

MCBN COMPANY MAN 504C, LOT 1

Morris

Diamond
BROWN LAND & CATTLE CO.
Gems
Fall Production Sale

SATURDAY, NOVEMBER 12, 2016

1:00 p.m. at the Ranch, Diamond, Missouri 64840
Selling Registered Limousin & Lim-Flex

SCHEDULE OF EVENTS ...

9:00 a.m. Cattle available for viewing
11:00 a.m. Complimentary lunch served
1:00 p.m. **Diamond Gem Sale begins**

SALE DAY PHONES ...

Randy Ratliff 615-330-2735
Cheryl Brown 417-438-2519
Marty Brown 417-310-6649

AUCTIONEER ... C K Sonny Booth

SALE LOCATION ... GPS Address is 17305 Highway FF, Diamond, MO 64840

Lat 37° 3'12.14" N Log 94° 19'33.02"W
From I-44, take exit 18A - Hwy 59, south two miles to flashing light (Hwy FF),
West ½ mile to ranch. (we are ½ mile west of junction Hwy 59 & Hwy FF)

TRUCKING ...

Each buyer is responsible to coordinate and cover all costs of delivery. Arrangements need to be made prior to or immediately after purchase. No animals will be delivered until payment has been made. We will be available to load out purchases immediately after the sale and all day Sunday, November 13th, after that by appointment. To make arrangements, please call sellers or R&R Marketing and we will make your buying easy and accommodating.

SALE ORDER, SUPPLEMENTAL INFORMATION & ANNOUNCEMENTS ...

A sale order and supplemental sheet will be posted on www.RRMktg.com and www.BrownLandAndCattleCo.com and will be available at the sale. Announcements at the sale by the owners, auctioneers or sale management will take precedence over statements in the sale catalog or supplement.

TERMS, CONDITIONS & PAYMENTS ...

Terms of the sale are cash or credit card (3% convenience fee added). No cattle removed from premises until bill is settled. Cattle must be paid for at the time of the sale unless prior arrangements are made.

LIABILITIES ...

Please note: All persons who attend the sale do so at their own risk. Neither the sale manager nor Brown Land & Cattle Co. assume liability, legal or otherwise, for any accidents that may occur.

SALE MANAGEMENT ...

Randy Ratliff, 615.330.2735

 YW: 1,030 lbs.

- Company Man fits the bill if you are looking for a bull who is soft middle, easy fleshing and high percentage Angus, yet has the extra dimension of a Limousin.
- Calving ease and marbling are certainly traits that will prove to be profitable at both ends of the production chain. 504C ranks in the top 10% of the Lim-Flex population for CED, BW and MB EPDs.
- This lot is particularly special to us, as he traces back to one of our foundation donors, Logan's 903R. She is the dam of many of our favorites as well as AUTO Boot Daddy, who was a many time champion and a sale topper.

• WOW, talk about potential for an economic homerun with MCBN Clean Sweep! Given his data profile, Clean Sweep is not leaving any potential for income on the table. With a 128 YW EPD stacked on top of being in the top 3% of the breed for CW, top 4% for \$MTI and top 10% for MB, the potential income per head is very promising.

• This homozygous polled son of MCBN Yasir 125Y goes back to our foundation donor LVLS Miss Blackbird 111U.

• Here is one of the very premium growth sires we have elected to offer this year in public auction. MCBN Chester, is generations of pounds and performance stacked into one complete package.

• An 86 WW and 132 YW EPDs ranks him in the top 1% and top 2% of the Lim-Flex population. Quite impressive figures that should definitely be a positive addition to most purebred and commercial herds.

• Chester is a direct son of MCBN Yasir 125Y, who is consistently siring our high growth cattle that excel in

terms of CW, MB and SMTI.

YW: 936 lbs.

- We absolutely love the data profile on this unique individual, he is extremely balanced from left to right as you study the statistics. He jumps from an 11 CED to a 110 YW EPD. For us, what really makes him stand out is the fact that he is in the top 3% for MB and MTI, as well as the top 15% for CW and top 20% for REA.
- Very rarely does a bull tie together so many exclusive performance traits, while still being extremely attractive phenotypically.
- Tracing back to EXAR Upshot, does nothing but add value to Carnival's already impressive pedigree, Upshot is clearly one of the dominant sires currently in the Angus population.

- We have elected to offer a commercial bull in this offering, because he is "just that good!" His dimension of muscle, fleshing ability and mobility all combine to make him the rancher's kind.
- This son of our MCBN Zenith, has the rare combination of ruggedness and smoothness of pattern. He blends all of his stout features together into an attractive package and would make the ideal Lim-Flex influence bull in a commercial scenario or in a purebred situation, he would work ideally to clean up on recips.

• 15 years later, JCL Lodestar is still producing cattle that exceed expectations and hit it out of the park when it comes to birth to yearling spread. Very rarely does a bull maintain such high percentile rankings into his second decade of production. MCBN Craftsman is a prime example of the type of cattle we have come to expect by Lodestar.

• Craftsman is ruggedly constructed, long bodied and had the highest recorded actual yearling weight of any of the spring 2015 bulls in the offering.

• Combining the very elite influence of JCL Lodestar and EXAR Upshot, we have confidence that this young sire will do anything that is asked of him in regards to injecting calving ease, growth, milk and marbling.

- MCBN Bounty Hunter has had a lot of “friends” here at the ranch, everyone can’t help but notice how much mass and volume he possesses. He meets the ground with a substantial foot and acceptable base width.
- If you are looking for a more mature bull to turn out with cows immediately, here is your only option to do so in this fall’s sale. Bounty Hunter has spent his time here at the ranch settling heifers and he has done a tremendous job. He has the tools to be your lead sire.
- The breeding flexibility is endless with Bounty Hunter, as his birth to yearling numbers are desirable and his marbling and SMTI figures put him in the top 1% of the entire Lim-Flex non-sire population!

- If you look into the depths of this special female's pedigree there are more world class cattle than one could reasonably mention in a single footnote. Several of the ones that come to mind are MAGS Winston, MAGS Xukalani, Rito 616, Rebeca 1019P and Carrousel's Pina Colada.
- Beyond the impactful pedigree that MCBN Charlene is blessed with, her individual performance and phenotype is obviously noticeable. She is exceptionally long bodied, smooth patterned and heavy muscled. She gives you a great look from any angle.
- She is a homozygous polled, growth and marbling specialist which correlates into an impressive \$MTI of 67.09.

LH Rodemaster 338R, sire of MCBN Yasir 125Y and paternal grandsire to Lot 12.

- The combination of Connealy Consensus and LH Rodemaster has certainly proven itself time and time again in the Lim-Flex populations for producing cattle that are ranch ready and destined for productive futures.

- Homozygous polled and homozygous black, 43% Lim-Flex is above average for nearly every trait and for all of the major traits.

- MCBN Capable de Tout traces back to the Express Angus donor EXAR Scotch Cap 1548.

- As ranchers, you know how there is that one that catches your eye each time you walk through the calves or have them in to sort them. MCBN Cowgirl is one of those. She has the unexplainable phenotypic quality about her that we are drawn to.
- She comes by her inherent good looks naturally, as her paternal grand dam, EXLR Rebeca 1019P is known industry wide for being one of the true breed matriarchs for phenotype.
- Homozygous polled and homozygous black, with exceptional numbers for growth, marbling and SMTI make MCBN Cowgirl a female that you can build a program around.

MAGS Y So Tangled, sire of Lots 17 and 18.

- In our opinion there is a need for Sennett Heather progeny in each and every herd. Her dominance in the breed is so very evident. We love her daughters and sons alike. The quality is always transparent.
- We are very excited about our MCBN Armored calves. We had several born last fall and a nice group born this spring. They are everything we anticipated they would be. Complete and solid cattle that came easy and have acceptable growth.
- MCBN Cameo has an EPD line-up that is extremely easy to work with and is balanced from birth to yearling, with desirable maternal and reproductive indicators as well.

- By MCBN Zenith and out of a beautiful White Rose daughter, these are the kind that find their way to the replacement pen around our place pretty quick. Unfortunately we can't keep them all! That holds well for the new owner.

- Tremendous longevity found in all aspects of MCBN Celine's pedigree! AI'd to one of the hottest bulls in the Angus breed, Tour of Duty. PE to MCBN Classified, a son of PA Full Power, is being extensively used at the ranch and providing outstanding carcass value.

- Our lead-off cow in this fall's sale is a female who is in the peak of production and at the pinnacle of her productive life. What a great time to invest in a proven producer!

- MCBN Xtreme Gal has a performance profile very similar to her world famous sire, AUTO Dollar General 122R. Dollar General is one of those breed giants who continues to prove his worth with each new calf crop.

- This 75% Lim-Flex cow is homozygous black and sells with a summer born bull calf by the 2013 NWSS Grand Champion bull, MAGS Y So Tangled.

- Visually, MAGS Witty is the powerhouse cow in this year's line-up. This 75% Lim-Flex brood cow is as stout as they come, her foot size and skeletal dimension is certainly noticeable. Due to her mass and power, she gives you several breeding options.

- To us, one of the really neat attributes of this female is she has so much substance, yet she is a calving ease specialist, ranking in the top 2% for CEM and having an 11 CED EPD.

- Speaking of breeding options, we are very fond of her MAGS Eagle bull calf on her side and look forward to what he is going to develop into.

- HAHK Whoopi is a direct daughter of MAGS Sarafina, who is now part of the progressive donor line-up at Edwards Land and Cattle in NC. Sarafina has produced many exceptional progeny including numerous replacements in the past Jepson herd and at Pinegar Limousin.

- Homozygous polled and homozygous black, Whoopi is extremely flexible in terms of mating options. Currently when assessing her EPD profile, you will notice that the strength of her sire's stats shines through. BR Midland has worked well in our hybrid scenario.

- We opted to go back on Whoopi with one of our historic favorites, LH U haul. We have always appreciated the performance influence he has on our cattle. We feel this mating worked well and is evident in MCBN Duke Nukem, her August bull calf.

• PE MCBN Bushwacker 419B 12/4/15-5/1/16

• Of course you have heard the saying "You can never have too much of a good thing," well that certainly applies to Mytty In Focus daughters. To date, in the American Angus herdbook there are over 14,000 daughters recorded with data turned in on them. There is a reason for this, the length, maternal ability and calving ease that he stamps each daughter with had made him a rancher's favorite since he hit the market for ABS Global.

• On the bottom side of 6736W's pedigree is one of those forever producing cows from Lonely Valley, at 13 she had her final calf. Until that point she was a top producer and earned her keep from year to year.
