Thank You for Your Support

A large part of the excellence achieved at the National Junior Limousin Show and Congress stems from support of involved Limousin breeders - support from both the heart and the wallet.

This year, the National Junior Limousin Show and Congress in Rapid City, SD, promises to surpass even the high points of past experiences.

As you can see from the program, this year's benefit auction is filled with genetic opportunities and many other interesting items, thanks to the generosity of the many contributors. You will have the opportunity to choose from:

- some of the most popular and useful sires and dams in the breed today
- preferred position pages in the National Junior Limousin souvenir program to advertise your ranch or program
- award sponsorships
- unique art
- genetic packages
- fishing trips

This "Genetics On Ice" benefit auction gives you the opportunity to help yourself and your program while supporting one of the breed's major events of the year.

The benefit auction, as we know it today, was started in 1984 by American Cattle Services to fund the first All-American Limousin Futurity in the summer of 1985 in Springfield, Missouri, which was the first time the National Junior Heifer Show was held in conjunction with an open Limousin show. This first auction was held at the American Royal in Kansas City, Missouri, with assistance from the Kansas and Missouri Limousin Breeders Associations. Most items offered were frozen semen and pregnant recipients, thus the auction was named "Genetics On Ice" from the very beginning.

The fundraiser was initially one where the donor received 50 percent of the revenue and the AALF received 50 percent. After the second such auction in Kansas City in 1985, Dr. Greg Martin, NALF Executive Vice President, and Ken Holloway, principal partner of American Cattle Services, thought it would be appropriate to hold the benefit auction in Denver at the NALF banquet and split the proceeds between NALJA and AALF. The "Genetics On Ice" auction has enjoyed a 37-year run with much success thanks in no small part to the generosity of those who attended, contributed and purchased.

Totals indicate some \$1.75 million has been raised from Limousin breed promotion at the "Genetics On Ice" auction. A special thanks to all involved!

All semen and embryos will be released for shipment upon payment, unless otherwise noted.

Shipment will be at the buyer's expense. Semen and embryos are not necessarily exportable outside the United States.

Please make checks payable to:

NORTH AMERICAN LIMOUSIN EDUCATION CORPORATION

EPDs are current as of 12/19/2022.

See you in Oklahoma City!

Ken Holloway HONORING

For 37 years, this event has helped raise funds for the National Junior Limousin Show & Congress, NALJA events and the Limi Boosters. \$60,725 was raised from this benefit auction held during Cattlemen's Congress and Annual Limousin Convention. Thank you to all the donors and buyers for the continued support!

The oversight committee for the All-American Futurity scholarship program and Genetics on Ice Benefit Auction met in April to discuss the renaming of the scholarship program generated out of Genetics on Ice and the Genetics on Ice Benefit Auction itself in honor of Ken Holloway.

Ken Holloway was as dedicated a Limousin breeder as any man could possibly be. That dedication was also extended to his family, fellow breeders, and friends in the cattle business across the country. Ken was also the breed's most dedicated supporter of the North American Limousin Junior Association since its inception. Ken started the Genetics on Ice Program in 1984 to provide the vehicle that not only financed the junior association's activities annually, but additionally helped run the All-American Limousin Futurity until its conclusion in 2020. The Genetics on Ice Benefit Auction has raised over \$1.75 million of revenue for the Limousin Junior Association.

Today, thanks to Ken's foresight and passion for juniors in the Limousin breed, the proceeds that previously funded the Limousin Futurity show were diverted to fund over \$17,500 of scholarships annually to juniors. The remainder of the proceeds help fund the juniors' annual operating budget.

As we move forward, the \$17,500 of annual scholarships awarded at the National Junior Limousin Show & Congress out of the Genetics on Ice allotment will be named the Ken Holloway Memorial Scholarship Awards. The Genetics on Ice benefit auction will be renamed as the Ken Holloway Genetics on Ice Benefit Auction.

Trooper – “Oklahoma Highway Patrol Trooper in the mid eighties on the Will Rogers Turnpike. Mr. Holloway the fine for twenty miles over the posted speed limit is \$90.00. Why did you write the check for twice the amount?”

Ken – “Cause I’ll be back through here tomorrow about this same time.”

**All open market bulls will bring retail value+*

National Junior Limousin Show & Congress

2020 marked the end of the All-American Limousin Futurity after 36 years. 100% of the funds generated by the Genetics on Ice sale will go to the North American Limousin Junior Association and will continue as a fundraiser for the NALJA summer event. \$17,500 of the funds to be earmarked for scholarship awards to show winners as follows:

115 CJ BROWN PAINTING

Growing up on a farm in northern Illinois, CJ Brown appreciates the land, the lifestyle and people of the rural countryside. Her father raised Angus and Simmental cattle which laid the foundation to develop her interest in painting the cattle which she is so passionate about. Today she lives outside of the village of Lindenwood, Ill. where she is involved in a family partnership herd with her dad, brother and son. She received an art degree from Luther College, Decorah, Iowa and she has completed projects for the American Angus Association, American Gelbvieh Association, American Shorthorn Association, American Simmental Association, and the Charolais Association. At the 2008 National Junior Angus Show held in Des Moines, Iowa, she was inducted into the Honary Angus Foundation for the work she has done for the junior program. Her work hangs in the American Angus Hall of Fame, the Canadian Angus Association, Cargill Meat Solutions, Beef Division, the American Shorthorn Corporate Headquarters as well as other corporate businesses tied to the beef industry. Most importantly CJ is most grateful to all those who enjoy her work in their homes and give her the opportunity to continue to create her passion of painting.

116 UNION STOCKYARDS GAME

From the Civil War through the 1920's, more meat was processed in Chicago's Union Stockyards than anywhere in the world. During its height, 40,000 workers, mostly immigrants, labored in "the busiest square mile on earth", where over one million livestock passed monthly, supplying 80% of all U.S. meat. There were over 2,300 livestock pens and 130 miles of railroad within the "yards". You play one the "Big Five" meat packers, developing technologies to use every part of the animal while battling labor unions and adjusting to historical events. The livestock cost is the same for all players, but your meat values will differ due to your decisions of constructing buildings, establishing branch houses, and improving brand reputation. At the end of each year, livestock costs (cattle, hogs, sheep) will be adjusted up or down depending on the demand that you created. Sometimes you may choose to slaughter certain livestock just to manipulate the market in your favor. Whichever packer accumulates the most wealth wins the game.
