accordance with the North American Limousin
Foundation as of 10/12/16.

TRUCKING:

Free shipping will be available to central
locations. Contact Charles Linhart,
641-340-1306, to make arrangements.

Limousin Friends & Enthusiasts,

We would like to cordially welcome you to our 8th annual Fall Harvest Production Sale. We are a family operation that's located just north Leon, Iowa, in the heart of cow-calf country of southern Iowa. Our Limousin and Lim-Flex operation started in 1979 and has grown to near 800 producing females. Over the years we've always taken great pride in producing a quality product, our customers successes and doing things the right way.

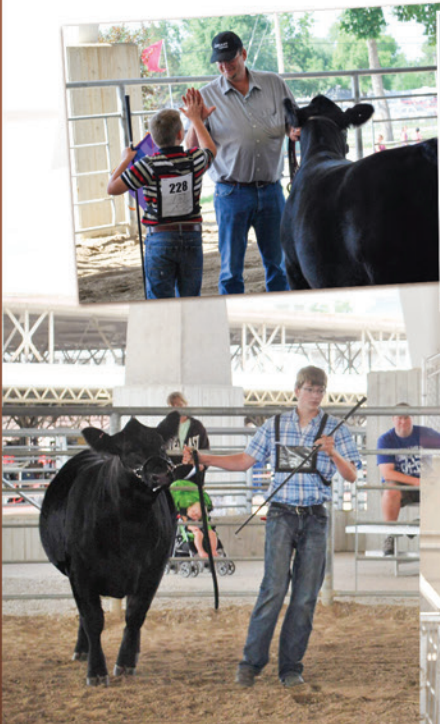

In this sale offering we have brought you our very best. As you page through the catalog, we hope you'll notice the reflection of many of our premier donor cow families, elite herd sires, a progressive A.I program and the no 'short-cuts' approach we've adopted over the years. Note, new to this year's sale offering not only have we brought you our very finest open show heifer prospects and bred heifers but, also a highly productive set of fall cows with calves at side. In totality, whether you're a junior looking for a show heifer project or breeder looking to make an investment, rest assured we'll have quality product backed with quality service.

With the sale offering in mind, we would like to take the time to reinforce to our fellow breeders and valued junior show families the opportunity of affordable success that can be found in our sale pens. Over the past several years, we have been extremely fortunate to have sold many females at wide ranging price points that have gone on to win championship banners at the local, regional and national levels. To illustrate our 'affordable success' mantra, be sure to check out our historical price break averages found on page 50. Folks, make no mistake November 13 there will be several high quality females at various price ranges to suit your budget.

That said, it's a priority of ours to make all business transactions with customers a pleasant experience. As it was last year, our sale will be held in our on farm sale facility (GPS directions found under sale information) and the cattle will be displayed in our on site display pens and will be auctioned off on video screens in our facility. In addition, all cattle sold are fully guaranteed to the catalog as in accordance with the North American Limousin Foundation as of October 10, 2016. Furthermore, if you would like to discuss the sight unseen purchase program, financial arrangements or trucking plans we are happy to accommodate.

We are excited to see all of you sale day November 13. If we can be of any assistance to you prior to or during the sale we have an open door policy and welcome all calls and questions.

Sincerely, The Linhart Family

A Family Affair

Cream of the Crop

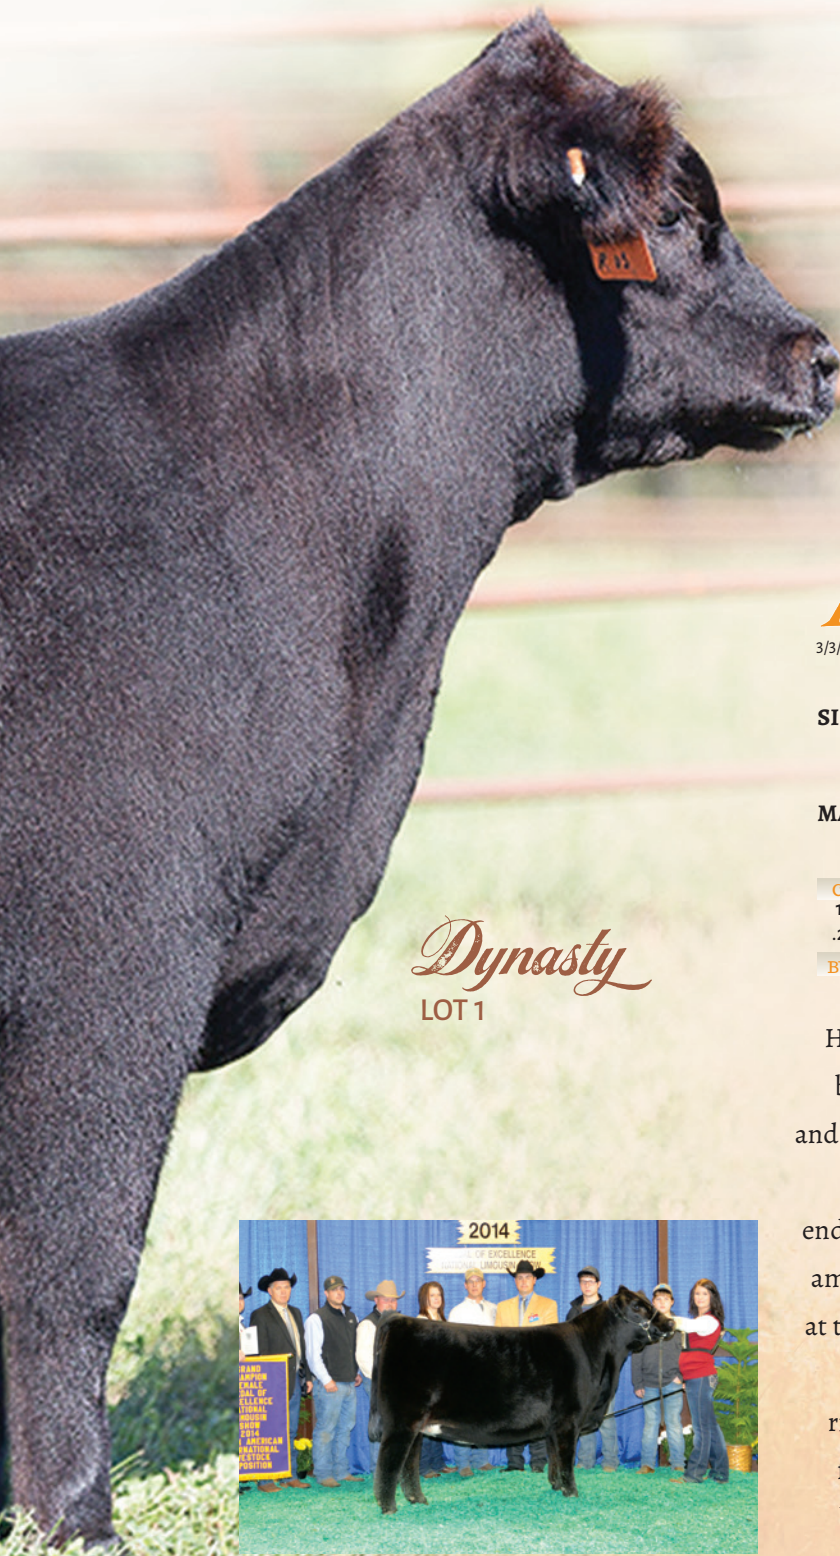

LOTS 1-27

This offering of spring open show heifers is simply our finest to date. A vast majority of these females are from the heart of our embryo program, featuring genetics out of our elite donors and some of the breed's best A.I. sires. We've elected to literally sell 'the cream of our crop' and it is with great pleasure that we bring you this exceptional set. We think they will be highly competitive in the show ring and excel in production.

Here she is, a product of one of the most successful matings ever born in Leon, Iowa. This full sister to the past Denver, Louisville and All-American Futurity Grand Champion Female, LLJB Absolute Style 3056A, is the epitome of a show heifer. Her chiseled front end and tons of rib and capacity ties in perfectly with just the right amount of thickness. She is level topped, stands square on all four at the ground and is athletic in her movement. Her mother, MAGS Wassail, was an extremely successful show female in her own right, taking many banners during the 2010-11 show season. Her father has sired as many champion Angus cattle as virtually any bull in recent memory. To top it off, her very usable EPD profile will allow her to be a long and fruitful donor female after her illustrious show career is over.

This maternal sister to Lot 1 is no slouch herself. With two championship quality parents, this homozygous black show heifer prospect has all the parts and pieces to be dominant on all levels. She is long-necked, square hipped, big boned and soft on her pasterns, just like a great heifer is supposed to be. After you get done collecting banners, her outstanding EPD profile and noble heritage ensures an equally outstanding future as a premier donor female.

OPEN SHOW HEIFER PROSPECTS

Destined

LOT 2B

CJSL Destined 6256D is an exact genetic duplicate of Lot 2A, only older and in a homozygous polled package. The daughter of Xcessive Force out of the MAGS Wassail donor is huge-bellied, jet-fronted and sound as a cat. Just like her younger sister, she sports breed leading EPDs for BW, MA, SC, MB and \$MTI. A consensus has yet to be reached here at the farm as to which heifer has the brightest future, so we will leave that up to the buying public November 13.

Pages of history can be written at Linhart Limousin around the influence of AUTO Tootsie Pop 2272T. The purebred daughter of Deuce back to the stored Molly cow family has been mated to virtually every shape and size bull of two different breeds, all with striking success. We like everything about this daughter of hers out of the Schaff Angus bull, Angus Valley. She is soft-made, loose structured and bends the growth curve from birth to yearling with breed leading marbling. An all-around great one.

OPEN SHOW HEIFER PROSPECTS

Deja Vu
LOT 3B

This full sister to Lot 3A shows the amazing consistency of the Tootsie Pop line. While not mirror images of each other, these two flushmates have many of the same things in common—great front ends, depth of flank and fluidity of movement. Given their genetic heritage, we are confident that whichever way you go, you will be rewarded with a competitive show heifer and even greater cow.

Up next is the first of three flushmate sisters. By the world renowned Angus sire, Bismarck and out of the proven and predictable MAGS Solitaire. CJSL Dior 6103D possesses incredible depth of body, is straight in her lines, and deep in her fore-rib. From a numerical standpoint, she offers calving-ease coupled with genetics for increased scrotal circumference, ribeye area, yield grade and marbling.

Last and certainly not least in this flush is CJSL Definite 6118D. Like her sisters, she too is a quality show heifer prospect. She balances up nicely and stands on a good amount of bone and substance. After evaluating all three sisters side by side, it's easy to proclaim this as one of the most successful flushes of last spring.

Up next for your appraisal is a royally bred female who ties breed character and show ring appeal together as well as anything in the offering. Her sire, American Classic, is a proven sire of show ring champions, while her mother, EF Yadda Yadda 809Y, was an extremely successful show heifer for Aaron. She won many banners, include the Magness Junior Jackpot in 2012. ADLL Distinction 6261D was bred to be a crowd pleaser, and that's exactly what she is.

To be honest, we are a little surprised this little doll turned out as fancy as she did. Her dam is the mother of CJSL Windfall, the known performance AI sire and her sire is by the performance giant, Westwind. As you will notice in her EPD set, in concert with her pedigree, she was bred to perform, her striking appearance is just icing on the cake. The best of both worlds is here for the taking.

This heifer shares the pages with some pretty elite company, and for good reason. We really like what this Homozygous black daughter of Xcessive Force brings to the table. Plus, she ranks in the top 20% of the breed or better for milk, scrotal, calving-ease maternal, marbling and \$MTI.

Quite possibly the biggest bellied, deepest flanked heifer in the sale. While her sire might not be recognizable, look back one more generation as he is a Bismarck out of the famed Tootsie Pop donor. Besides being easy on the eyes, this heifer has a balanced number package highlighted by a 20% ranking for marbling.

To say we have been pleased with our Zero Design calves would be an understatement. We expected them to have growth and performance, which his reflected in this heifer's actual performance and EPD stats. The pleasant surprise, was the amount of "look" his calves have. We think this heifer will be easy to feed and be very competitive.

Holy smokes, what a way to wrap up the open heifer portion of our sale. Keep in mind, this heifer is young compared to most of the rest of the offering. Yet it is easy to see the potential that lies within her. As far as April show-heifer prospects go, CELL Dancing 6209D, is worthy of taking to the ball.

Building Blocks of the Future

LOTS 28-66

The bred heifer segment of this sale is a direct reflection of our commitment to raising production cattle. Our production philosophy is simply - we aim to create a product that's reproductively sound, high performance and mainstream acceptable. It's our goal that this group of 39 bred heifers on offer, which features a blend of both Limousin and Lim-Flex genetics, will translate not only into your seedstock program seamlessly but, the results of their breeding will also meet your commercial customer's targets.

This year's set of bred females is as deep as we have every been able to offer, yet this female had little trouble sorting herself to the top. This double homozygous daughter of the Angus sire of phenotype, PVF Insight 0129, comes from the extraordinary donor female, MAGS Ruffles, who in turn goes back to the great MAGS Lady Doctor. She is deep in her fore rib and carries it all the way to her flank, while maintaining a level top and superb structure. She rounds out the package with plenty of bone, a big foot and ample muscle. We expect her calf to our new herdsire, TMCK Camden Yards 295C, to be a great one. Rounding out this complete bred heifer is an EPD profile that is impressive from a growth and carcass standpoint, highlighted by a top 1% ranking for REA.

Ciao

The preeminent purebred AI sire, DHVO Deuce 132R, back on quality Lim-Flex females like this Mytty In Focus daughter represented here, is a proven commodity that has worked as well as anything over time. We really like her depth, spring of rib and circumference of bone. And from a number standpoint, she combines above breed average EPDs for birth, growth, scrotal, docility, marbling and \$MTI. In the realm of Lim-Flex genetics, the calf she is carrying by MAGS Aviator promises to push the envelope forward.

This maternal sister to Lot 28 has the added benefit of being sired by the past National Champion, EF Xcessive Force. After retiring from an impressive show career, Xcessive Force has proven to be one of the most influential Lim-Flex sires in recent years. The added genetic stability from the cow side of the pedigree only serves to bolster this female's ability to be a standout producer. From a phenotype standpoint, we really appreciate her level top and the way her neck ties into her shoulder. This homozygous black female should calve to MAGS Aviator, creating a coupon with no expiration date.

The sire of Lot 34, Dameron C-5 American Classic, is behind countless high-selling and show-winning progeny. When combined with one of the most prominent cows in the Linhart donor line-up, you get this outstanding spring bred heifer. This easy fleshing female has a tremendous amount of rib shape and capacity along with a top 2% ranking for MA EPD. Her resulting calf by MAGS Aviator will have the potential to write the next chapter in the Lim-Flex history book.

LH Rodemaster has sired as many high performing Lim-Flex cattle as any bull in the business and this homozygous black, homozygous polled three quarter blood is no exception. On the dam side of her pedigree is not only, EF Main Stay and the genetics he represents, but MAGS Games We Play, the Grand Champion female at the 2002 National Junior Limousin Show for Megan Perry. This striking bred heifer is level topped, big hipped and sports trait leading EPDs for growth, milk, marbling and \$MTI.

Last but certainly not least among the spring bred is this whale of a good cow. Her numbers are quite balanced, including top 15% rankings for WW and YW, while keeping birth weight well under breed average.

Power of Production

LOTS 67-81

As a new division to our sale offering, this marks the first time ever we are offering a select group of fall calving cows selling with baby calves at side for your appreciated appraisal. For those of you looking to invest in females already in production, this set of fall calving cows are in the prime of their reproductive lives. Rest assured, by sale time they will be accompanied by baby calves at side by some of our finest A.I. and clean-up sires.

Calved 10/3/16; CELL 6577D - a black, polled, heifer calf by MAGS Aviator.

Last and certainly not least is one of our favorite matings of all time. The Schaff bull Bismarck, out of our donor of distinction, Tootsie Pop. Take a look at her Aviator heifer calf at side and bid accordingly.

Affordable Success

LINHART LIMOUSIN
 Historical Price-Breaks 2013 - 2015

We would like to take the time to reinforce to our fellow breeders and valued junior show families the opportunity of affordable success that can be found in our sale pens. Over the past several years, we have been extremely fortunate to have sold many females in EVERY price bracket below that have gone on to win championship banners at the local, regional and national levels. To illustrate our 'affordable success' mantra take a look at our historical price break averages. Folks, make no mistake November 13 there will be several high quality females at various price ranges to suit your budget.

102 Total Open Heifers Sold

11%	\$10,000 & Above
18%	\$5,000-\$9,999
42%	\$3,000-\$4,999
29%	\$2,500-\$2,999

81 Total Bred Heifers Sold

3%	\$10,000 & Above
12%	\$5,000-\$9,999
65%	\$3,000-\$4,999
20%	\$2,500-\$2,999

A photograph of a field of tall, golden-brown grasses at sunset. The sun is low on the horizon, creating a warm, golden glow that illuminates the grasses. The sky is filled with soft, wispy clouds. In the foreground, there is a dark silhouette of a person, possibly a woman, looking towards the field. The overall mood is serene and peaceful.
