Welcome to our 28th Annual 'Keepin' Kind' Production Sale. After 36 years in the seedstock business, we have been blessed to have so many friends in this business. We are very grateful for the opportunity to bring another set outstanding stout bulls to you, our customer.

We know that there are other places to make your seed stock purchases and we appreciate your loyalty. Last year we sold 90% of our bulls to repeat customers. Taking care of you our customer is out #1 priority. As always, we offer an unconditional guarantee on all cattle sold. If you should have a bull go down during breeding season, we can usually have a replacement for you within a few days, available at our ranch or we will try to meet you half way, depending on the distance. We are very proud to say that we replace very few bulls each year.

Our Nebraska herd consist of over 450 head of registered Limousin, Lim- Flex and Angus cattle. In addition to the our Nebraska herd we have 500 hd of registered Limousin and Lim-Flex females in Plainville, KS. Our Southern location called LV Bar will be having their annual bull sale in Plainville on Feb. 9th selling 85hd of coming 2 yr old bulls and 60 hd of bred heifers. Our goal is to become a one-stop bull shop for all your genetic needs. Lonely Valley's Bull Battery continues to be ranked in the top 10% for all EPD traits.

Currently our bull battery ranks in the top of the breed for weaning and yearling growth and milk and does so with a low to moderate birth weight. Our Marbling and Scrotal circumference EPD is unsurpassed, not just on one bull, but all LVLS herd sires combined. Nearly 40 years of selection pressure really do pay off. We continue to place extensive selection pressure on calm, easy doing cattle. This set of bulls have been easy to work with. You will notice the difference. As well, cows that fail to breed being sent down the road. Fertility in these bulls is excellent with an average scrotal measurement that is unequaled in the Limousin and Angus.

The bulls will be available to be viewed at the ranch near Creston a few days prior to the sale. As well, we will have 300 calves on the ground by sale day and several of the herd bulls for your viewing. We will be serving a complimentary Limousin Beef lunch at 11:00 a.m. Should you need assistance with travel plans, trucking and delivery or anything else, please call and we will be happy to assist you. See you Saturday, February 23th at the Ranch.

Sincerely,
Lonely Valley Seedstock

SALE MANAGEMENT

Randall O. Ratliff, 615.330.2735
Randy@RRMktg.com
www.RRMktg.com
PO Box 60097
Nashville, TN 37206
(L#2845)

AIRPORTS: Columbus Municipal Airport, Norfolk Regional Airport & Omaha Eppley Airfield.

DELIVERY: Free delivery within a 250 mile radius and cost share arrangements will be made for traveling 250+ miles.

ANNOUNCEMENTS: Announcements made sale day will take precedence over printed material in the catalog. Please take note of any changes.

SEMEN: Lonely Valley Seedstock reserves the right to semen int. on any bull in the sale.

TERMS: Terms of the sale are cash unless prior credit arrangements are established between buyer and seller. Settlements are to be made with the clerk immediately after the conclusion of the auction.

MAIL & PHONE BIDS: Mailed or phone bids will be handled in a confidential matter. If you are unable to attend the sale, simply contact anyone in the sale day phone numbers. Please call in advance of the sale so we can help you ringside sale day. All cattle purchased through our 'sight unseen program' are unconditionally guaranteed, if the cattle purchased for you on order are not what you expected, we don't expect you to pay for them, no questions.

BLOOD TYPE FOR PARENTAGE VERIFICATION: All animals sold are guaranteed to be offspring of the recorded parents. Under the rules of NALF, all bulls born after January 1, 1991 that are to be used for artificial insemination or used naturally in a herd other than the owner of record must be parent verified by blood typing to both sire and dam. All females born after July 1, 1987 and December 31, 1990 that are to be used for artificial insemination or naturally in a herd other than the owner of record must be sire verified through blood typing. Sellers shall make the necessary parent blood samples available to purchasers upon written request by the purchaser's so long as a written request is received by sellers within 60 days after the sale of the applicable animal.

LIABILITY: Each animal will be the buyer's risk as soon as it is sold, but will be cared for by the seller for a reasonable period of time. Every precaution will be taken for the welfare of the cattle sold. Neither owner nor sales management can be responsible for accidents, but every effort will be made to provide for safety and comfort of those attending the sale.

INSURANCE: Insurance on your purchase can be provided by Mark Smith, Grass Roots Genetics & Consulting, Ankeny, IA, 515.229.5227

PAYMENT: Cattle must be paid for at the time of the sale unless prior arrangements are made with sale management at the time of the sale at 615.330.2735. 3% fee on all credit card payments.

ABOUT OUR CATTLE

FEEDING: The yearling cattle are fed to gain 3.25 per day, receiving a ration of corn gluten and alfalfa. We feed our bulls to gain sufficiently, with- out pushing a lot corn in the ration. We believe that corn causes structure problems later in life and causes yearling bulls to 'melt' when turned out to pasture. We are very proud of the success rate our yearling bulls have had.

SEMEN TESTING: All bulls have been semen tested and measured and a certificate will go with each bull sold.

UNCONDITIONAL GUARANTEE: If the cattle that you purchase at our sale fail to meet your expectations, we will replace the animal, providing you return the animal to our ranch at your expense. We will provide you with a replacement animal or give you full credit toward next year's sale or a cash refund. This guarantee expires after the first breeding season. We ask that you provide travel expenses for the replacement animal. Customer Service is #1!

ANALYZE THE PERFORMANCE DATA

BW :: BIRTH WEIGHT We take birth weights on our cattle in order to give you some method of determining calving ease. Larger calves will sometimes come very easy. We believe that calf structure determines calving ease along with size.

WW :: WEANING WEIGHT This is the weight of the cattle taken at weaning time adjusted to a constant age of 205 days, and a good indication of early growth.

YW :: YEARLING WEIGHT This is the weight of the cattle taken at approximately one year of age and adjusted to a constant age of 365 days with at least 150 days between actual weaning and yearling weight dates.

ADG :: AVERAGE DAILY GAIN Growth rate is highly heritable and these numbers will give you an idea of how the cattle respond to environmental conditions. i.e. feed, weather, etc.

HOW TO FIND WHAT YOU ARE LOOKING FOR IN THE SALE

We first select without papers, finding all visible phenotypic defects and problems. Once the outliers are eliminated, we then select on paper, eliminating those cattle with performance, EPD or genetic problems. This two-step selection process is done at weaning and repeated again just before the sale with yearling data and semen checking added to the criteria. Of course, disposition is still the number one culling criteria in our herd. Choose the type of bull that best meets your cowherd or feel free to call us to further discuss your options. We would be happy to visit with you.

'MAXIMIZERS': Purebred & High Percentage Limousin Bulls These lean, red meat machines will maximize hybrid vigor on your British and British X cows. These bulls will maximize performance with- out sacrificing calving ease. Several of these prospects go back into the purebred industry each year, being purchased by other purebred breeders.

'STABILIZERS': 75% Limousin x 25% Angus Bulls Our most popular hybrid for 28 years, these ultra-thick and deep machines are unequaled in their muscle, volume and phenotype. These bulls work well on most any cowherd, offering the extreme thickness of Limousin and the volume of Angus. Hybrid vigor can be increased and maintained with these bulls on most all straight bred and crossbred cows.

'OPTIMIZERS': 50% Angus x 50% Limousin Bulls These Angus x Limousin F1 Composites have been a hit on our sale for many years as well. Many cattlemen are using these bulls to moderate their cow size and create consistency or in a four-way cross breeding system. Optimizers are moderately framed, very deep and offer much more thickness than the pure- bred Angus cattle.

'OPTIMIZERS': 25% Limousin x 75% Angus Bulls They are 25% Limousin and 75% Angus. These bulls combine the best of the numbers of the elite Angus combined with the prominent Limousin. These bulls are huge numbered and have some of the strongest weights and stats of the entire sale offering. These bulls bring the statement of Lim-Flex to a whole new level in our breed. We urge you to see for yourself how any one of these bulls might fit into your program to sire a uniform and very desirable calf crop.

'ANGUS': Purebred Registered Angus Bulls Over the past several years we have acquired over 100 Registered Angus females, along with flushing one of our top Angus cows in our Embryo Transfer Program, to promulgate a complimentary breed to our exist- ing lines of seed- stock. Our goal is to provide Purebred Angus bulls that can offer an ideal complement to high percentage Limousin based cows. We have known for years that the Limousin x Angus cross is the best, now we will be offering both sides of the equation.

If you're in search of an elite numbered bull, you've got to stop and analyze this one. LVLS Full Duty 2201F has a chart topping marbling EPD with a 0.55, a milk EPD that ranks in the top 2% of the breed at 29 and a yearling weight that ranks in the top 15% at 111. Talk about an impressive number profile! This AUTO Heavy Duty son truly will blow you away with numbers but he'll also stop you in your tracks phenotypically. We just love the way this one looks and his super neat front end. He is flawless in his lines and has a killer presence anyone would want to throughout their herd in the future.

Here's a homozygous, polled Lim-Flex bull that will be a game-changer in terms of carcass performance and maternal traits. His marbling and milk EPDs both rank in the top 10% of the breed. He is exceptional in his structural desirability and correctness. LVLS Optimizer 1069F sure has a stylish look from the profile and is full of genetic potential backed by a proven pedigree. This bull's dam is an impressive EBFL Ypsilanti daughter. Ypsilanti is the great brood cow producer who has been a breed favorite for years.

This is a homozygous black, homozygous polled AUTO Heavy Duty son you'll want to graze in your pastures. LVLS Stabilizer 8116F has quite the impressive milk EPD at 28 that ranks in the top 3% of the breed. He is a low birth weight bull that will put a powerful, stylish stamp on a set of young females or you're seasoned brood cows. His birth weight ranks in the top 20% of the breed and his marbling in the top 25%. This bull's dam is a MAGS Zarah daughter that goes back to COLE Wulf Hunt. If you're in search of proven lineage behind a masculine, sound structured Lim-Flex bull, this is your guy.

LVLS Optimizer 59F is a chart topper from a carcass standpoint and has impressive growth numbers you'll want to study. His marbling EPD ranks in the top 3% of the breed with a 0.38, his yearling weight at 112 ranks in the top 15% and weaning weight at 70 ranks in the top 20%. This solid-numbered bull is one that we truly admire when we study his athleticism. He moves with tremendous flexibility off both ends of his skeleton and tracks with such comfort on his feet. His dam goes back to SAV Bismarck 5682 and Bon View New Design 1407, two greats in the Angus ranks.

Talk about spring of rib and levelness of topline! We love how this one comes together so flawlessly in terms of build and stoutness. He is super thick over his top and his overall design combined with such a powerhouse look is what captures everyone's attention around here. Not only does he have a desirable phenotype, he has the numbers to prove he's worth it. He ranks in the top 10% of the breed for his marbling and milk EPDs. LVLS Optimizer 1007F is also a low birth weight bull that will make him a versatile sire to have in your herd. This MAGS Zodiac son is homozygous black and double polled.

This bull redefines ruggedness of structure, big topped and big numbered. He ties all of these together in such a powerful and masculine design. LVLS Stabilizer 1036F is double black and double polled. He has some great numbers- his yearling weight ranks in the top 4% of the breed with a 121, yearling weight ranks in the top 10% with a 73 and his milk EPD ranks in the top 15% at 25. We like to consider this guy the all-around, go right-to-work kind who will stay sound and productive for years to come.

Here is a super soggy, crazy deep sided homozygous black, homozygous polled LSTO Best Effort son that we can't get enough of. This guy is about as soft made as they come in the herd sire prospect ranks. LVLS Fort Knox 5048F is a phenotypic stallion and one that you won't want to look past on sale day. His style and look are top-notch to his contemporaries and will challenge any herd sire prospect for years to come in that category. He 'Knox' the socks off of anyone that lays eyes on him.

This young herd sire prospect is from a genetic combination that will speak for itself. His sire, LSTO Best Effort is an EXAR Upshot son and from the coveted SBLX Xtra Special donor. This bull's dam is a JCL Lodestar daughter. He is homozygous black and homozygous polled with a yearling weight EPD that ranks in the top 25% of the breed. LVLS Stabilizer 604F has an abundance of natural thickness, muscle shape and depth of rib. This guy will sire the kind of cattle we all desire to have grazing in our pastures

Here is a stout made, structurally correct herd sire prospect that we admire for his overall design and completeness. This LSTO Best Effort son is homozygous black and double polled and has a marbling EPD that ranks in the top 2% of the breed with a 0.44. He is extremely thick from end to end and moves with a great amount of flexibility off both ends of his skeleton. We are confident in this one's potential to be a reliable herd sire in any operations for years to come.

We are so proud that this individual carries the LVLS prefix. This is a bull that you have to admire for his front end, strength of lines and his flawless design. If you're looking to improve numbers, add pounds and style to your herd- look no further. LVLS Freightliner 5F ranks in the top 15% for weaning weight with a 72 and the to 20% for yearling weight and marbling. He is out of the dual-purpose bull, MAGS Aviator that sires cattle with superior phenotype and functionality. We are confident that this bull will become your all around, go-to herd sire once you see him on sale day.

This homozygous black, homozygous polled bull has loads of body shape, is stout in his build and eye-appealing. Numerically, he offers a distinct calving-ease advantage and also possesses extraordinary genetics for growth performance. LVLS Fifty Shades 9097F has such impressive numbers- he ranks in the top 3% of the breed for his weaning weight and the top 5% for yearling weight. His marbling and milk EPDs rank in the top 10% of the breed and the top 15% for birth weight. He is out of HBRL Genesis 404B, a son of the great million dollar-valued EXAR Denver and from the seven cross donor cow, Xcuse Me 004X, an AUTO Dollar General daughter. LVLS Fifty Shades dam is a solid producer and daughter of MAGS Zarah. This bull's lineage is packed full of superior genetics generations back.

This sound, extra soggy-centered, deep flanked bull is flat in his shoulder and loaded with individual growth performance. LVLS Fordyce 62F is an LVLS Devil's Advocate 1036D son. Devil's Advocate is out of MAGS Zodiac, an impressive MAGS Winston son. This bull ranks in the top 20% of the breed for yearling weight at 107. We really appreciate the lines this guy has and his stylish flare. This bull is well bred and comes with such a prominent pedigree that you'll want to have in your operation.

Here is a double black, double polled purebred son of Wulf's Compliant K687C that you'll want to study. LVLS Maximus 1008F ranks in the top 15% of the breed for his milk EPD. We believe this moderate framed, extra thick young herd sire prospect is a sure-fire candidate for implementing trusted, proven genetics into your herd. This bull's dam is a daughter of the great JCL Lodestar bull and Compliant is out of a Wulf's Revolver son, Wulf's Willard 5115W.

Another impressive purebred Wulf's Compliant son. We appreciate this powerful production look this bull has. He is expressively muscled, deep in his forerib and we appreciate how sound and flexible he is in his pasterns. If you're looking to add quality with a punch of power and efficiency, this is your bull. Mark LVLS Maximizer 1003F down to check out on sale day, you won't be disappointed! He is homozygous polled and homozygous black.

Whew- this one will stop you dead in your tracks. This homozygous polled and double black son of LVLS X-Tra Profit 2014 is one that we think quite a bit of, he is a true herd sire in the making due to his combination of phenotype, pedigree and data. Not only does this guy have a killer look, he has a breed-leading milk EPD. He ranks in the top 1% of the breed with a 30 for milk. X-Tra Profit is out of the great AUTO Dollar General and from a Carrousel's Pure Power daughter. This bull's dam is an MYTTY In Focus daughter. Superior genetics, superior design and superior quality- this is the one to keep in the back of your mind for sale day! He is homozygous polled and homozygous black.

Another homozygous polled, double black MAGS Zarah son that we really admire from a maternal and growth standpoint. LVLS Stabilizer 126E ranks in the top 10% for yearling weight at 114 and milk at 26. His yearling weight ranks in the 25%. This bull is massive from the ground up- he's super big boned, soft in his pasterns and has a good amount of rib shape. We are confident this bull will be predictable and remain functional for years to come.

If you're looking for a super big maternal numbered bull, here's your guy. LVLS Stabilizer 27F ranks in the top 3% of the breed for milk with a 28. He also ranks in the top 15% for marbling. His dam is a MAGS Unreal daughter. Unreal is the calving ease king and from a great JCL Lodestar daughter. Make sure you truly look at the quality that goes generations back in this bulls pedigree. We believe this bull has all pieces to make a tremendous impact in your operation and put a powerful stamp on his offspring.

Here is another great numbered, double polled, double black herd sire prospect that is super soggy in his design. LVLS Stabilizer 1886F ranks in the top 20% for birthweight and weaning weight. This is a bull that can be used on young heifers or your seasoned brood cows for calving ease with an extra shot of growth and performance. When you study this guy on the move, you'll appreciate the flexibility he has off both ends of his skeleton and his super comfortable stride. On his dam's side he's backed by some of the great ones- DHVO Deuce and MAGS Wazowski.

This heterozygous black, double polled COLE Cadillac son is an impressive profiling young herd sire prospect. He's one that we appreciate from a functionality and structure standpoint as well. LVLS Stabilizer 7317F is super sound on his feet and legs and has the 'cattlemen's bull' look to him. We are confident that with this one's design and production oriented build that he'll be a great addition to your operation.

Here is a royal-pedigreed red herd sire prospect worthy of considerable attention. It's so easy to appreciate the power and growth this one has to offer. His milk EPD ranks in the top 3% of the breed at 28, so he's sure to add maternal power to any group of cows he's covering. LVLS Farmer 9064F is double polled and comes from an impressive MAGS Zarah daughter. We love this one's rib shape and his structural integrity.

LVLS Five Star 783F is just that in our minds- a five star young herd sire candidate with an elite set of numbers. He ranks in the top 3% of the breed on two accounts- for his marbling EPD at 0.36 and his weaning weight at 79. His birth weight and yearling weight rank in the top 15%. If you're in the market for a dual-purpose individual, look no further than this KM Broken Bow 002 son. Broken Bow is a numbers giant and has sale-topping sons across the nation. On his dam's side is DHVO Deuce and EXLR Excellante. Be sure to study this one hard on sale day.

LVLS Brilliance 5048F truly shines with 'brilliance' around here. He is quite a combination bull with plenty of extras. Brilliance presents plenty of power, dimension, rib shape and performance in a sound, functional package. This bull is great in his phenotype but loaded in pedigree. He comes from the great SAV Brilliance 8077- one of the most popular bulls in the Angus ranks and from a proven cow family that needs no introduction. His dam is from the Blackcap family and a daughter of Bon View New Design 1407.

LVLS Denver 9098F comes from a royal breeding line. He is an EXAR Denver 2002B son- Denver has a crazy impressive number profile and has sired sale-topping offspring for years at Express. He also set a sales record when he sold for one-third semen interest for \$340,000. This bull's dam is a daughter of Connealy Final Product. We really admire this bull for his smoothness of lines and his structural correctness.

LVLS Rampage 59F is a unique individual that we love in terms of fleshing ability and design. We think a lot of this young herd sire prospect that comes from the popular Quaker Hill Rampage 0A36 bull. Quaker Hill Rampage was the Angus breed's #1 bull for registrations in 2018 and is highly proven for incredible growth and performance. This bull's dam is an impressive SAV 8180 Traveler 004 daughter. Quality is seen through and through in this one's lineage and now is your chance to implement these highly sought after genetics in your herd.

Direct your attention to LVLS Emblazon 7308F- he is an exciting pedigreed bull that we really admire from a design and functionality standpoint. Out of LD Emblazon 999, the big numbered sire who produces nice patterned, growthy offspring. This Emblazon is sure to do just that. He is super sound when you study him on the move- you can't catch him at an angle that he won't impress you from. You'll want to take a hard look at him on sale day and get him on the trailer headed to work your pastures.
