## TERMS & CONDITIONS...

All cattle sell under the standard sale terms and conditions of the respective breed associations. Available upon request.

## U.S. BUYERS...

- All heifers that sell are guaranteed exportable to the US.
- The rate of exchange will be announced sale day from the block. At the time of catalog production the rate of exchange is \$0.74%. \$1000 Can. = \$747.00 US.
- \* The closest international airport is Calgary, Alberta
- We will be happy to assist with any trucking arrangements after the sale.

## ANNOUNCEMENTS...

Announcements at the sale by the owners, auctioneer or sale management will take precedence over statements in the sale catalog.

## DELIVERY:

We will assist in arranging delivery as quickly as possible after the sale. Many reliable livestock truckers are based in the Calgary area. All deliveries are the purchaser's risk. We recommend that you insure all purchases.

## DNA TESTING...

Individual DNA test results are not available. The Homozygous status that are printed in the book were acquired by parentage verification. Animals in this offering may possess the Homozygous Black and/or Polled genes.

## INSURANCE...

There will be an insurance representative present sale day.

## CATALOG ...

Photos and videos taken the first part of October  
Prime Cut Publishing - Kim Matthews

## ON LINE BIDDING...

Real-time bidding via the Internet for this sale. Live audio and live video will allow buyers to bid on animals just as if they were present at the sale. Buyers must create an account and request a buyer number at least two days in advance of sale day. Instructions are available to walk you through the account set-up process. Web address: [www.liveauctions.tv](http://www.liveauctions.tv) or contact Shari Leachman (306)903-7289

Follow us on facebook and intragram  
for sale updates and special features

It is hard to believe a whole year has passed since our inaugural "Forged in Fire" All Breeds Heifer Sale. We at Riverstone Cattle Company have had some extraordinary "highs" to go along with the usual ups and downs that any ranch goes through. We hosted our first bull sale under the Riverstone name to great acceptance and we were fortunate through last years sale to have incredible success with a feature Limousin heifer.

As you will read later on in our catalog, Riverstone Charmed, Lot 1 in last years sale went to a wonderful family and was campaigned in the show ring to unbelievable heights in the U.S. This female was supreme champion, not only in the Limousin breed, but all breeds at numerous shows over the past year. This is no small feat and we are extremely proud to have raised not only this female but her mother, HSF Fantasy, also. Her full brother Riverstone Crown Royal was also the high seller in our 2016 Bull Sale.

Once again this years offering consists of our best Limousin, Angus, Simmental and Club Calf genetics. As I've always said, good cattle are good cattle no matter what breed they are. We have strived to raise cattle that can not only perform in the show ring but in the breeding pasture. This year we are offering 31 heifer calves for your appraisal.

This year we are offering a few more numbers to the Angus offering. We have been trying to rebuild our Angus herd over the years which isn't the easiest while still offering your best heifers every year. This year consists of individuals out of the best AI sires, Resource, Heritage, Rebel, Kodiak, Best Interest, along with some of our walking bulls, Highland Creed 20A and the now deceased D.S. Marvel. These heifers are very capable of being foundation females in anyones herd.

Our Limousin offering consists of our best purebred and Lim-Flex genetics. We have incorporated a new herdsire into our program over the past year, PBRS 382Z (known around here as "Zeke"). He was an in dam purchase of our fantastic Deuce daughter. He had an outcross pedigree for us here in Canada to go along with his extraordinary phenotype. He is an extremely easy doing structurally correct bull with length and thickness to boot. His mother has a beautiful udder combined with her feminine look. We expect all these daughters to go on to greatness. Needless to say their sons are going to be making their mark in the Limousin business real soon.

The Simmental division consists of a couple of red heifers our of our powerful walking sire G5 Zodiac, who is now deceased and a distinguished black Cowboy Cut daughter. Short in numbers but these three represent the Simmental breed incredibly well.

We are down in numbers in the "Clubby" section but make up for it in quality. It just so happens this year we had 90% steers in the clubby bred cows. Once again London picked all the commercial heifer names.

We would like to invite everyone to come early to the sale and enjoy some festive holiday cheer and socializing. If you require any assistance or additional information with the offering please feel free to give myself or any of the sale staff a call and we will be sure to help you with all of your needs. We will also be offering real time bidding and viewing online at [Liveauctions.tv](http://Liveauctions.tv) and invite you to join us via internet if you can't make the sale. Thank you and hope to see you December 2 in Olds, Alberta.

1.9	60	114	27	57	4.0	78	650	

Riverstone Bosta Blackbird 54D is a heifer with "Rock Star" potential! This female has it all... A moderate frame, smooth shoulder, straight lines and free moving. Combine all of those attributes with a awesome coat of hair and you have yourself a show heifer!

Her dam, Highland Bosta Blackbird 3Z is a picture perfect cow with a beautiful udder and always stands out in the pasture.

S A V Resource 1441 is a very popular AI sire due to his ability to sire growth, carcass merit and maternal ability in a desirable package. Resource brings to the table the basics of efficiency and natural fleshing ability, with thickness, muscle, masculinity, superb structure, feet quality and authentic breed character.

Riverstone Evening Tinge 37D is a heifer that is referred to as "Tank" around our place. Although this female may not be that super pretty, extreme choke necked individual, she has other attributes that tip the scale in her favor. There is no question where this female gets her powerhouse attributes from... her dam! 4U is a massive DMM Posi-Traction female that is sure to impress you in the pasture. Combine that with S A V Resource 1441 and his ability to sire growth, carcass merit and maternal ability; while adding natural fleshing ability, thickness, muscle, masculinity and superb structure... how could you go wrong? Easy doing genetics run deep on both sides of this heifers pedigree.

Riverstone Blackbird 6D is a "brood" cow in the making. She would absolutely be the most powerful heifer in the offering with her massively deep body and round muscle expression. Mark this heifer as an "Bull Maker" in your catalog. Her dam is also a awesome tank of a cow out of DUFF New Attraction. New Attraction is sound footed with a great disposition and shows a lot of masculinity. New Attraction definitely has a super look and pattern with superior balance and excellent shape. This heifers sire, HF Kodiak, is the only Kodiak heifer in the offering. HF Kodiak is a highly globally used bull raised by Hamilton Farms. He sired every single one of the bulls in the 2010 National Western Stock Show Grand Champion Bull Pen of 3 Show, which was the first time a Canadian outfit earned that prestigious honor.

Riverstone Tip Top 10D is a great show heifer prospect. This extremely long, correct individual is out of a first calf heifer and is sure to not disappoint. This female is very eye appealing as well as carries a great amount of muscle and substance. Her depth of flank and heavy bone catapults her to the next level. She is sired by the great AI sire S A V Best Interest who is a moderate framed, huge bodied, wide based Bismarck son that sires cattle with the look and muscle of the bottom side of his pedigree (Net Worth x Bando 5175). He is widely used to produce females with high production and sons with muscle, body and breed character and that sure rings true for this female.

Riverstone Elsa Erica 69D is a complete female for phenotype through and through. This heifer has fancy written all over her, from her extremely smooth and sharp front end right through to her hind quarter, this is a female with balance and stature. This female may be moderate in her frame size but powerful in her make up. 69D is one of only 2 heifers in the offering out of the now deceased D.S. Marvel so the number of progeny will be limited. We purchased Marvel at the Earley Bros Bull Test Sale with LLB Angus, Early Brothers Peter Frigters and Steve Debus a few years back and will miss him as a walking herd sire.

Riverstone Georgina 76D is a extremely long bodied heifer with lots of muscle. This easy doing female is out of a first calf heifer that goes back to our Highland Marvel 80Z bull. Highland Marvel, was a home raised bull that we had slated as a sale feature in the bull sale. As time went on the bull just got better and better and decided that we needed to put a bull of that quality back in our own program. We lost the bull last year due to an injury and he will be greatly missed in our herd. He was an excellent producer on both bull and female progeny.

76D's sire, Highland Creed 20A, is a home raised bull out of DMM Creed. We used DMM Creed as an AI sire because he is phenotypically flawless with exceptional feet and legs and combines length, style and extra growth.

CED	BW	WW	YW	MLK	TM	CEM	BW	Sep.2 WT
-	-	-	-	-	-	-	90	720

Riverstone Bailey 3D is a very attractive female with incredible potential. You will notice that this heifer has the pedigree of a purebred but will sell as a commercial female due to the fact that she has a small amount of white on her under belly by her front shoulders. This power show heifer prospect is very attractive and catches your eye but also boasts a deep body and good muscle pattern.

Her sire, Highland Creed 20A, is a home raised bull out of DMM Creed. He is a sire with a tremendous amount of power, muscle and length.

HEAVY IS THE HEAD THAT WEARS THE

Riverstone Crown Royal is the bull that the Limousin breed has been waiting for! This outstanding, hairy herdsire has it all.

Crown Royal is flawless in his phenotype. From his strong wide top down to his big bone and hoof it is hard to pick a hole in this impressive bull. When you consider how smooth he is in his pattern and clean up through his front shoulder and neck it is surprising the amount of natural thickness and muscle shape he displays when you get in behind him. With large testicles and an impressive deep flank, this bull should be considered a breed changer for the purebred Limousin breed.

When you decide to breed two Canadian National Champion animals... the result is spectacular. Both his sire, TMCK Durham Wheat, and his dam, HSF Your Fantasy were named the National Champion Bull and Female in 2012 in Brandon, MB. It isn't a fluke that the progeny from these animals are as good as they are. Crown Royal's full sister, Riverstone Charmed was the Lot 1 and high seller in last years Forged in Fire Sale. The Ratliff family from Kansas has shown and campaigned this female all year in the US. The success of the heifer is highlighted at the back section of this catalog as there is not enough room in this footnote to document all the awards she has claimed.

HSF Your Fantasy has certainly been the best female we have ever raised with her daughter, Riverstone Charmed hot on her heels. Your Fantasy was a dominating force when she was shown, winning nearly every major show in Western Canada as a yearling. She set a record as the only Limousin female to win Supreme Champion Female at the First Lady Classic and the Junior Beef Extreme show at Canadian Western Agribition.

We purchased TMCK Durham Wheat from Tubmill Creek Farms in 2010. He has become known around here as the "Show Heifer Maker". His female progeny always settle at the top of the herd for outstanding structure, muscle and style. Another great asset that we have fallen in love with is the docility of the Durham Wheat calves and Crown Royal is no exception!

Riverstone Crown Royal was also the high selling bull in our first Riverstone Bull Sale last March. This exciting sire is now owned with P Bar S Limousin in Oklahoma and Stowers Limousin in Texas. These progressive breeders have already offered Embryos in their production sales averaging over \$1000.00 US per embryo. This sire is sure to do big things in the future!

Riverstone Diamond Cut is a deep bodied easy fleshing female with loads of thickness and muscle shape.

Her dam, HSF Zombie Queen is one of the top "powerhouse" brood cows in our herd. Zombie Queen is sired by HSF Undertaker who we raised and was purchased by Wulf Limousin as a walking herdsire with Combest Limousin owning the Canadian semen rights.

When you analyze in the superior genetics of BOHI Top Dollar 7144T on the sire side of this pedigree you will notice that his dam is the extraordinary Carrousel's Pina Colada cow, this genetic package is jam packed power and performance.

Riverstone Dewdrop is a larger framed powerhouse female. She is packed full of performance with a massive strong top. This beautifully haired heifer is out of HSF Your Truly, a AHCC Westwind daughter that catches your eye in the pasture. AHCC Westwind caused major excitement and interest when he was exhibited by Hager Cattle Co. and became a member of the Reserve Grand Champion Pen of Three Bulls at the 2010 National Western. It was during NWSS that we purchased the Canadian semen rights to this homozygous polled and homozygous black son of KAJO Responder 120R. We think this PBRS 382Z daughter is going to make an excellent brood cow!

Riverstone Dry Martini is a meat powerhouse! This red purebred Limousin female has an abundance of round muscle and thickness of quarter. Dry Martini has a very unique pedigree to this sale. Her dam, HSF Saturday Night, is a full sib to one of our most well known and celebrated donors Wat-Cha Playmate. Playmate was one of those cows who did it all... won all the ribbons and banners, then turned around and became a great donor in our program. Her sire Wulfs Zillion Bucks is the only red walking herd sire at Riverstone. This son of the awesome Wulfs Myrlene cow just gets better with age. He is known around here for easy calving and then also produces individuals that also blossom as time goes on.

# PURPLE Reign

CANADIAN HEIFER CLEANING  
UP THE SHOW CIRCUIT  
SOUTH OF THE BORDER.

Nineteen-year old Madison Ratliff says she can't thank her grandfather enough for talking her dad into buying a heifer over the phone from Riverstone Cattle Company of Olds, Alberta.

Madison's grandfather, Gail "Tubb" Ratliff – now retired from the cattle business – was the founder of Cherry Creek Farms, known for decades of stringent Limousin breeding before a total herd dispersal sale in 2010. The Ratliff's are a well-known family hailing from Westphalia, Kansas and naturally have an eye for good cattle.

It all started with a good friend, a love for cattle, and an itch to travel. And it's a recipe that's made for a neat story about how a Canadian-bred heifer ended up where she did: on a winning streak at hugely competitive American shows.

It turns out Ratliff's long time friend Herman Symens of South Dakota has a son that now resides in southern Alberta. Knowing that Symens makes frequent trips to visit his son, Ratliff commented that one day he wanted to go to Canada to visit him and perhaps even take in a cattle show.

Taking his friend seriously, Symens called Ratliff last summer and suggested that he attend Farmfair International. When Ratliff replied that he did not have a passport, Symens piped up, "you better get one!" Of course Ratliff didn't want to disappoint his good friend, so he got a passport and the next thing you know he was Alberta bound.

"I remember my grandpa hugging me, and everyone crying. It was a special moment for the entire family."

\* On winning Limousin Junior Nationals

Reprinted with permission from

**top stock**  
MAGAZINE  
WORDS BY AMANDA BRODHAGEN

The wish of visiting Canada and attending a cattle show came to fruition – Ratliff made it to Farmfair with Symens. After taking in the Limousin show at Farmfair, the duo ran into Tim and Kim Matthews, of Riverstone Cattle Company. They had not met in about 15 or 20 years and after a brief re-introduction, Matthews inquired as to whether they still had Limousin cattle on their farm. Ratliff expressed that though he had retired from breeding decisions on the family’s operation, his grandchildren were very active in showing.

He explained to Matthews that the family liked to take out several breeds for the kids to exhibit so that they could compete in different classes, making a trip to a show more worthwhile. Ratliff was baffled at the price of show animals these days, which he admitted made it challenging for his grandkids to campaign heifers from multiple breeds. Matthews jokingly handed him a catalog for his sale, that he had tucked in his arm and said, “I know where you can buy one.”

The next morning, Gail Ratliff called Matthews asking if he could stop by and look at the sale offering. He took some photos and video footage and returned home. A few weeks later, Matthews got a call from David Ratliff, Gail’s son. They discussed a couple of females, but zeroed in on the Charmed heifer.

David expressed to Matthews in a phone conversation that he had never bought a female sight-unseen. He trusted his dad’s judgment, but the generation gap meant they didn’t always see cattle the same way. At the same time, he thought, “a good one is a good one!” (Gail’s impression of the heifer would be validated when David picked her up, calling him immediately to tell him that he had “done good.”)

On the day of Matthew’s Forged in Fire Sale, Madison was playing in a basketball tournament. That didn’t stop the Ratliff’s from being in two places at once, figuratively speaking. David and Gail stepped out into the parking lot to be on the phone during the sale to bid on the heifer.

Madison recalls the end of the basketball game, when her dad and grandpa pulled her aside and told her that they purchased the Charmed female. Madison had only seen the images that her grandpa had taken during his visit to Alberta.

When asked what she thought the first time she saw her new show heifer, she commented that her gut feeling told her that Charmed female would be good - little did she know at the time how much success she would have with her.

Assessing her strengths Miss Ratliff says, “she’s really powerful and holds herself together,” explaining how she has that special look to her. And she’s been dominating the show circuit ever since. Her winnings so far include: Double Supreme Champion Female in both (Ring A and Ring B), KSU AGR Kick Off Show; Double Reserve Supreme Champion Female, 2016 Steers and Stripes Steer and Heifer Show; Champion Limousin Heifer and Supreme Champion Overall Female, 2016 Milan FFA Jackpot; Champion Limousin Heifer and Supreme Champion Overall Female 2016 NWMSU AGR Green & Gold Show; Grand Champion Female 2016 National Junior Limousin Show; and Reserve Grand Champion Female, 2016 All American Limousin Futurity.

Judges have told Miss Ratliff that they’ve never seen a Limousin this good before, commenting on her dominance in all-breeds competitions.

Charmed has a star studded pedigree. She is sired by TMCK Durham Wheat, the 2012 Canadian National Champion Limousin Bull. Matthews purchased him from Tubmill Creek Farms in 2010, and he has been successfully used in their program, leaving a legacy of high quality females. Her dam, HSF Your Fantasy, was a dominating force when she was campaigned, winning nearly every major show in Western Canada as a yearling. Interestingly she set a record as the only Limousin female to win Supreme Champion Female at the First Lady Classic and the Junior Beef Extreme show at Canadian Western Agribition.

Matthews must have had a special feeling when they selected the Charmed female for the Lot 1 position in the first annual Forged in Fire sale. In their footnotes they predict, “she is definitely going to win some ribbons and banners along the way.” That statement could not have turned out more true!

Miss Ratliff, who’s been showing since the age of seven, says the Charmed heifer is the best that she has ever had. Like her family members, she knows a good animal when she sees one, but it didn’t hit her just how good the heifer was until she started winning.

Her favourite show win: Limousin Junior Nationals. She has been competing at that show for as long as she could remember and “we finally got to win it,” she exclaims. “I remember my grandpa hugging me, and everyone crying. It was a special moment for the entire family.” Tim and Kim Matthews, who had been following her success from afar through play-by-play text conversations, even flew to Kentucky for the National Junior Limousin show.

“This heifer is all because of my Grandpa Ratliff. He has supported me and my four other siblings in everything that we do. He rarely misses a cattle show. No matter how we do at a show he always hugs us afterwards and tells us how proud he is,” Miss Ratliff says with gratitude.

Miss Ratliff is currently attending Butler Community College. In the future, she aspires to attend Kansas State University and obtain a degree in animal science. She plans to continue to show cattle and looks forward to taking the heifer that she affectionately refers to as “Larissa the Limi” to several more shows, including the American Royal, North American International Livestock Exposition, and the National Western Stock Show before she retires from the show ring on the Ratliff’s family farm.

Maddison’s favorite show day tip, a quote:

**"Practice like you've never won.  
Perform like you've never lost."**
