

John E. Tobe started Englewood Farms in 1981, when he began his work in building the Laura's Lean Beef Company (Laura's).
 At the time, Laura's did not have a defined cattle program when he joined the company and a local cattle buyer suggested that Laura's try Limousin bulls on commercial females. They then began to use Limousin-cross cattle and the rest is history. Tobe and his business partner grew Laura's business from \$1 million per year to over \$160 million per year in 2007.
 During the Laura's years, the company had shear-test and taste panels done on Laura's steaks from Limousin-cross cattle - the results were amazing! Laura's steaks tested equally tender as choice and prime steaks, and more tender than other exotic-cattle steaks. It wasn't until 2007 that Tobe learned about the Myostatin F94I gene marker. The phenomenal shear-test and taste panel results were further validated since most of Laura's suppliers used Fullblood Limousin bulls, which carry two (homozygous copies) of the F94I gene.
 Englewood Farms was founded on Fullblood Limousin cattle and will always maintain a Fullblood Limousin herd. We will continue to improve the genetics in our Fullblood herd and hope to produce more cattle like ENGD Unbridled 832U - cattle with above-breed average EPDs in growth, milk and rib.
 When he planned to sell Laura's in 2008, Tobe decided to get more involved in the Limousin seedstock business and invested in a herd of

John E. Tobe started Englewood Farms in 1981. A decade later, while building Laura's Lean Beef Co., a local cattle buyer suggested they try Limousin bulls on commercial females.

During the Laura's years, the company had shear-test and taste panels done and the results on the steaks from Limousin-cross cattle were amazing. They tested equally tender as compared to Choice and Prime steaks, and more tender than other exotic-cattle breeds.

When the decision was made to run registered cattle alongside the commercial herd, fullblood Limousin cattle with above-breed-average EPDs in growth, milk and ribeye were chosen.

When he sold his interest in Laura's in 2007, Tobe decided to get more involved in the Limousin seedstock business and invested in a herd of purebred Limousin cattle. John Ethington also joined Tobe in 2007, with a primary focus on building the purebred herd, one at a time, from some great Limousin cattle.

The initial focus with the purebred cattle was to maintain muscle so when crossed with other breeds they could consistently produce Choice carcasses and eliminate most Yield Grade 4s and 5s, while keeping the increased feed efficiency and carcass characteristics the Limousin breed is know for.

The next step in the evolutionary process was the purchase of several Black Angus and Lim-Flex females that were very high in marbling. The Lim-Flex cattle produced by these females added considerably more maternal and marbling without sacrificing inherent breed strengths.

Registered Red Angus cattle were added to the Englewood Farms' stable in 2013.

The Red Angus breed was chosen because of its maternal and carcass quality characteristics. Red Angus cattle currently enjoy tremendous demand among both commercial producers and seedstock breeders across the United States and Canada. Additionally, they complement the Limousin breed nicely when mated to create red Lim-Flex.

True to form, the Englewood Farms Red Angus herd was built from a nucleus of elite females with exceptional EPD profiles and phenotypic superiority. The cowherds were split between fall and spring calving, with a heavy emphasis on both AI and embryo transfer, allowing them access to the most elite of Red Angus genetics.

When Tobe and Ethington made the decision to add Red Angus cattle to the program, they went about it with the same enthusiasm and stringent selection criteria as in the past. The resulting Red Angus cowherd assembled in this catalog represents a unique cross section of the breed. The Red Angus cattle featured in this dispersal are the fruits of their early labor and serve as a fine example of the direction the Englewood Red Angus herd was headed.

Regardless of the breed or the percent blood, since day one the Englewood Farms' vision has been to breed and raise the very best Limousin and Red Angus seedstock possible. We invite you to join us and take advantage of the truly unique set of genetics that will be available for your appraisal.

Fellow Seedstock Breeders,

To Be, Or Not To Be?

This is a famous line from Shakespeare. Since my last name is Tobe, a close friend and I have been saying for more than 30 years, the best is yet to be.

I think this is true for Englewood Farms, but under the management of my grandchildren. I am moving to commercial cattle and selling 400 of our 1,200 acres to help make this easier for them.

Since my age exceeds the Interstate speed limit by 6, I thought it was time to focus on the needs of the future generation. I still like both the Limousin and Red Angus breeds, but I think it will be easier for the next generation to be involved in commercial cattle.

My thanks to the many friends I have made in the seedstock cattle business. It has been a great ride and I have enjoyed the experience. I have told many business types that farmers and ranchers are the same as the past generations that made the United States great through their hard work and integrity. I hope to maintain my seedstock relationships through the bulls I will buy for the commercial cattle.

On a final note, I think these are the best seedstock cattle we have ever produced. I hope to see you on sale day.

Thanks,
Joanne and John

GUARANTEE...

This is a dispersion sale, and all animals must sell with no further breeding guarantee, and all females of breeding age that have been served naturally for more than sixty (60) days will be pregnancy checked. A veterinary certificate of fertility and pregnancy will be furnished to the purchaser upon request.

ANNOUNCEMENTS...

Any changes from information of any kind in this catalog will be announced from the auction block and such announcements shall take precedence over printed material.

TERMS...

Terms of sale are cash unless satisfactory credit arrangements have been established. All settlements are to be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released from the sale premises.

HANDLING RISKS...

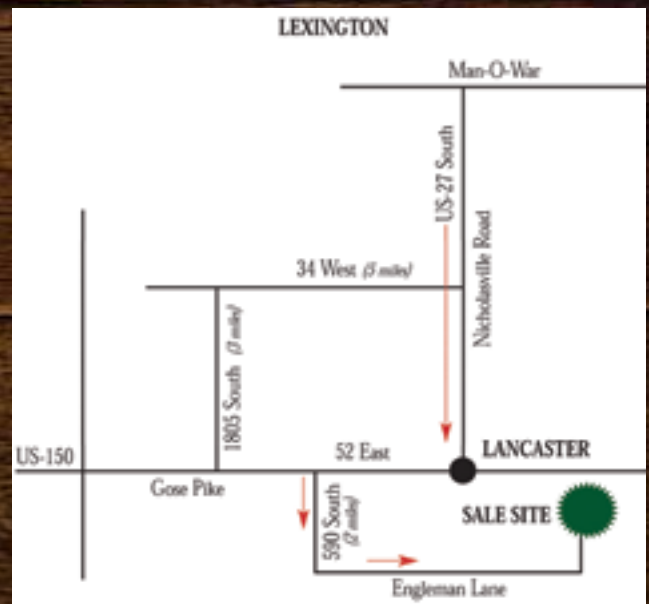

Each animal will be at purchaser's risk as soon as sold, but loading assistance will be provided after settlement has been made. Each animal will be fed, watered and cared for at purchaser's risk for a reasonable time to allow for removal to purchaser's farm.

RIGHTS AND OBLIGATIONS...

In the event of default in any part of the terms and conditions covering this sale by either the buyer, or the seller, it shall be the responsibility of the buyer or the seller, to instigate any action necessary to bring about a fair settlement of any claims arising from this sale and to be responsible for any and all cost involved therein. The sale manager or sale staff assumes no responsibility, legal or otherwise, for the failure of either seller or buyer to fulfill his obligation. All persons who attend this sale do so at their own risk. Neither the owners, the sale manager nor any other persons connected with the sale, assumes any liability, legal or otherwise.

BIDDING...

Each animal for sale will be sold to the highest bidder. Each bid shall constitute an offer to purchase, and the final bid shall constitute a binding contract between the buyer and seller. The auctioneer will settle any disputes as to bids and his decision in such matters shall be final. Bids by phone, mail or wire will be accepted and handled confidentially by sale management.

SELLING 1/2 INTEREST AND FULL POSSESSION 2014 NAILE Grand Champion Bull

AHL Flashback 446B is the major herd sire influencing the Englewood Red Angus herd. After a remarkable show career, his service has scattered across North America through AI, ET and natural mating. He topped the Western Heritage Sale at the 2015 National Western Stock Show at \$102,000. The young progeny by this great sire are among the most exciting calves ever born at Englewood. His influence is easily noted in the Red Angus and Limousin portions of the herd, and all are standouts. This complete breeding sire has combined all important traits and offers the most comprehensive bloodlines to the industry. His progeny tell the complete story. They are stamped with his pleasing profile, and are big-topped, big-boned and pacing the industry for actual performance.

His sire, PZC TMAS Firestorm 1800 ET, has become one of the dominant breeding sires in the history of the Red Angus breed. The Red Six Mile Sakic 832S/GT Cita 4060 mating has resulted in this legendary sire. The breeding represented in this sire line has worked superbly across the North American continent.

4MC Saga 3163 was selected early in the building of the Englewood Red Angus breeding herd. His progeny are among the spring calf crop, and the calves have largely improved upon the quality and performance of their dams. The son of LSF Saga 1040Y has experienced heavy service in the herd, and has proven to be an aggressive breeder and consistent in siring low birth weight progeny. Just a three year old bull, 4MC Saga 3163 has emerged from the Englewood breeding program as a major herd sire consideration.

ENGD Big League 5503C is one of the newest herd sires in the program. Born in the Englewood program, he was selected for specific service in the herd. He represents some of the most impressive genetics ever generated in Western Canada. His first and limited service is noted within the offering, and his service is expected to bring even more performance and dimension to future calf crops. This is an impressive breeding machine, and the story is just beginning to unfold as the Englewood genetics are scattered across North America.

PE'd 6/1/16-9/1/16 to ENGD BIG LEAGUE 5503B

WCR Miss Kuruba RE 3276A is one several top young donors that headline the Red Angus program at Englewood. She represents the kind that are so very difficult to obtain, and she is the product of years and years of selective breeding. Lots 6 through 11 were all born in the fall of 2013. They represent the entire fall ET heifer calf crop that was purchased in its entirety from Wild Cat Creek Ranch as a foundation group of females to begin the Englewood program. An amazing set were they when they arrived, and they are even more impressive today in production.

This extraordinary daughter of Red Cockburn Ribeye 308U was selected for the donor program. Embryos by Red Six Mile Signature 295B sell.

WCR Miss Cora MU 3253A is the younger maternal sister of Red Cockburn Ribeye 308U...that says about all that needs to be said. This absolutely awesome donor female is sired by Red Fine Line Mulberry 26P, one of the dominant and pre-potent Red Angus sires of all time. This unique and powerful mating makes this a genetically explosive individual as a foundation donor for years and years and generations and generations. She has one of the most recognizable pedigrees in the breed today. She is perfectly constructed of the best genetic material, and packaged with her are pregnancies which round out this overpowering genetic package from the Englewood breeding program.

Only in a dispersal of international importance such as this, do genetics of WCR Cora MU 3253A become available.

WCR Miss Annie XT 3280A is one of two full sisters selected as foundation donors for the Englewood program. The dominance of the Annie cow line is obviously apparent in this remarkable young cow. The balance and symmetry associated with this lineage has been responsible for some of the growing acceptance and appreciation for the Red Angus breed. Perfectly balanced and efficiently productive, this female is worthy of aggressive propagation for years to come. Exclusive pregnancies and embryos make this another powerful donor lot to be included in this history making Englewood Dispersal.

WCR Miss Lakina RE 3297A is a powerfully constructed Red Angus female. The daughter of Red Cockburn Ribeye 308U is from the Feddes Lakina 310 cow family. Sired by Lchmn Grand Canyon 1244G, and from the famed Feddes Lankina cow family line, this three year old daughter perfects the long line of dependable and breed-leading genetics. This impressively profiling female presents an outline that is exciting to appraise. She is a strong maternal female that offers breeders a closer step to perfected breed accomplishments. Embryos are offered in addition to this great donor female.

WCR Miss Tinsel PE 3268A is one of the most popular females of all visitors to Englewood. She is a combination of the breed's most exclusive genetic combinations. She is thickly made, obtains extra middle mass, is wide topped—all wrapped into a pleasing and appealing package. She has the bred-in ability to genetically move future progeny to a leadership position within the breed. As the breed continues to grow and increase in popularity and utilization in the beef cattle industry, so will the demand, appreciation and value of excellent females such as this. Her influence on the breed will be greatly realized as time goes on.

Soo Line Countess 6125 was a crowd favorite and high seller in the historic Soo Line dispersal going to Christi Collins and Six Mile Red Angus.

Countess 6125 is the dam of a countless sale toppers and show ring champions including several Denver pen bulls and the grand champion female at the 2012 National Western, Six Mile Countess 105Y. Her legendary lineage does not stop with her, as she is the grandam of the \$40,000 female at Las Rojas who went on to be named Denver calf champion in 2015. 6125 provides power, performance and eye appeal to every mating she is part of. She is a powerful, big volumed female that continues to make her mark in the breed in the most respected programs in North America..

Red Towaw Indeed 104H is a sire known all over North America. He has produced superior bulls but is best known for his females. He is the sire of Red Towaw Integrity 17M who headlines at Blairs.Ag Cattle Co. These three spring bred heifers by Red Towaw Indeed 104H and out of Soo Line Countess 6125 would be standouts in any breeding program in the country.

VGW Game Plan 816, a prolific calving-ease sire, has created progeny that have commanded top dollar and continue to increase in demand. Among his many breeding accomplishments is the 2013 Denver Reserve Champion female, Six Mile Lakoto 112Y. When you study these two daughter of VGW Game Plan 816 out of Soo Line Countess 6125 it is easy to see why this genetic combination is so sought after.

Six Mile Game Face 164Y, is the record setting \$65,000 bull who sold in 2012. His calves are born light and easy with excellent muscle expression and that special "look". His most noted accomplishment is siring the wildly popular Red Six Mile Taurus 519A. The two spring bred heifers in this dispersal by Six Mile Game Face 164Y and out of Soo Line Countess 6125 are some of the stoutest, most powerful Red Angus females to sell this fall.

OPEN READY TO FLUSH

ENGD Zenana 2074Z is one of the rare individuals of any breed that almost is never available for sale. She is one of the most celebrated Limousin females of our time, and is a well functioning machine both inside and out. Not only is she perfectly constructed and efficiently metabolized, she is fertile and reproduces with minimal management inputs. The homozygous polled female holds a special place in the Englewood program, and her entire production base is included in this dispersal.

Wulfs Well Suited W709, her sire, is the former herd sire at Englewood, and now works in the HB Farms program. Paternal mates to this great female are among the most efficient in the herd.

ENGD Xtra Fine 022X, her dam, is a part of the Southern Cattle Co. donor program, and a maternal sister is in the Circle R program. All members of this family have performed astonishingly consistent, and the influence of this cow family has, can and will assist in adding more excitement and quality to a breeding program.

ENGD Cowboy Way 5147C is one of the greatest Lim-Flex herd sires ever created and is available only in a historic event such as this. He has risen to the image of one of the very best sons of the great MAGS Y-Axis, and he looked powerful next to his dam when they were selected as the 2016 All-American Futurity Reserve Grand Champion Pair. The November-born son of ENGD Zenana 2074Z has the necessary parts to be a dominating force in upcoming shows. He is a fresh and exciting bull ready for heavy service in the most advanced herds for further breed improvement. With only a 76 pound birth weight, this young sire can work in any capacity in any breeding herd.

Of the many years the Englewood program has existed, this is one of the best ever to wear ENGD in its ear.

OPEN READY TO FLUSH

ENGD Banana 4063B is a homozygous polled purebred female of the highest quality and pedigree exclusiveness. The female was a part of some of the most successful show strings exhibited by Englewood. She was highly campaigned by the Tobe family, and the female is now considered a pivotal donor female for the breed.

MAGS Yip has emerged as one of the greatest of all purebred Limousin breeding bulls, and this two-year-old female is one of his most noted daughters. She is a part of the highlighted cow family that is cataloged as the kick off group of breeding stock for the Limousin portion of this great Englewood Dispersal. Each and every generation of this female's pedigree indicate some of the breed's very best and proven lines of genetics.

The heifer calf at her side is a standout Lim-Flex female sired by Andras New Direction. The merging of this great Red Angus sire offers some powerful and perfected genetics to this outstanding proven cow line. The June heifer calf has years of exemplary service in store for her next owner.

MAGS Yard Grass 3809Y is a trait-leading female for both growth and maternal traits. The daughter of AUTO Dollar General 122R is from one of the noted foundation females in the breed. The entire cow family was generated from the exceptional Luvly cow family that has become one of the most prominent for genetic improvement within the breed. Phenotype and genotype are uncommonly merged in perfect harmony which resulted in this mature purebred female of national importance. Her heifer calf by MAGS Y-Axis is one of the standout calves in the auction.

ENGD Tilly Girl 1360Y is the full sister to Wulfs Yellowhammer Y359Y, one of the prominent breeding bulls in the industry. This female was the Grand Champion Female at the 2013 Dixie National Livestock Show and major show contender across the United States. The daughter of Wulfs Upgrade is one of the major building blocks in the Englewood Limousin breeding program. This cow family, represented here, has assisted in pushing the genetic superiority of the program to one of elevated appreciation across breed lines. A herd sire prospect is at her side sired by MAGS Y-Axis.

MAGS Blinker is a member of the elite breeding program at Englewood. The homozygous polled and homozygous black female is a powerful daughter of MAGS Y-Axis from a noted Magness-bred dam and cow family. Years of selection pressure have attributed to the significance of this cow-calf pair. The generations of the best genetics have always been a part of the Englewood program, and this female is a considerable member of that effort. A herd sire prospect is at her side by TMCK Balancer 173U.

ENGD Black Silk 5001C is a homozygous black and homozygous polled daughter of Wulfs Yellowhammer Y359Y. The fresh and current pedigree of this female is representative of the exceptional cow families that have been utilized in building the Englewood breeding program. This female is the full sister to JONK Poll Unique 70U, the foundation donor dam that has been one of the most honored females to have contributed greatly to the expansion and enhancement of the Englewood breeding herd. This bred heifer is a newer version of some of the greatest of all blood in the breed.

SEEE Xtraspecial has become one of the mainstay donor females in the Englewood program. The daughter of Mytty In Focus is an impressive female with endless possibilities for genetic merging with some of the breed's most important sires. The female is a direct daughter of MAGS Scandal, the successful female owned by the Edwards family, that has become one of the most recognizable names in the breed. Furthermore, the maternal grand dam is the solid foundation female, MAGS Manda. Of this entire family line, SEEE Xtraspecial is one of the most noted females of the group. She will calve later in the fall.

RVF Star Gazer 522X is the homozygous black, purebred female that is the result of selective breeding in the Riverside Valley Farm program. For generations, the lineage in the pedigree of this female is representative of the River Side Valley program. The sires and dams represented are descendants of some of the noted individuals in the breed. She will have a Lim-Flex calf at side by sale day.

WULFS UPGRADE 0500U

Sire of Lot 318

LIMOUSIN... Fall Open Heifers

ENGD Cowgirl 5603C and ENGD Cowgirl 5612C are two flushmate sisters from ENGD Zenana 2074Z, who sells as Lot 300. These homozygous polled Lim-Flex females are among the most exciting individuals ever born at Englewood Farms. New and exciting blood to the Limousin industry is offered through the freshness of pedigree in these heifer calves.

Of the significant bloodlines that have been created at Englewood, the lines that trace to this famous cow family have obtained much notoriety and breed enthusiasm. The maternal lineage is known for extreme quality, and these females enhance the entire lineage based upon their breed excellence.

Their sire, PIE The Cowboy Kind 343, is one of the most exciting breeding bulls in the Red Angus breed. He was bred in the Pieper Red Angus operation, and has proven through his progeny to be one of the leading contemporary sires in the industry. These heifer calves are among the first of his progeny offered for sale, and the exciting calves are among the very top of the ET calf crop.

These two females are maternal sisters to the great breeding bull, TMCK Durham Wheat 6030X. The former National Canadian Champion Bull is making a tremendous impact on the breed throughout North America. He is the sire of Riverstone Charmed, the 2016 National Junior Show Grand Champion Purebred Female owned by the Ratliff family. Furthermore, the entire cow family is steeped in quality and exceptional breeding power as evidenced by these two full sisters. These females sired by KAJO Responder 120R carry forth the breed excellence that is attributed to this exceptional family line.

ENGD San Jose 5718C features trait-leading EPDs across the board, and she is the daughter of one of the greatest of all Lim-Flex lines in the industry. These individuals have proven to be exceptionally powerful through performance, maternal and carcass traits. They are competitive in the show ring and highly sought at auction. This is one of the unique breeding females that are a part of this historic Englewood Dispersal.

EWCR Anchor 5130C is a future herd sire prospect from the Englewood breeding program. If it were not for this dispersal, this Lim-Flex bull would have been a part of the herd bull battery. He is a product of two of the most outstanding individuals in the industry. MAGS Anchor, his sire, is one of the most highly respected herd sires in the breed, and his proven dam is a prominent member of the Englewood cow herd, and she is among the dispersal sale offering as Lot 317. This homozygous polled yearling Lim-Flex bull is a breeding bull opportunity for the Limousin seedstock business.

ENGD Colossal 5522C is a homozygous polled and homozygous black herd sire of importance. He is bred from deep within ENG genetics, as both sire and dam have been significant contributing members of the Englewood program. His sire is a known source of ample performance and large outlined seedstock and progeny. His genetic tabulation indicates he will sire pounds in a perfected package. His dam has been one of the leading females in the program. She is genetically derived from some of the most time honored genetics that have shaped modern day Limousin.

This was to be the bull Englewood was to campaign in their always impressive show string. He is available through this dispersal as a special herd sire lot and fitting conclusion to the live lots offered.
