, daughters of sire A have a 4 percent (14% -10%) greater chance

of calving unassisted with their first calf as compared to daughters of sire B, due to differences in genes the daughters inherited from their sires for easy delivery of their first calves.

11 SC - Scrotal Circumference EPD, and accuracy. Scrotal EPDs are expressed in centimeters (cm), with higher values indicating the expectation of genes for larger average yearling scrotal circumferences to be passed on to sons. If mated to equal dams, sire B would be expected to produce sons which average 1.0 cm larger (1.0 - 0) than the average of sons of sire A. Scrotal circumference has also been correlated to the age of puberty in heifers

12 ST - Stayability EPD and accuracy. Stayability EPDs predict genetic differences in the probability that daughters will produce calves at the age of six years or beyond, given that at least one calf was produced prior to the age of six. Generally, higher stayability EPDs represent genetics for greater longevity. Sire B above is expected to have 15% more daughters still in production at the age of six or beyond (+20% vs. +5% = 15% difference) as compared to the percentage of daughters of sire A.

13 DOC - Docility EPD and accuracy. Docility EPDs predict genetic differences in the probability that offspring are scored as 1 (docile) or 2 (restless) as opposed to 3, 4, 5 or 6 (nervous to very aggressive). The higher docility EPD for sire A above is preferred to that of sire B; specifically indicating that 25% more (+15% for sire A to -10% for sire B = 25% difference) of sire A's offspring are expected to have scores of 1 or 2 as compared to offspring of sire B. Generally, the higher the accuracy value, the more progeny with docility scores in groups which have contributed to the EPD, making the EPD more reliable and less subject to change. Only groups with variation in docility scores are used in EPD evaluation.

14 CW - Carcass Weight EPD and accuracy. Carcass weight EPDs are used to genetically design carcasses with weights that fall within an acceptable industry weight range. Optimum carcass weight EPDs for sires will vary according to the types of cows to which the sires are mated and the calf growing/finishing management regime. If mated to cows of equal value, sire A would be expected to produce progeny with carcasses 10 pounds heavier (20 - 10) at harvest than sire B.

15 REA - Ribeye Area EPD and accuracy. Ribeye area EPDs offer an objective

measurement of genetic differences in muscularity. EPDs for ribeye area are expressed in units of square inches, with larger values indicating larger ribeye area and increased expected overall carcass muscularity. Sire A is expected to produce progeny with ribeye areas that are .30 square inches larger (.50 - .20) on average than progeny of sire B.

16 YG - Yield Grade EPD and accuracy. Just as lower carcass yield grades are favored and indicate greater cutability, lower YG EPDs are favored and indicate genetic differences for yield grade and cutability of offspring. When bred to similar cows, offspring of sire A are expected to average .10 (-.10-0) units of yield grade lower than offspring of sire B.

17 MARB - Marbling Score EPD and accuracy. The marbling score EPD is expressed in units of numeric USDA marbling score, with higher values indicating genes for greater deposition of intramuscular fat, or higher expected marbling score and USDA quality grade at a constant age. When mated to similar sets of cows, sire A would be expected to produce progeny with average marbling scores .20 units lower (-.10 - .10) than sire B.

18 SMTI - Mainstream Terminal Index. The mainstream terminal index takes both genetics and economics into account to rank animals in terms of expected profit per carcass produced from weaning to mainstream market endpoints of yield grade 1s and 2s and Select to low-Choice quality grades. It is based on the assumption that Angus-Hereford cows in a two breed rotation are mated to Limousin-influenced terminal sires and is determined primarily by genetics and economics associated with post-weaning growth and yield and quality grade. In this example, if sire A and sire B were mated to similar sets of black baldy cows, sire A would produce progeny with carcasses worth \$15 (\$55 - \$40) more than those of sire B. The mainstream terminal index does not have an associated accuracy value.

*ACC - Accuracy. Accuracy is a measure of the reliability associated with an EPD. For Limousin cattle, accuracy is designated by either a P (pedigree only), P+ (interim pedigree plus own performance in contemporary group) or a numeric value (performance of individual and subsequent progeny in contemporary group) which ranges from 0 to 1. Accuracy indicates the amount of performance information which was used to calculate the EPD.

Note: Carcass EPDs are only calculated for animals that have had carcass data collected on them, their parents, or their progeny by either ultrasound or actual carcass data collection. So in the case of Bull B, for him to have pedigree estimates for his carcass values, his parents would have had data collected on themselves or their progeny.

This 50% Lim-Flex herd sire prospect represents the long running Liberty Ranch program. 3014AS is sired by the popular A.I. sire Bar JZ Wideload 269W which is a son of LVLS Top Criteria 8862P. This young herd sire prospect is homozygous polled and has not been tested for the homozygous polled trait as of this date. He is a complete outcross to most established lines of black and polled cattle and we feel is really, really good. His highlighted pedigree figured EPD's are -0.2 for birth, 91 for yearling weight, 27 for milk and .22 for marbling. Not only does that young bull have the outcross pedigree and the strength in numbers, he also has a very prominent look and flawless profile to him as well. We love him from the ground up. He is very fluid in his movement, soft and easy in his pasterns and stands on a lot of bone. He is extremely square and level out of his rump and yet very stout made when you see him from behind. This young bull represents 30 years of propagating and developing some of the breed's most predictable genetics.

Established in 1984 and is one of the Limousin breed's largest seedstock suppliers.

3015A is one amazing herd sire prospect and one of the finest to ever be created from this breed leading program, Liberty Ranch. This January yearling herd sire prospect is a 50% Lim-Flex and is homozygous polled and has yet to be tested for the homozygous black trait. He is sired by the multiple trait leading and deceased sire JCL Lodestar 27L. Lodestar when crossed with Angus genetics have been proven as one of the best crosses to ever be created in the Lim-Flex breed and this young bull is a prime example of that statement. His projected EPD's have posted as a -2.0 for birth, 58 for weaning weight, 127 for yearling weight and 29 for milk. 3015A is massive in his rib shape, volume and over all capacity. He is very soft in his pasterns and very free and easy in his movement. We admire his elite performance as compared to others in his contemporary group. Buy with confidence and consider this young herd sire prospect, we think you will be pleased when you see his video and/or see him on sale day.

This 50% Lim-Flex herd sire prospect is almost perfect in anyway that you view him. He is so clean up through his front end and very appealing from his side profile. We love his length of body, levelness from his hooks to his pens and he stands nearly perfect. This young herd bull represents the best of the best and to ever be created in the 30 years since the inception of Liberty Ranch. His sire is the leading herd bull at Liberty Ranch, MAGS Unreal. He is a purebred son of the multiple trait leading sire AUTO Dollar General 122R and from the proven daughter of JCL Lodestar 27L, MAGS Passion Flower. His dam is RRA Pride 1168, a proven daughter of Connealy Foresight, a son of Woodall Foresight. We invite to make your journey to the beautiful cow country near Plainville, KS and consider this young bull for your program.

All great herd sires are always built right from the ground up and this young herd sire prospect certainly follows that statement. This grandson of MAGS Unreal is from a daughter of Connealy Answer 5114, a son of SAV Final Answer. This 50% Lim-Flex herd bull is long and clean up through his head, neck and shoulder. He is super long, level down his top and very strong in his stance. We admire Admiral as he is very thick made, wide standing with a lot of performance backing is strong pedigree. His pedigree figured EPD's are -2.6 for birth, 49 for weaning weight, 103 for yearling weight and 29 for milk.

This March yearling herd sire prospect has a very appealing profile to him. He is a 75% Lim-Flex, double polled, double black son of LH Xcel Boy 113X. Xcel Boy is a young Liberty Ranch herd sire and son of LH Rodemaster 338R that has done a superb job at Liberty creating a uniform calf crop with a very prominent look to them. This young guy has so much to offer as a major herd sire for any program at any level. He just has that prominent show look to him and is very appealing at any point that you might take a look at him. He is strong topped, super sound, heavy in his bone structure and is one of those bulls that have it going on. We admire his 0.8 for birth EPD, 56 for weaning, 104 for yearling weight, 27 for milk and .25 for marbling.

RRDC Android 3013A is a big time herd sire prospect in the making. This 50% Lim-Flex bull is double black, homozygous polled and strong in every trait. The blending of the purebred genetics of MAGS Unreal with Angus females has proven to be of worked and this young bull is a top example of that statement. Android is moderate in frame, very level from his hooks to his pins and stands very sound and is soft in his movement. We so admire his balance of extreme thickness with a tremendous amount of rib shape and volume. His pedigree figured EPD's are some of the finest in the business with a -1.4 for birth, 93 for yearling weight, 36 for milk and .39 for marbling and 56 for MTI.

Here is one of the favorite herd sires of a few of the employees at Liberty Ranch and those that have been by to view the sale offering. This son of MAGS Unreal is truly unreal.....here is a great one in the making! MAGS Unreal made his way to Liberty Ranch as a top purchase in a Magness Land & Cattle Co. sale. He is recognized as one of the top purebred bulls in our business. His sire is the multiple trait-leading sire AUTO Dollar General 122R, the leading sire for Gene and Virginia Raymond, GV Limousin, Garnett, KS. His dam is a daughter of JCL Lodestar 27L back to the Cane Ridge Poll Ellie donor. RRDC Amos's dam is a proven Angus producing female and daughter of Connealy Black Baron of S. The reason this bull is very good is because he is suppose to be. He is bred with the finest genetics and we feel he can make a very positive impact in any program that he goes to.

RRDC Apollo 3008A is the result of the blending of one of the breed's biggest numbered bulls JCL Lodestar 27L with a well balanced and top producing Red Angus female sired by Brown-CBAR Affirmed F7081. This 50% Lim-Flex herd sire prospect is moderate in his frame score, very easy in his middle with a ton of rib shape and volume. He is sound made, easy in his condition and extremely big in his marbling number with a .61. This is the kind of bull that can certainly change a set of cows in one mating if you want to make them moderate, easy doing and very performance oriented.

- Here is one our favorites of the entire sale offering
- She is a 50% Lim-Flex daughter of the multiple trait leading sire JCL Lodestar 27L and from a daughter of Connealy Admiral 690
- This heifer is long up through her front end, extreme level down her top and very heavy structured
- We appreciate the bone, substance and the over all mass that this heifer has

Established in 1984 and is one of the Limousin breed's largest seedstock suppliers.

Lots 87 - 206

of Commercial & Registered Females

Selling in groups of five.

Information on all of these females will be available sale day or you can log on to www.RRmktg.com the evening of February 6th for complete details

95 COMMERCIAL & REGISTERED RUNNING AGE COWS

35 COMMERCIAL & REGISTERED BRED HEIFERS

LIMOUSIN Means Profit...

Whether you are a producer or a feeder, whether you sell calves or retain ownership, wherever you are, whatever your cowherd, whatever your market; Limousin and Lim-Flex genetics can enhance your profit from the pasture to the rail.

In the Pasture...

- Research has shown that Limousin cows wean a higher present calf crop per cow exposed.
- Limousin cows are efficient producers on both low and high intake diets, making them fit in various environments
- The average Limousin cow culled for age is over 12 years old, adding 5 to 6 years of production past breakeven
- Docility EPD values have doubled in the past ten years
- Strauss Veal© offers a premium market for weaning age, natural, Limousin/Lim-Flex calves

"Some of these old cows we're running are 93 to 95 months. Those cows are 15 to 17 years of age. They calve well, wean heavy, and keep breeding back. They've paid for themselves a long time ago."

~ Casey Deuter, Deuter Ranches, Ree Heights, SD

Current rank of four major Continental Breeds, based off of MARC trial results.

Breed	Feed Efficiency		Repro/Maternal 1 st Calf Heifers	Repro/Maternal 3-6 Year Old Cows	
	Time 187 d	Fat Thickness 0.43 in	Weaned %	Born Alive %	Weaned %
Simmental	2	2	2	2	2
Gelbvieh	3	3	4	2	3
Limousin	1	1	1	1¹	1¹
Charolais	4	4	1	2	3

*Ranking determined from results published in the 2007 Germ Plasm Evaluation Report, ARS-USDA Meat Animal Research Center, Clay Center Nebraska.

¹Denotes ranking amongst all breeds included in study (Hereford, Angus, Red Angus, Simmental, Gelbvieh, Limousin, Charolais)

In the Feedlot...

- Limousin remains atop the Continental breeds for feed efficiency
- Limousin cattle maintain high feed efficiency at higher finishes and deeper in the feeding cycle
- Marketing opportunity with Laura's Lean Beef for high percentage or full blood Limousin cattle

On the Rail...

- Limousin can eliminate Yield Grade 4 and 5 cattle and increase percent Yield Grade 2 in one generation
- Limousin cattle excel in percent retail product, yield grade and ribeye area
- In tasting panels, Limousin beef ranks high for tenderness, juiciness and flavor

YOUR TRUSTED SOURCE FOR 30 YEARS AND COUNTING!

Limousin & Lim-Flex Beef Bulls

LIBERTY RANCH BREEDING GUARANTEE - We guarantee that all bulls sold are fertile to the best of our knowledge and have passed a breeding soundness exam 30-45 days prior to the sale. Although all bulls have passed a BES, we know certain problems will arise after you receive your purchase. To help insure your investment, Liberty Ranch will guarantee all bulls selling against breeding injury, and to be sound breeders for the first breeding season. Breeding season is defined as the 90 days period following the first turnout of the bulls. We will provide you with a satisfactory replacement, if available, or issue you a credit equal to the bull's purchase price minus the salvage value received for that bull.

TRUCKING - Free delivery on Central Locations (Bulls Only). Liberty Ranch offers its customers free delivery to anywhere in the lower 48 states. As a part of that delivery we work with reputable livestock transportation companies that we feel comfortable with the handling of your cattle in both a professional and conscientious way. Liberty Ranch will do everything possible to deliver your cattle to a central location that is convenient for both you and the trucking company. Central locations for delivery will include auction barns, vet clinics and ranches that offer to serve as a delivery point. We will map out the route after the sale and do our best to get your bulls to you as quickly and conveniently as possible. If you would like to insure your cattle, you can do so on sale day. Most of the cattle will be delivered within 30 days following the sale. If you have questions on delivery then please call the Liberty Ranch office at 785.885.4881.

MAGS Waken is a 50% Lim-Flex double homozygous herd sire that is just getting acclimated in the rolling hills and cow country at Liberty Ranch. His dam is a daughter of BR Midland back to a daughter of B/R New Design 323. This young herd sire has sired a set of calves we think you will be impressed with. MAGS Waken is a low birth weight sire with a -1.9 and actual of 72#. He also has a .44 marbling EPD and MTI of 55.

MAGS Wild Bunch has been a top A.I. in our breed and is one of the top sires in the pasture at Liberty Ranch. He is a complete outcross to most established lines of black and polled cattle. His dam is a past national show champion and his numbers are well above breed average. His sons selling in this sale represent his lineage very well and are some of the best in their contemporary groups.

A complete outcross to most established lines of cattle in our breed. MAGS Stay Tuned is sired by Wulf's Fanfare and from a daughter of COLE First Down. He has sired a set of bulls that hit the commercial cattleman very well and are in high demand when at the marketplace.

This young 50% Lim-Flex herd sire is sired by Coleman Production 608 and is one top performer. He has earned a -0.4 for birth, 62 for weaning weight, 114 for yearling weight and 29 for milk. He also has earned a .33 for marbling and 57 for MTI. You will find his sons to be very calm, rock hard and with plenty of muscle and performance.

MAGS With Rythmn is an elite herd sire and a top 75% Lim-Flex bull for Liberty Ranch. He represents one of the strongest bloodlines in our breed in being sired by DHVO Deuce and is from the elite donor BOHI Red Robin 282R owned by Stowers Limousin, Bridgeport, TX and Counsil Family Limousin, Madisonville, TX. This young homozygous black herd sire represents the best of the best in our business and his sons in this Liberty Ranch sale will be great additions for the future buyers

A admirable conformation, predictable pedigree and rock solid numbers are three main reasons why Liberty Ranch is using MAGS Sheriff in their program. He is a homozygous black son of Connealy Lead On and from a daughter of EXLR Intrigue back to a daughter of COLE First Down. He offers a low birth of 0.2 and 77 pounds. He also posted an adjusted weaning weight of 842 pounds and adjusted yearling weight of 1,440 pounds. His scan data is 16.5 for REA and 4.3 for marbling as well.

16.5 for REA and 4.66 for IMF along with a breed leading pedigree are just a few reasons why MAGS Rawhide is a leading sire for Liberty Ranch. He is a homozygous polled son of EF Main Stay 541M and from a daughter of COLE First Down. This proven purebred sire has done a top job in siring a set of bulls here that will make a difference on a set of cows and result in more dollars in the marketplace.

MAGS Ridge is a purebred son of the multiple trait leading sire JCL Lodestar 27L and from a once proven donor Cane Ridge Danielle. This proven bull has earned a solid set of numbers with a 1.2 for birth, 93 for yearling weight and 29 for milk. He scanned a .40 for ribeye and .11 for marbling. In our breed there is nothing any better than progeny that go back to the famed JCL Lodestar 27L.
