

P Bar S Ranch

Proof of Progress VII Sale

October 4, 2014

Elgin, wife Jolene and daughters Taylhor & Tenley Elmore

Slim, Roy, Elgin & Paul

Dear Limousin Enthusiasts,

It is my honor to invite everyone to attend our 7th annual Proof of Progress Production sale on October 4th. This year celebrates the 20th year of being in the purebred seed stock business. We have always referred to our program as the "Little Ranch with Big Genetics". We have enjoyed propagating and developing superior performance seed stock for the most quality conscious commercial and purebred seed stock over the years. We are proud to be a source for Limousin, Lim-Flex and Angus and feel very comfortable as you view this sale catalog that you will be pleased with the sale offering we have assembled. They all carry and proudly represent the PBRS prefix and of course sell fully guaranteed to your liking. We strive to produce cattle that are easy to maintain, above average in their EPD's and very sound in their structure.

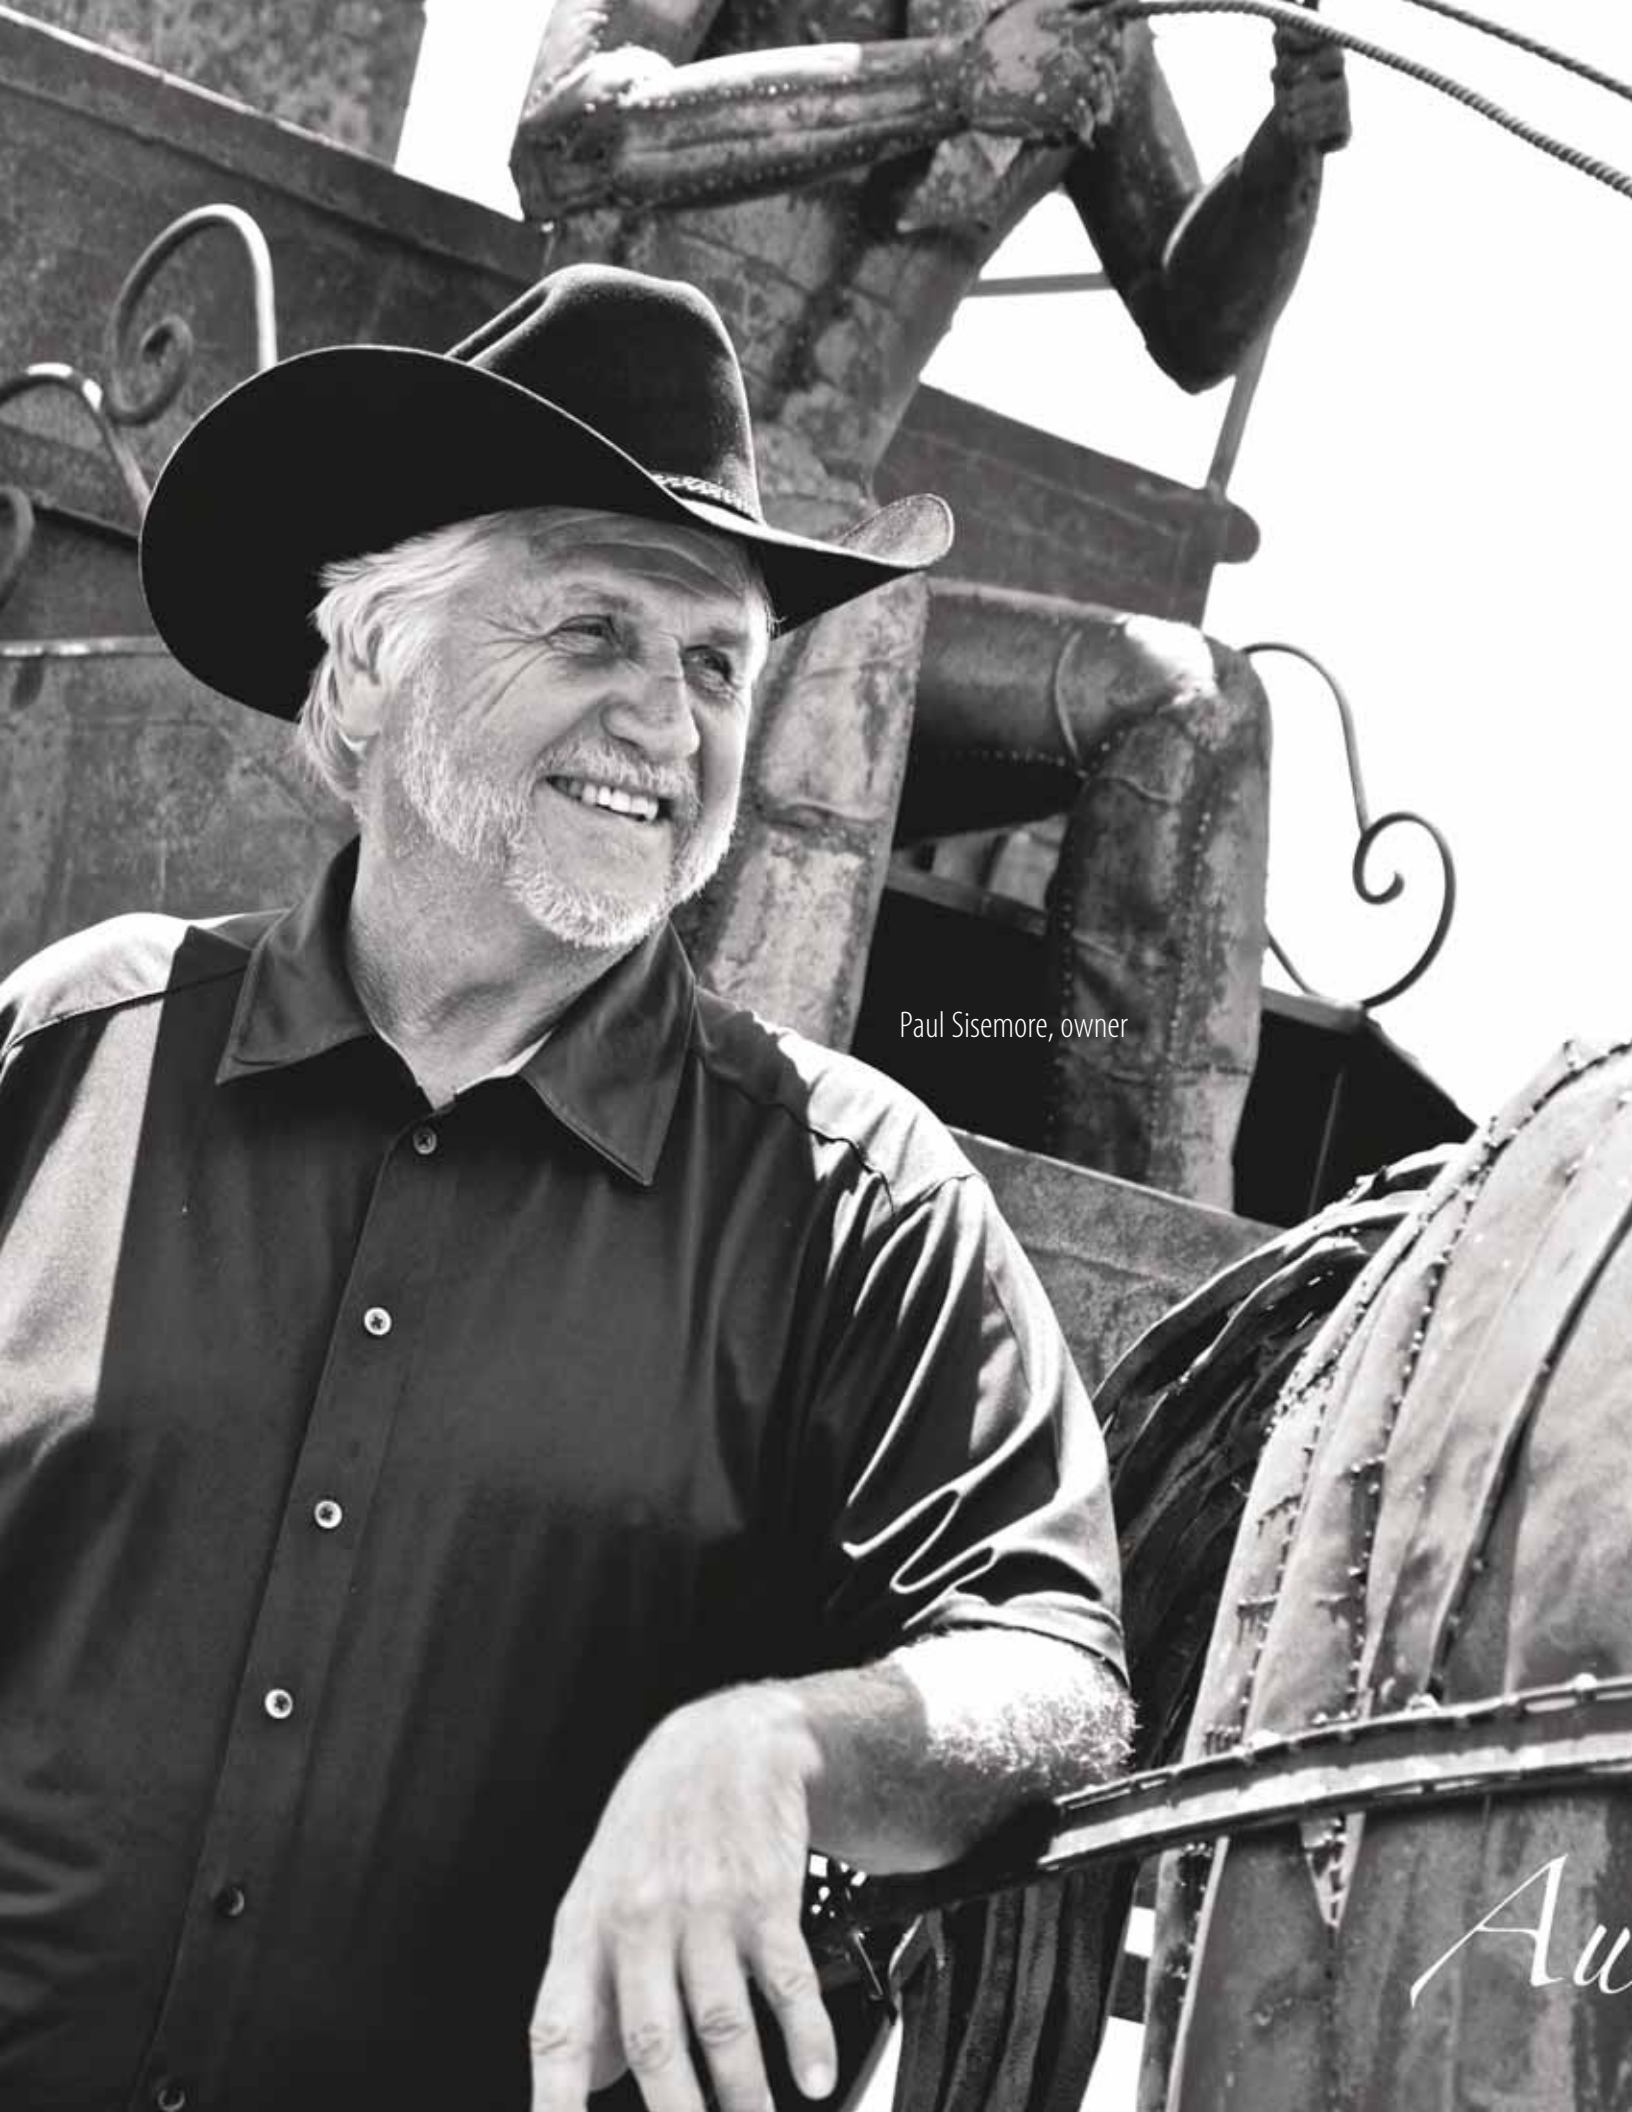

If we can answer any questions in regards to the sale cattle or assistance with hotel or travel arrangements then please don't hesitate to call. It is our honor that would inquire and/or attend the sale.

Best regards,
Paul Sisemore
P Bar S Ranch

Paul was proud for being named to the Oklahoma Limousin Breeders Association Lifetime achievement recipient.

7th Annual Proof of Progress Production Sale

Paul Sisemore, owner

Au

SCHEDULE ▶

Friday, October 3rd

afternoon Cattle are available for viewing and refreshments

Saturday, October 4th

8:00 am Viewing of cattle

11:30 am Complementary lunch & refreshments

1:00 pm **Proof of Progress VII Sale**

Selling half interest and no possession

- A.I. 4.25.14 to EBFL Ypsilanti 420Y
- Black, homozygous polled and one the very best to ever represent the long running and established P Bar S Ranch
- This 46.5% Lim-Flex female is one of the very best to be offered anywhere in the land
- She is a daughter of the big numbered LH U Haul 135U, the leading son of Basin Franchise from EXLR Duchess 7129R, the EXLR New Generation 017M daughter from one of the biggest numbered females in the breed EXLR 199H.
- Her dam MAGS Universal Time is a daughter of GAR Predestined from a proven daughter of JCL Lodestar 27L
- This female is supposed to be good with all of the breed greats lined up in her pedigree
- She posts a 0.7 for birth, 69 for weaning weight, 123 for yearling weight and a 33 for milking ability. She offers a breed leading marbling number of .61 and MTI of 69
- Her marbling scan data is some of the finest ever developed at P Bar S with a 6.12 for IMF
- P Bar S Ranch recognizes how great she is and they welcome any inquiries as to a partnership to develop and create excellence from this young female

ONE OF THE BIGGEST NUMBERED LIM-FLEX BULLS IN THE BREED

- Take a look here at the EPD profile and extreme numbers of this young first calf heifer
- She posts a 71 for weaning weight, 123 for yearling weight, 25 for milk and .20 for marbling
- She scanned a 14.17 for REA and 3.87 for IMF
- This DHVO Deuce 132R daughter is from a performance P Bar S Ranch Angus female sired by Twin Valley Precision 161 and from a daughter of SAV 8180 Traveler 004
- The future calf will from this mating will be extremely big numbered with an exciting pedigree and is one that will fit the marketplace very well

SOME OF THE FINEST LIM-FLEX TO EVER GRACE THE PASTURES IN SAND SPRINGS.

LOT 7 PBRS Aleah 3113A

LOT 8 PBRS Alena 3115A

These four heifers represent one of the very best embryo flushes ever created at P Bar S Ranch. The mating of the purebred bull MAGS Yip with the leading P Bar S Ranch Angus donor LBAF Shawnee 602 has created results that you could only imagine. These four heifers are homozygous polled, homozygous black and made very well. We love and admire their structural correctness, their heaviness of bone, extra shot of thickness and for sure their depth of rib shape and volume. These heifers are huge numbered and are some of the best scanning cattle you could incorporate in your program. We admire their low birth weight EPD's, their 100 plus yearling weight numbers, high 20's for milk and breed leading marbling numbers. Their IMF scan data are all some of the best you can get with the highest being 5.25 and others in the high 4's.

- Homozygous black and double polled
- These future calves are sired by the breed's hottest bull EF Xcessive Force. His calves have taken the breed by storm and are dominating the show ring and topping sales all across the land
- The dam of these calves is MAGS Young Hand, a young daughter of DVHO Deuce that is from a daughter of MAGS Remote
- The blending of two moderate framed animals that are structurally sound and very eye appealing will create resulting progeny that we firmly believe will have added value in the market place

EF Xcessive Force, sire to Lot 41 embryos.

MAGS Young Hand, dam of Lot 41 embryos.

- Here is one of the features of the entire sale
- 202Z is a purebred Angus female sired by Buford Oklahoma, a proven son of SAV Pioneer
- Her dam is one of the proven donors in the P Bar S Ranch program sired by SAV 8180 Traveler 004 from a daughter of N Bar Emulation EXT
- She posts a 104 for yearling weight, 26 for milk and a solid set of numbers across the board
- She is flawless in her design and extreme in her depth of rib shape and overall volume
- A result of some of the most proven and predictable Angus genetics the breed has to offer

- A.I. 12.08.13 to SAV Thunderbird; P.E. 12.26.13 to 2.10.14 to PBR8 024X
- The blending of the heavy muscled purebred sire MAGS Landmark with the deep bodied P Bar S Ranch Angus female has worked out quite well in creating PBR8 Zawid 812Z
- This 50% Lim-Flex first calf heifer sells bred to either the big numbered Angus SAV Thunderbird or to the stout made son of DHVO Deuce, PBR8 024X
- Take note of her low birth of 1.1, high growth of 104 and top ribeye number of .70

- A.I. 12.02.13 to SAV Thunderbird; P.E. 12.26.13 to 2.10.14 to PBR8 024X
- MAGS Landmark was added to the P Bar S Ranch program for his outcross pedigree and for being a purebred sire that was extremely heavy boned, big footed and very sound made. Knowing that when he was mated to soft made and easy doing Angus females, the results would be something that would work well in the beef industry
- We think this female is all that and more! She sells bred to the huge numbered Angus sire SAV Thunderbird or to the consistent producing sire PBR8 024X

Fight fat, flat & 4s

Reduce excess fat, add muscle to flat-made cows, and minimize the chance of Yield Grade 4. Limousin delivers improved feed conversion, industry-leading dressing percentage and fewer discounted carcasses.

Generate more dollars with 21st century Limousin.

Plus...

Hybrid vigor in the best cross with British breeds

Heavy weaning weights & efficient gain

Uniform size & color

Problem-free calving, calf vigor & livability

Documented improved docility

NORTH AMERICAN LIMOUSIN FOUNDATION

EPD & Performance Information

The EPD's in this catalog reflect the new base used to calculate EPD's for Limousin cattle. They now have the same look as Angus EPD's. For commercial producers this rescaling helps simplify the use of Limousin EPD's by managing the set of ranking benchmarks similar of both breeds. While EPD's of the two breeds cannot be directly compared, if you know the benchmark within the Angus genetic evaluation, you also know the EPD benchmarks within the Limousin evaluation. Twice a year EPD's are recalculated to include any new data that has been submitted to NALF. This is done to keep them up to date and improve accuracies. With this in mind, expect EPD's to change on the animals you purchase. The EPD's for the LimFlex calves reflect the combined EPD's of the Angus Assoc. and the current information in the Limousin EPD bank from the sires and dams of that breed. As this is a fairly new development, the accuracies will be low.

PERFORMANCE EPD' s ...

- CE: Stands for calving ease direct and is important when choosing sires to produce calves born easily. The higher the number, the better.
- BW EPDs: Express the difference in birth weight on the progeny of the bulls being compared.
- WW EPDs: Express the difference in pounds at 205 days on the progeny of the bull being compared.
- YW EPDs: Do the same as WW except it is the weight at 365 days.
- MA EPDs: Predict differences in weaning weights from daughter's calves due to genes inherited for milk.
- CETM EPDs: Stand for Calving Ease Total Maternal and are important for choosing sires that produce replacement females that give birth to their first calf easily. The higher the number, the better.
- SC EPDs: Are expressed in centimeters of scrotal circumference, and compare the difference expected in sons of the animal. Scrotal EPDs are a good indicator of age of puberty of both the sons and daughters of the animal.

CARCASS EPD' s ...

- CW EPDs: Express the difference in pounds of carcass weight.
- REA EPDs: Express the difference in square inches of rib eye area.
- YG EPDs: Due to the limited range and usefulness of Limousin in fat thickness EPDs, they have been replaced with the more informative EPDs for yield grade I. YG EPDs are favored and indicate genetic differences for yield grade and cutability of offspring.
- FAT EPDs: Express the difference in the inches of back fat.
- MS EPDs: Express the difference in the amount of marbling or flecks of fat in the rib eye.
- \$\$ VALUE
- INDEXES: Used to rank animals according to net genetic merit for profit from genetics for post-weaning growth and carcass performance.

Crossbreeding, the only FREE Lunch in the Cattle Business

The Benefits of Hybrid Vigor without the Hassle:

Crossbreeding made easy with Lim-Flex

Crossbreeding for the right blend of muscle, maternal ability, and profit just got easier. Introducing registered Lim-Flex seedstock, the pedigreed blend of 25-75% Limousin with Angus (black or red). The muscle and cutability of Limousin with marbling and fleshing ability of Angus, creates a product that translates into profit from the pasture to the rail.

Lim-Flex takes the hassle out of crossbreeding. Lim-Flex provides just the right shot of Limousin and Angus to excel in any market, without the extra management of rotational crossbreeding. Whether you're breeding calves to sell through Strauss Brands, CAB, or the local livestock market, Lim-Flex not only fit but can top the market, and NALF is here to help. Contact NALF's Commercial Marketing Department for more information on its marketing programs.

"Not only do Lim-Flex females offer unprecedented longevity, but they are extremely fertile and maternally inclined."

~ Andy Bailey,
Star Valley Ranch, Hiko, NV

Progressive producers recognize the advantages of hybrid vigor

- 20% more pounds of calf per cow exposed (due to hybrid advantages in age at puberty, conception rate, survival to weaning, milk production, and weaning weight)
- 1.3 years of additional cow longevity
- 30% greater lifetime production
- Increased fertility and decreased gestation length with hybrid bulls

Lim-Flex Advantages

- Flexible seedstock for simple, easily managed crossbreeding
- Flexible marketing options to maximize profit
- Flexible market progeny that consistently hit dressing percent, along with yield and quality grade targets for mainstream markets
- Flexible females adapted for efficiency across a wide range of environments

"Our cattle have to be stout, easy fleshing, maternal, and able to fend for themselves. Lim-Flex do this better than any other type of cattle we've ran."

~ Casey Deuter, Deuter Ranches, Ree Heights, SD
