PRODUCTION SALE
LIMOUSIN • LIM-FLEX

Roger Comeau and Family along with myself, Debbie, Cole and Jonah would like to welcome everyone to our annual Limousin and Lim-Flex sale.

31 years ago Liberty Ranch was established as a seedstock producer and propagator of registered Limousin cattle. The main goal was to create a product that would be accepted by serious cattleman and purebred breeders alike. Since the inception Liberty Ranch has evolved to ranking in the top 10 list of the most cattle registered in the Limousin breed. Liberty Ranch encompasses over 20,000 acres of land and we continue to grow as necessary. We consider everyone that works at Liberty Ranch to be a part of our family and for sure approach every endeavor as a team. We know that putting on a sale of this size it takes a lot of time and dedication and we appreciate everyone involved in making this come to fruition. Our number #1 focus at Liberty Ranch is to make sure we take care of the customers. Without our long list of dedicated customers and new clients coming on at a very steady pace we would not be what we are today. This year we are offering nearly 300 head of cattle. We will offer for sale the stoutest set of BEEF BULLS ever assembled at Liberty Ranch. They are coming 2 years that are ready to work and add pounds and performance to your calf crop. They along a few coming yearling herd sire prospects, show heifers, replacement heifer and young bred heifers will be the main focus of the sale offering. Also selling will be nearly 100 bred cows that will sell in groups of five.

Since the inception of Liberty Ranch we have been able to work closely with noted cattleman around the country and have realized their main goals and demands on their programs to make it more profitable. In doing so it has aided us in keeping grounded as to what kind of cattle to produce and what will be in demand. We think we have met this goal with this strong set of sale cattle.

This year's sale will be 2.14.15 with our annual Liberty Ranch Customer Appreciation Supper and Social taking place on Friday evening 2.13.15 at 7 p.m. at the Knights of Columbus in Plainville, KS. We urge you to come join us for a Limousin steak, refreshment of your liking and most important fellowship amongst new and old friends. Lets celebrate together the strong cattle market and all that our breed has to offer the industry.

Best Regards,
Michael L. Smith, Manager
Liberty Ranch

LIBERTY RANCH

TERMS & CONDITIONS - Terms of the sale are cash unless satisfactory credit arrangements have been made prior to the sale. A representative will be on hand sale day if your wishes are to insure your purchases. Please note: The sale manager is only an agent for the seller and has no responsibility other than those involved in conducting the sale. All persons who attend the sale do so at their own risk. Neither the sale manager nor Liberty Ranch assume liability, legal or otherwise, for any accidents which may occur.

SALE ORDER & SUPPLEMENTAL INFORMATION - Sale order is the catalog order and supplemental information will be posted at www.RRMktg.com for your convenience on Friday evening, February 13th.

EPD'S - All EPD's are current as of December '13. Make note that the new EPD's are subject to change as of January 01, 2015.

LIBERTY RANCH BREEDING GUARANTEE - We guarantee that all bulls sold are fertile to the best of our knowledge and have passed a breeding soundness exam 30-45 days prior to the sale. Although all bulls have passed a BES, we know certain problems will arise after you receive your purchase. To help insure your investment, Liberty Ranch will guarantee all bulls selling against breeding injury, and to be sound breeders for the first breeding season. Breeding season is defined as the 90 days period following the first turnout of the bulls. We will provide you with a satisfactory replacement, if available, or issue you a credit equal to the bull's purchase price minus the salvage value received for that bull.

TRUCKING - Free delivery on Central Locations (Bulls Only). Liberty Ranch offers its customers free delivery to anywhere in the lower 48 states. As a part of that delivery we work with reputable livestock transportation companies that we feel comfortable with the handling of your cattle in both a professional and conscientious way. Liberty Ranch will do everything possible to deliver your cattle to a central location that is convenient for both you and the trucking company. Central locations for delivery will include auction barns, vet clinics and ranches that offer to serve as a delivery point. We will map out the route after the sale and do our best to get your bulls to you as quickly and conveniently as possible. If you would like to insure your cattle, you can do so on sale day. Most of the cattle will be delivered within 30 days following the sale. If you have questions on delivery then please call the Liberty Ranch office at 785.885.4881.

REBATE - We will also be offering a \$50 PER HEAD REBATE (bulls only) for customers that arrange to pick up their bulls here at the sale location or within one week of the sale.

PAYMENT - Cattle must be paid for at the time of the sale unless prior arrangements are made with sale management at the time of the sale at 615.330.2735.

Hybrid Vigor Made Easy with **LIM-FLEX**[®]

LIMOUSIN · ANGUS HYBRID

Progressive producers recognize the advantages of hybrid vigor

- 20% more pounds of calf per cow exposed (due to hybrid advantages in age at puberty, conception rate, survival to weaning, milk production, and weaning weight)
- 1.3 years of additional cow longevity
- 30% greater lifetime production
- Increased fertility and decreased gestation length with hybrid bulls

"Our cattle have to be stout, easy fleshing, maternal, and able to fend for themselves. Lim-Flex do this better than any other type of cattle we've ran."

~ Casey Deuter,
Deuter Ranches, Ree Heights, SD

"Not only do Lim-Flex females offer unprecedented longevity, but they are extremely fertile and maternally inclined."

~ Andy Bailey,
Star Valley Ranch, Hiko, NV

The Ideal Complement to British Based Cows

Maternal Efficiency, Limousin's Best Kept Secret

- Leading major continental breeds in Calving Ease, Calf Vigor, and Calves Weaned per Cow Exposed
- Low maintenance requirements and high efficiency over wide range of feed resources
- Unrivaled Longevity

¹Breed Differences for Maternal Efficiency

Breed	² Biological Efficiency Rank			First Calf Heifers (2 years old)		Mature Cows (5 years old)	
	Low Feed	High Feed	Composite Rank	Birth Wt. (lbs)	Weaned %	Born %	Wean %
Limousin	2	2	1	80.1	73	95	91
Hereford	3	6	5	81.4	70	94	91
Angus	1	5	2	79.6	76	95	89
Gelbvieh	4	4	4	83.4	68	90	86
Simmental	6	2	5	79.4	69	90	87
Charolais	5	1	3	81.4	73	90	86

"A carefully constructed British X Continental can come a lot closer to hitting most of the targets for reproduction, production and end-product than any straightbred I'm aware of."

~ Dr. Jim Gosey,
University of Nebraska
Beef Specialist

¹Germplasm Progress Reports, ARS-USDA Meat Animal Research Center

²Ranked by grams of calf weaned per kilogram of dry matter intake per cow. Composite rank across high and low feed compiled by NALF

LIMOUSIN Means Profit...

Whether you are a producer or a feeder, whether you sell calves or retain ownership, wherever you are, whatever your cowherd, whatever your market; Limousin and Lim-Flex genetics can enhance your profit from the pasture to the rail.

In the Pasture...

- Research has shown that Limousin cows wean a higher present calf crop per cow exposed.
- Limousin cows are efficient producers on both low and high intake diets, making them fit in various environments
- The average Limousin cow culled for age is over 12 years old, adding 5 to 6 years of production past breakeven
- Docility EPD values have doubled in the past ten years
- Strauss Veal© offers a premium market for weaning age, natural, Limousin/Lim-Flex calves

"Some of these old cows we're running are 93 to 95 models. Those cows are 15 to 17 years of age. They calve well, wean heavy, and keep breeding back. They've paid for themselves a long time ago."

~ Casey Deuter, Deuter Ranches, Ree Heights, SD

Current rank of four major Continental Breeds, based off of MARC trial results.

Breed	Feed Efficiency		Repro/Maternal 1 st Calf Heifers	Repro/Maternal 3-6 Year Old Cows	
	Time 187 d	Fat Thickness 0.43 in	Weaned %	Born Alive %	Weaned %
Simmental	2	2	2	2	2
Gelbvieh	3	3	4	2	3
Limousin	1	1	1	1¹	1¹
Charolais	4	4	1	2	3

⁰Ranking determined from results published in the 2007 Germ Plasm Evaluation Report, ARS-USDA Meat Animal Research Center, Clay Center Nebraska.

¹Denotes ranking amongst all breeds included in study (Hereford, Angus, Red Angus, Simmental, Gelbvieh, Limousin, Charolais)

In the Feedlot...

- Limousin remains atop the Continental breeds for feed efficiency
- Limousin cattle maintain high feed efficiency at higher finishes and deeper in the feeding cycle
- Marketing opportunity with Laura's Lean Beef for high percentage or full blood Limousin cattle

On the Rail...

- Limousin can eliminate Yield Grade 4 and 5 cattle and increase percent Yield Grade 2 in one generation
- Limousin cattle excel in percent retail product, yield grade and ribeye area
- In tasting panels, Limousin beef ranks high for tenderness, juiciness and flavor

Limousin Information and EPDs Simplified

Here is a guide to understanding the whole herd report. Utilize this tool to determine an animals horned/polled and color status, performance and carcass EPDs. Refer to the breed averages under the "Genetics & Performance" tab on the NALF web site to familiarize yourself with the breed EPDs. Evaluating breed averages and percentiles will allow you to narrow down your bull selection. NALF has a useful tool on its website called the "Sire Selector," which allows you to search for sire prospects based on your own selection criteria and benchmarks.

- 1 TATTOO identification number** along with a herd prefix typically located in the upper or center rib of the ear
- 2 SEX of animal** indicated by M for Males, F for Females, S for Steers.
- 3 PLD - Polled Status** of the animal with P denoting a polled animal
- 4 BLK - Black color status** of the animal with B denoting a black animal
- 5 CED - Calving Ease Direct EPD and accuracy.** When sires A and B are bred to similar replacement heifers, you'd expect 5 percent (the difference between +10% and +5%) more of sire A's calves to be born unassisted as compared to sire B's calves. Said another way, due to genes for calving ease passed on from the sires to their calves, each of sire A's calves out of first-calf heifers have a 5 percent greater chance of being born unassisted as compared to sire B's calves.

- 6 BW - Birth Weight EPD and accuracy.** When mated to equal dams, progeny of sire A (listed above) are expected to weigh 4.0 lbs. less at birth than progeny of sire B (-1.0 - 3.0) , due to genes for birth weight passed on from the sires.
- 7 WW - Weaning Weight EPD and accuracy.** Weaning weight EPDs are predictors of pre-weaning growth of progeny. Of the two sires represented above, progeny of sire A are expected to weigh 6 lbs. less than progeny of sire B (44-38) at 205 days of age (when bred to dams of equal value), due to genes inherited for pre-weaning growth from the sires.
- 8 YW - Yearling Weight EPD and accuracy.** Yearling weight EPDs are predictors of progeny growth to yearling ages. For example, progeny of sire A are expected to weigh 20 lbs. less (92-72) than progeny of sire B at 365 days of age (when mated to equal dams), due to genes for growth from the sires.

- 9 MA - Milking Ability EPD, and accuracy.** Milk EPDs are predictors of pounds of daughters' progeny weaning weight due to genes for milk the daughters inherit from the parent in question. For example, daughters of sire A are expected to wean calves which are 7 lbs. heavier than calves from daughters of sire B (30 - 23 lbs.), due to genes for milk passed on to daughters.

- 10 CEM - Calving Ease Maternal EPD and accuracy.** When daughters of sires A and B are bred to similar bulls, daughters of sire A have a 4 percent (14% -10%) greater chance

of calving unassisted with their first calf as compared to daughters of sire B, due to differences in genes the daughters inherited from their sires for easy delivery of their first calves.

- 11 SC - Scrotal Circumference EPD, and accuracy.** Scrotal EPDs are expressed in centimeters (cm), with higher values indicating the expectation of genes for larger average yearling scrotal circumferences to be passed on to sons. If mated to equal dams, sire B would be expected to produce sons which average 1.0 cm larger (1.0 - 0) than the average of sons of sire A. Scrotal circumference has also been correlated to the age of puberty in heifers

- 12 ST - Stayability EPD and accuracy.** Stayability EPDs predict genetic differences in the probability that daughters will produce calves at the age of six years or beyond, given that at least one calf was produced prior to the age of six. Generally, higher stayability EPDs represent genetics for greater longevity. Sire B above is expected to have 15% more daughters still in production at the age of six or beyond (+20% vs. +5% = 15% difference) as compared to the percentage of daughters of sire A.

- 13 DOC - Docility EPD and accuracy.** Docility EPDs predict genetic differences in the probability that offspring are scored as 1 (docile) or 2 (restless) as opposed to 3, 4, 5 or 6 (nervous to very aggressive). The higher docility EPD for sire A above is preferred to that of sire B; specifically indicating that 25% more (+15% for sire A to -10% for sire B = 25% difference) of sire A's offspring are expected to have scores of 1 or 2 as compared to offspring of sire B. Generally, the higher the accuracy value, the more progeny with docility scores in groups which have contributed to the EPD, making the EPD more reliable and less subject to change. Only groups with variation in docility scores are used in EPD evaluation.

- 14 CW - Carcass Weight EPD and accuracy.** Carcass weight EPDs are used to genetically design carcasses with weights that fall within an acceptable industry weight range. Optimum carcass weight EPDs for sires will vary according to the types of cows to which the sires are mated and the calf growing/finishing management regime. If mated to cows of equal value, sire A would be expected to produce progeny with carcasses 10 pounds heavier (20 - 10) at harvest than sire B.

- 15 REA - Ribeye Area EPD and accuracy.** Ribeye area EPDs offer an objective

measurement of genetic differences in muscularity. EPDs for ribeye area are expressed in units of square inches, with larger values indicating larger ribeye area and increased expected overall carcass muscularity. Sire A is expected to produce progeny with ribeye areas that are .30 square inches larger (.50 - .20) on average than progeny of sire B.

- 16 YG - Yield Grade EPD and accuracy.** Just as lower carcass yield grades are favored and indicate greater cutability, lower YG EPDs are favored and indicate genetic differences for yield grade and cutability of offspring. When bred to similar cows, offspring of sire A are expected to average .10 (-.10-0) units of yield grade lower than offspring of sire B.

- 17 MARB - Marbling Score EPD and accuracy.** The marbling score EPD is expressed in units of numeric USDA marbling score, with higher values indicating genes for greater deposition of intramuscular fat, or higher expected marbling score and USDA quality grade at a constant age. When mated to similar sets of cows, sire A would be expected to produce progeny with average marbling scores .20 units lower (-.10 - .10) than sire B.

- 18 SMTI - Mainstream Terminal Index.** The mainstream terminal index takes both genetics and economics into account to rank animals in terms of expected profit per carcass produced from weaning to mainstream market endpoints of yield grade 1s and 2s and Select to low-Choice quality grades. It is based on the assumption that Angus-Hereford cows in a two breed rotation are mated to Limousin-influenced terminal sires and is determined primarily by genetics and economics associated with post-weaning growth and yield and quality grade. In this example, if sire A and sire B were mated to similar sets of black baldy cows, sire A would produce progeny with carcasses worth \$15 (\$55 - \$40) more than those of sire B. The mainstream terminal index does not have an associated accuracy value.

*ACC - Accuracy. Accuracy is a measure of the reliability associated with an EPD. For Limousin cattle, accuracy is designated by either a P (pedigree only), P+ (interim pedigree plus own performance in contemporary group) or a numeric value (performance of individual and subsequent progeny in contemporary group) which ranges from 0 to 1. Accuracy indicates the amount of performance information which was used to calculate the EPD.

Note: Carcass EPDs are only calculated for animals have had carcass data collected on them, their parents, or their progeny by either ultrasound or actual carcass data collection. So in the case of Bull B, for him to have pedigree estimates for his carcass values, his parents would have had data collected on themselves or their progeny.

Highlighting this Liberty Ranch sale is this March coming yearling heifer. She is a 50% Lim-Flex that proudly represents one of the top sire groups at Liberty Ranch with MAGS Xtra-Wet. He is one of the hottest and breed's most popular purebred Limousin A.I. sires. He is a son of the national champion sire DHVO Deuce 132R and from a daughter of JCL Lodestar 27L. Her dam is a daughter of Connealy Foresight 7588 and from a daughter of Twin Valley Precision E161. She is very feminine made, long and clean up through her front end. She is near perfect down her top line and very square and level out of her rump. She is super sound in her structure, very appealing from the side profile and has that very prominent look to her. This heifer is a true example as to why the MAGS Xtra Wet genetics are so popular. She along with her paternal sisters and brothers are some of the finest of this sale and we think you will agree when you see them on sale day.

One of the very best matings ever created at Liberty Ranch is the blending of the purebred Limousin sire MAGS Xtra Wet with the purebred Angus females. You take the big footed, big boned, sound structured and heavy muscled sire MAGS Xtra Wet with the moderate framed, easy doing and very maternal Angus females and the results seem to be something like this heifer. RRDC Bonnie 17B offers a balanced set of EPD's with a -0.7 birth, 101 for yearling weight, 27 for milk and .13 for marbling. She is extreme in her foot size, super big boned and very fluid in her movement. She is moderate in her frame, level and square out of her rump and very desirable from a side profile. If you are looking for a future show heifer or a future donor cow then consider this female which has been said by many to be one of the finest ever to carry the Liberty Ranch prefix.

This 50% Lim-Flex heifer comes straight from the keeper/replacement pen at Liberty Ranch. Given the numbers of cattle raised at Liberty Ranch this says a lot about the quality of this female. She is a daughter of the popular MAGS Xtra Wet. He is the breed leading son of DHVO Deuce 132R and from a daughter of JCL Lodestar 27L. He has been said by many to be one of the finest and very best purebred bulls in the breed and we tend to agree based on the quality of progeny. Her dam is a daughter of the Angus sire Ironwood New Level and from a daughter of RITO 6I6 of 4B20 6807. This young heifer stands true to the mating of heavy muscled, good looking purebred Limousin back on Angus will create a product that will be in much demand.

RRDC Belle 18B is the real reason that "Lim-Flex" was created! She is moderate in her frame score, easy in her condition, very deep in her rib shape and has that true brood cow look to her. She is the result of the blending of the purebred genetics of MAGS Xtra Wet with that of the purebred Angus daughter of Wolf Creek Ambush 8358. We appreciate that amount of mass and volume that this heifer has and what kind of future brood cow she will make. This 50% Lim-Flex heifer will be easy to maintain, calm in her disposition with that beautiful "Lim-Flex" to her.

RRDC Brandi 21B posts a 0.2 for birth, 50 for yearling weight, 103 for yearling weight and 28 for milking ability. She is a daughter of MAGS Xtra Wet, the leading purebred son of DHVO Deuce 132R from the proven donor MAGS Puddles, a daughter of the multiple trait leading sire JCL Lodestar 27L. This young coming yearling heifer is made nearly perfect. She is very feminine up through her front end, very level and square out of her hip and has that prominent brood cow to her.

RRDC Bailey 30B has been said by the few noted cattlemen that have seen her, she could easily be one of the finest ever created by Liberty Ranch. That statement alone means a lot as they are an established 31 year old program and known for being a top source for quality Limousin and Lim-Flex seedstock. This double polled, double black 37.5% Lim-Flex heifer is a daughter of RRDC 15Y. He is a son of MAGS Ransford, a son of the multiple trait leading sire JCL Lodestar 27L. Her dam is sired by WK Uptown, a son of Connealy Network and back to a daughter of Twin Valley Precision E161. This heifer offers a -1.8 for birth, 52 for weaning weight, 92 for yearling weight and 28 for milking ability. This young heifer is absolutely perfect in every way that you look at her. She is so feminine up through her front end, extremely long sided, level and square out of her hip and superb in her structure. Buy with confidence as we truly believe RRDC Bailey 30B is a great one in the making!

YOUR TRUSTED SOURCE FOR 31 YEARS AND COUNTING!

Limousin & Lim-Flex BEEF BULLS

LIBERTY RANCH BREEDING GUARANTEE - We guarantee that all bulls sold are fertile to the best of our knowledge and have passed a breeding soundness exam 30-45 days prior to the sale. Although all bulls have passed a BES, we know certain problems will arise after you receive your purchase. To help insure your investment, Liberty Ranch will guarantee all bulls selling against breeding injury, and to be sound breeders for the first breeding season. Breeding season is defined as the 90 days period following the first turnout of the bulls. We will provide you with a satisfactory replacement, if available, or issue you a credit equal to the bull's purchase price minus the salvage value received for that bull.

TRUCKING - Free delivery on Central Locations (Bulls Only). Liberty Ranch offers its customers free delivery to anywhere in the lower 48 states. As a part of that delivery we work with reputable livestock transportation companies that we feel comfortable with the handling of your cattle in both a professional and conscientious way. Liberty Ranch will do everything possible to deliver your cattle to a central location that is convenient for both you and the trucking company. Central locations for delivery will include auction barns, vet clinics and ranches that offer to serve as a delivery point. We will map out the route after the sale and do our best to get your bulls to you as quickly and conveniently as possible. If you would like to insure your cattle, you can do so on sale day. Most of the cattle will be delivered within 30 days following the sale. If you have questions on delivery then please call the Liberty Ranch office at 785.885.4881.

LIMOUSIN Means Profit...

Whether you are a producer or a feeder, whether you sell calves or retain ownership, wherever you are, whatever your cowherd, whatever your market; Limousin and Lim-Flex genetics can enhance your profit from the pasture to the rail.

In the Pasture...

- Research has shown that Limousin cows wean a higher present calf crop per cow exposed.
- Limousin cows are efficient producers on both low and high intake diets, making them fit in various environments
- The average Limousin cow culled for age is over 12 years old, adding 5 to 6 years of production past breakeven
- Docility EPD values have doubled in the past ten years
- Strauss Veal© offers a premium market for weaning age, natural, Limousin/Lim-Flex calves

"Some of these old cows we're running are 93 to 95 models. Those cows are 15 to 17 years of age. They calve well, wean heavy, and keep breeding back. They've paid for themselves a long time ago."

~ Casey Deuter, Deuter Ranches, Ree Heights, SD

Current rank of four major Continental Breeds, based off of MARC trial results.

Breed	Feed Efficiency		Repro/Maternal 1 st Calf Heifers	Repro/Maternal 3-6 Year Old Cows	
	Time 187 d	Fat Thickness 0.43 in	Weaned %	Born Alive %	Weaned %
Simmental	2	2	2	2	2
Gelbvieh	3	3	4	2	3
Limousin	1	1	1	1¹	1¹
Charolais	4	4	1	2	3

*Ranking determined from results published in the 2007 Germ Plasm Evaluation Report, ARS-USDA Meat Animal Research Center, Clay Center Nebraska.

¹Denotes ranking amongst all breeds included in study (Hereford, Angus, Red Angus, Simmental, Gelbvieh, Limousin, Charolais)

In the Feedlot...

- Limousin remains atop the Continental breeds for feed efficiency
- Limousin cattle maintain high feed efficiency at higher finishes and deeper in the feeding cycle
- Marketing opportunity with Laura's Lean Beef for high percentage or full blood Limousin cattle

On the Rail...

- Limousin can eliminate Yield Grade 4 and 5 cattle and increase percent Yield Grade 2 in one generation
- Limousin cattle excel in percent retail product, yield grade and ribeye area
- In tasting panels, Limousin beef ranks high for tenderness, juiciness and flavor

- This double polled, double black, 50% Lim-Flex son of MAGS Xtra Wet is one of the top yearling herd sire prospects to highlight the Liberty Ranch sale. For the last 31 years Liberty Ranch has been propagating some of the top performance cattle in our breed.
- MAGS Xtra Wet is the purebred son of DHVO Deuce 132R from a daughter of JCL Lodestar 27L. He is one of the hottest selling A.I. sires in the breed and rightfully so. His progeny like this young bull are very big boned, big footed and very sound in their structure. This young herd sire is from a daughter of TC Advantage back to a daughter of RITO 616 of 4B20 6807
- If your program is in need of a well made, well bred and very eye appealing herd sire prospect then we urge you to take a close look at RRDC Boone 14B

- Double black and homozygous polled
- Here is a top herd sire prospect and one that we are certain you will appreciate once you lay your eyes on him sale day
- He is sired by the predictable Liberty Ranch sire MAGS Unreal. He is the big numbered purebred herd sire from AUTO Dollar General 122R
- If you are interested in changing a calf crop and creating a set of calves that will have the style and balance needed to meet demands of any purebred and commercial program
- We love the hind leg, fluid movement and length of body that RRDC Baxter 08B has at this point in his life. We think his future will do nothing but get better as time goes on

 HC PUNCH'S BONUS 611
 HC 709

This young 50% Lim-Flex herd sire is sired by Coleman Production 608 and is one top performer. He has earned a -.04 for birth, 62 for weaning weight, 114 for yearling weight and 29 for milk. He also has earned a .33 for marbling and 57 for MTI. You will find his sons to be very calm, rock hard and with plenty of muscle and performance.

MAGS Xtra Wet is the epitome of what a great purebred Limousin bull should be like. He is a purebred son of the national champion bull DHVO Deuce 132R and from a daughter of the now deceased multiple trait leading sire JCL Lodestar 27L. His first progeny to sell at public auction are highlighted in this sale and they are true highlights. The biggest attribute of MAGS Xtra Wet is his heaviness of bone and extreme foot size and as we know in any breed of cattle that is the far most important trait. If they are good from the ground up then all is good. He has earned a solid set of EPD's with a weaning weight of 63, yearling weight of 107 and ribeye number of .52.

MAGS With Rythmn is an elite herd sire and a top 75% Lim-Flex bull for Liberty Ranch. He represents one of the strongest bloodlines in our breed in being sired by DHVO Deuce and is from the elite donor BOHI Red Robin 282R owned by Stowers Limousin, Bridgeport, TX and Council Family Limousin, Madisonville, TX. This young homozygous black herd sire represents the best of the best in our business and his sons in this Liberty Ranch sale will be great additions for the future buyers

MAGS Unreal is one of the breed's top A.I. sires and one of the leading sires for Liberty Ranch. He is a purebred double homozygous son of the multiple trait-leading sire AUTO Dollar General 122R. He was incorporated in the Liberty Ranch program to develop elite purebred bulls and replacement for customers that want to maintain the 100% Limousin status in their program. He is huge numbered with a 1.4 for birth, 36 for milk and he scanned a 14.8 for REA and 3.87 for IMF.

RRDC Unreal 17X is a son of MAGS Unreal. His maternal grand dam is MAGS No Sale. MAGS Unreal is the leading purebred sire and son of AUTO Dollar General 122R from a daughter of JCL Lodestar 27L. MAGS No Sale, the maternal grand dam of RRDC Unreal 17X, is a daughter of AUTO Black Dakota 129J. 17X has been a top sire and producer of top cattle. His calves are in demand by quality conscious cattleman and seem to be some of the first to go from the sale lot.

In the effort to create some of the finest Lim-Flex cattle at Liberty Ranch they incorporated E & B 8021 In Focus 0302. He is a son of Lagrand In Focus 8021 form a daughter of GAR Predestined. He has earned a -2.1 for birth, 51 for weaning weight, 105 for yearling weight and 40 for milk. He has earned a .55 for marbling and 62 for MTI. His first calves were highlights in last year's sale. As Liberty planned they were moderate framed, big numbered and very sound in their structure.

The progeny from MAGS Seymour in this sale are terrific. There is a set of young open heifers from a set of Angus cows that are superb and these sons of his are top performance type bulls. MAGS Seymour is a 50% Lim-Flex son of EXLR New Generation 071M and posted a 1357# adjusted yearling weight and scanned a 14.7 for REA and 3.46 for IMF.

JCL Lodestar 27L is the double homozygous sire that has made as much of an impact as any in our breed of cattle. He is the calving ease sire and son of Hunts Hi-Liter 245G from a daughter of COLE First Down back to a daughter of Polled Pack Leader. The genetics of JCL Lodestar 27L in our breed has earned him a -0.2 for birth, 56 for weaning weight, 113 for yearling weight and .22 for marbling.

LH Xcel Boy 113X is a double homozygous son of LH Rodemaster 338R that has done a tremendous job at Liberty Ranch. He has earned a -0.3 for birth, 99 for yearling weight, 30 for milk and .17 for marbling. He is a 75% Lim-Flex bull that scanned a 15.16 for REA and 3.53 for IMF. His actual performance was 15.16 for REA and 3.53 for IMF. He projects this positive performance into offspring which makes them more in demand.

MAGS Wild Bunch has been a top A.I. in our breed and is one of the top sires in the pasture at Liberty Ranch. He is a complete outcross to most established lines of black and polled cattle. His dam is a past national show champion and his numbers are well above breed average. His sons selling in this sale represent his lineage very well and are some of the best in their contemporary groups.
