

RUST MOUNTAIN
VIEW RANCH
FEMALE DISPERSAL
ANGUS - SIMMENTAL - RED ANGUS **SALE**

at the ranch - Mercer, ND
MONDAY OCT. 26, 2020

On behalf of all of us at Rust Mountain View Ranch we'd first and foremost like to say thank you for your interest in our program and would also like to thank our past buyers. Without our great customer base none of this would be possible!

I know there are many questions about this sale and the reasoning behind why we are dispersing our registered females that we own 100%. It's actually quite simple and straight forward. We believe with a more intense ET program we will be able to up the quality and consistency in both the female and bull sales each and every year. So don't worry, we aren't going anywhere we are just changing our philosophy on how we are going to bring you the best animals possible each and every year!

Over the past several years we have heard from our customers on how nice it has been to turn full brothers into their cow herds. They have commented that their calves have come off the cow with more consistent weights and eye appeal in their females. With consistency comes added value for the customer and that is what we are trying to do for our customer each and every year, ADD VALUE. We believe that

we will be doing our part as a registered breeder in adding value to our customers cow herd by making this transition. We did not come by this decision lightly. We have poured our hearts, soul, and extensive financial resources into accumulating this cow herd and we are extremely proud of it! We will continue to put in embryos on some of the same cows that we are selling, due to us planning ahead for this specific, one of a kind sale, and flushing these cows religiously over the past two years! We believe in these cows and our cow herd immensely and believe the new owners will have extensive success with them! These are not cows that have been pampered or not made the cut. If they have made it at our ranch for more than two years we are very confident they will be an added asset at yours as well!

We are so honored to say we are part of the cattle industry. Each year there are new challenges and opportunities which makes this industry so exciting and rewarding! There is nothing that is more rewarding than overcoming challenges and seeing the end result of years of hard work come to fruition! This is the case with this year's sale. We have been working diligently

WELCOME FROM THE RUST FAMILY

each year on our base cow herd and are starting to see more and more of the rewards that an extensive embryo transfer program has to offer. There is nothing more exciting than watching those cows evolve into the genetic gems that you imagined and hoped they would be when you first planned the flush! As always it continues to be our utmost passion to bring the greatest cattle possible to our customer base with your needs in mind first and foremost! So buy with confidence at this year's sale because these cows have been the backbone of our program!

Like always if you have any questions about the catalog, or our new philosophies of an extensive ET program please don't hesitate to give us a call. We enjoy the conversations and look forward to them each and every year. If you're ever in the area we'd love to have a visit and show you around the ranch. The coffee's always on!

Thank you again for your interest in our program!

1/2 Interest Females:

In order to build our program into the future and our commitment to sell every female we own 100% of, we will retain 1/2 interest in lots 1, 29, 31, 32, 38, 53, 66, 67, 188 and 221. Possession will remain with Rust Mountain View Ranch unless the new owner decides to double purchase price, then he or she will own 100% of the animal.

If new owner remains partners with Rust Mountain View Ranch then the following will be offered: 30% of gross of sale of natural calf with no expenses. First two aspirations to new owner then they will be alternated back and forth with the third going to Rust Mountain View Ranch. All flush costs would be paid by whoever is flushing her at the time along with the board at the flushing facility.

SCHEDULE OF EVENTS

Sunday, October 25th

- Sale cattle available for viewing

Monday, October 26th

9:00am - Carmel Rolls and coffee served

11:30am - Complimentary lunch

1:00pm - RUST MOUNTAIN VIEW RANCH DISPERSAL SALE

DIRECTIONS

836 7th Ave NW, Mercer ND 58559

From Mercer, ND:

- Go 3 miles north on only paved road heading north which is Highway #33.
- On east side of the road you will see a sign that says Rust Mountain View Ranch turn east there on gravel road and go 1.5 miles to a T in road.
- There you will see a house a quarter mile to the north and that is the yard.
- Visit the website 'Contact Us' Page for a Google Map of the location

EPD'S - The EPD's listed are the new Fall 2020 numbers. Please note the EPD's may change from the time the sale catalog is printed until registration papers are transferred.

VIDEOS - Videos on all sale cattle will be available on CCI. Live.com or RustMountainViewRanch.com

OWNERSHIP - All females sell in their entirety 100% unless otherwise stated in the catalog or announced on sale day. Rust Mountain retains the right to one successful flush (minimum 6 embryos) off any sale female.

ULTRASOUNDING - All bred heifers are guaranteed in calf. Sexing & expected calving dates are approximate and not 100% accurate or guaranteed.

ANNOUNCEMENTS & SALE TERMS

Announcements made from the auction block during the sale take precedence over printed material in the catalog or other printed material associated with this sale. Anyone attending this sale attends at his or her own risk. Breeders and sale force will not be held responsible for any personal injury for attending this sale. We highly recommend you insure your purchase on sale day, if they stay at our ranch. All cattle sell under the Suggested Terms and Conditions of the American Simmental Association.

Rust Family Candid's

Welcome

from Bohrson

The Rust Mountain View Ranch Female Dispersal Sale holds as significant of an opportunity as any sale we have been associated with in our history. The restructuring of this program allows you access to every female that they own outright, with nothing off limits. The Rust Mountain View Ranch program is one of the most progressive in the industry for stepping out and investing in the most exciting genetics to enhance their herd. It has truly been a labour of passion with many hours of research, days of travel, and significant financial investment being put forth to design this impressive group of females. You will be pressed to find group of proven and potential embryo transplant females this extensive and with as much quality and pedigree in the Simmental, Angus, and Red Angus breeds as are detailed in the next 132 pages.

COW FAMILIES are the focal point of this program and the sheer quality of the industry's best are on offer to enhance your operation. 8543U is the most influential Simmental donor in the United States and she has positively impacted the breed in so many different ways. There are 14 direct daughters of 8543 and countless descendants that will highlight this prestigious event. 202Z is 8543's equivalent north of the border, and holds the comparable level of production, prominence, and marketability. There are 20 members of the Flirt cow family to choose to invest in to elevate your program among the breed's best. While those two cow families are certainly the very elite top 1% of the breed and headliners of this event, the depth of quality here is truly staggering and those breeders who diligently study the other cow families and genetics closely will be rewarded with the opportunities available.

When the Rust family pursued the Black Angus business, they approached it the same as everything they do in life and went all out. They routinely go the extra mile in every endeavor, and consistent with that approach, they sourced one of the most outstanding donor females in the breed with the Soo Line Rose 1019. 1019 is a direct daughter of the \$100,000 EA Rose 918 who also raised the \$125,000 Bank Note and has assembled a descendant roster of Angus greatness. This event provides the opportunity to invest not just in a Rose, but extends to other impressive maternal lines like the incredible Beauty, Madame Pride, Blackcap May, Echo, and Emblynette females that have been assembled in building this strong black cowherd.

The Red Angus program has been diligently built, designed for profitability, and it is one of the most impressive groups of production females in the business. When the opportunity arose to sell the Red Angus herd privately to 5 Oaks Farm, it was an ideal fit as they have the same progressive outlook on the breed as the Rust family. We are thrilled that they are going to be part of this event and sell 12 of their very best females to showcase the direction of their program. As we continue to work with the Giffey family, we can assure you they are the same hard-working, integrity-driven people as the Rust family and you can do business with confidence with these good people.

This sale represents the heart and soul of the Rust family with the immense dedication that they've put into this program. With well over 90% of the offering being embryo transplant calves, the consistency and quality of this herd is second to none. Rest assured that when you're buying from the families in this sale, you are investing in awesome genetics from salt of the earth people. We encourage you to join us in Mercer, ND for a very special event that is sure to supply genetics to enhance your program's future.

Welcome
— from Innovation

*I*NNOVATION
— AgMarketing, LLC —

Welcome to Mercer, North Dakota, home of Rust Mountain View Ranch; where opportunity knocks on October 26, 2020. This offering will undoubtedly be one of the most dynamic and unique sets of Registered Simmental, SimAngus™, Angus, and Red Angus females to sell at public auction during the Fall of 2020. The Rust family has remained as progressive as any outfit in North America when it comes to assembling the most elite cow families, individuals, and genetics. The same ideology is carried across all of the breeds represented when it comes to mating, selecting, retaining, and culling females. The fundamentals are always first, and the cattle that call Rust Mountain View Ranch home are required to work for a living if they plan on an extended tenure.

The Rust family has made the difficult decision to convert their program to a complete and total embryo transfer program. All females solely owned by Rust Mountain View Ranch will sell, and there is no doubt that there is something in this set of females for everyone. Countless ET flushmate sisters, daughters of breed-leading matrons, bred heifers, production-age females, and proven donors will all sell. This is an opportunity to add to the foundation of your program and build around key breeding pieces that genetically need no introduction to the business. Daughters, granddaughters, and other derivatives will be offered for your appraisal that trace to legendary cow lines such as: Miss Werning KP 8543U, W/C Angel 2870Z, RF Certainly Flirtin 202Z, Bailey's MS Dreamy 946W, RF Scream 215Z, Brooking Beauty 333, Soo Line Rose 1019, SAV Emblynette 1786, and many more influential females of significance within the industry. This is truly a once in a lifetime opportunity to acquire females that the Rust Family have spent decades assembling and breeding with the diligent goal of taking their cowherd to the next level.

Consider this your personal invitation to make a long weekend of it and join us in beautiful Mercer, North Dakota for a historic event in the registered cattle business as Rust Mountain View Disperses their registered cow herd on October 26, 2020. There are two things you can count on when visiting this operation; the quality of cattle and hospitality like no other. The entire offering will be convenient to view any time prior to the sale and we encourage you to come see this set of females for yourself; they're worth the drive or flight, regardless of where you call home. If you have questions about this offering, please do not hesitate to reach out to any of the Rust Family or sale staff prior to the sale to discuss the offering. We can't wait to see you in Mercer on October 26, 2020 as a "once in a lifetime" set of females cross the auction block!

Enjoy the cattle,

Graham Blagg

The Simmental Program

Lots 1 - 196

Miss Werning 8543U
— cow family

THE LEGEND, Miss Werning KP 8543U is one of the all-time great females of any breed and has surpassed \$8 million in progeny sales. She has lead the way as most influential donor in the Simmental breed and continues to produce the most sought after genetics that simply do not miss.

8543's breeding capacity is unlike any other as she has the ability to produce daughters that can be the next great donor female, such as the first 27 females in the sale OR put a big time son in a semen book to have a huge impact on the breed. Embryos from 8543 always top the sales with many selling in excess of \$7,000/embryo and her legacy continues to live on as an iconic breeding piece.

Only in a special sale such as this one, does it give you an opportunity to purchase 14 direct daughters and many more granddaughters of the iconic 8543. Every single daughter born at Rust Mountain View Ranch is on offer and you're truly getting the best of the best in genetic excellence right here. We are proud of this offering and this is a special way to start off the catalogue with the very best that we have ever produced.

8543U cow family

Bailey's Ms Dreamy 946W

cow family

Buck Cherry is one of the great red donors that we rank amongst the very elite in our program. Her famous donor dam, 946W has a long history of raising the great ones and she produced the National Junior Simmental Grand Champion Female that was shown by Sara Sullivan plus another American Royal Reserve Division Champion for the Effling's. The 946W progeny have been in high demand at \$195,000, \$135,000, \$50,000, \$45,000, \$40,000 and has produced in excess of a million dollars in sales. We feel that Buck Cherry wraps it all together and one that we feel offers a lot to the industry.

946W cow family

K-LER Dolly's Queen 609D

cow family

The Dolly cow family has rose to prominence across the industry in recent years, with multiple high sellers and show champions ever since the K-LER program selected 028X from Gateway Simmentals. The Dolly females have worked to multiple sires and proven to be extremely predictable genetics. The young 8609F donor is a maternal sibling to the \$180,000 breeding sensation W/C Fort Knox 609F whose semen has demanded > \$400 per straw and to the \$110,000 valued W/C Miss Werning 899F. This 2 year old female has a lifetime of production in front of her, combines the Dolly and 8543 cow families, and is bred up early.

RF Certainly Flirtin 2022

cow family

Rancier

The most influential Simmental female north of the border would be the famous RF Certainly Flirtin 2022 who has produced over \$700,000 in sales. This incredible female has done it all from show ring champion to producing sale topping progeny year after year throughout the continent. She started her show career as 2013 National Champion Female, Farmfair Grand Champion Female and went on to win 2014 Farmfair Supreme Champion Female over all breeds, 2014 Agribition Grand Champion Female and the first Simmental Female to win the RBC Beef Supreme Champion Female over all breeds representing the best of the best across all Canadian shows.

Her show record is simply amazing but her production record is even more polished with an incredible line up of sale topping progeny. Her sons would include the \$130,000 RF Supercharged 9150G north of the border and the \$60,000 Rust Rio Grande 7022 that topped our sale a few years back. Daughters have commanded \$55,000, \$45,000, \$45,000, \$44,000, \$42,500, \$30,000, \$22,000, \$20,000, \$18,000, \$18,000 and many more. The true breeding potential shines through on these high selling daughters as it has been calculated that multi-millions have been produced through 2022 and her daughters direct progeny in their early production careers.

Once again, only in a dispersal does an opportunity to invest in the entire 2022 cow family, specifically the great sale feature 404B donor who was also a Supreme Grand Champion Female that has produced the \$65,000 RF/Rust Stimulus 610D and the \$62,000 RF/Rust Flirt 827F along with the \$28,000 Rust Hydro 8F and \$16,500 RF/Rust Backdraft 981G. No more to say other than it truly is an outstanding opportunity to acquire elite genetics not often offered in such quality and numbers.

\$11,000 RF PERCEPTION 983G

Scream 215Z is one of the highest revenue raising donors in our program and she has produced over \$200,000 in progeny and embryo sales to date. She was special from a young age and began her show career as Division Champion and then went on to be Reserve Grand Champion Female at Agribition and later sold as the Friday Night Lights high seller at \$36,000. She is a beautiful red baldy female that is hard to part with as she has done so much right for our program but we are committed to this sale and we will offer up 1/2 interest with the option to double.

Her progeny speak for themselves and one of the great breeding bulls in the breed would be BGS/BM Captain Scream 63D who was produced after Black Gold & Canadian Sires bought a flush in our sale for \$15,500. He went on to be one of the most winningest bulls in Canadian history including Grand Champion Bull at Agribition, FarmFair and Supreme Champion at Lloydminster and PA-Ex. Since his untimely death, his semen has constantly commanded \$500/dose range with a Agribition Reserve Grand Champion son, SVS Betts commanding \$120,000.

RF Scream 215Z has produced other progeny that seek \$30,000, \$20,000, \$15,000, \$15,000, \$11,000 and \$11,000 with full sob embryos bringing \$4,000/embryo. Her most prized daughter may just be the incredible RF Scream 974G that is one of the most dominant show females for Kade Rancier, Rancier Farms and she is one of the best up-and-coming simmental females in the breed. Scream 215Z has a special spot in our program and we are excited to offer her to the industry.

Dam of Lot 63 & 64: Rust Miss 6105D

Muirheads 410B NLC 74E

— cow family

74E is one of the young donors in our program that we are confident that will have a positive impact moving forward on the industry. Her presence, overall balance and impressive ability to hit you hard at every angle landed her in the flush pen where we feel she can be mated with success numerous ways. This is the type of female we want to keep a part of to build our program into the future and have the confidence she will be a valuable breeding piece.

LFE BS Violet 641A

cow family

A personal favourite donor that has a unique pedigree to the mainstream US bloodlines. Violet 641A was a many time Champion Female herself that is awesome footed, sound structured and combines that with excess stoutness, muscle shape, natural depth of body while still being upheaded and alert through her front 1/3. If you don't want to sacrifice maternal strength and keep shear cow power in your program, this is a donor that will do it. She has proven to raise high selling progeny year after year and one that is hard to knock a hole in.

 FarmFair Grand Champion Female

Beech Bros Yara 122Y

cow family

Beech Bros Yara 122Y ranks up as one of the most productive donors to ever grace our pastures. She produced the high selling bull in our 2016 Sale to McMillen Ranching and our high selling red heifer in 2015 to Beechinor Bros/Ferme Gagnon along with marketing embryos consistently at the \$2,000/embryo range. Yara is a major building piece in our program moving forward with her udder strength, sound structure, strong foot and overall completeness. The daughters on offer represent those same qualities and will make great production females for the successful buyers.

PE to DCR Mr. Finnigan F446 from August 14 - October 23

TNT Miss Sadie M68 was one of our initial Simmental donor investments and one that doesn't owe us a dime as she has paid her way. She built our red program up and was the cornerstone donor and matriarch of our entire cow herd. She is beautifully constructed and powerful in her design with a strong foot, sound structure, quality udder and desirable body design. Not just an attractive cow, TNT Miss Sadie M68 is a highly productive donor that consistently produced high selling progeny that have elevated the strength of our program along with our customers.

\$10,500 full sib: Rust Miss Sadie 505C

LFE BS Sheila 82A

cow family

LFE BS Sheila 82A is an awesome donor female that was the back to back Agribition & FarmFair Grand Champion Female who has evolved in a great breeding piece. Her granddaughter, 988G was one of our top selections at Friday Night Lights and a female that we know will be a donor cow into the future with a great udder, powerful design and sound feet in a structurally sound package. Just an exceptionally strong female with an elite pedigree that includes some of the breed's best genetics.

Early Sunset Pride 49Y

cow family

We have been building the Pride cow family since we acquired the 49Y female in 2015. She was originally a Bruhn Farms acquisition from the 2011 Hartman sale. This powerful, attractive Driver 706T daughter has put her own progeny back into the Hartman sale and also raised a \$19,500 daughter in her first crack under our program. Here is an opportunity to develop your own Pride cow family with 3 sire options - be sure to check out the impressive CDI Trustee progeny, a different genetic twist packed with power and presence!

Ms Yankee is one of the most productive and recognizable cows in the Red Angus breed and we acquired a share of her to incorporate into our SimAngus program. She is the dam of nearly 100 registered progeny in the Canadian Angus herdbook and produced the influential Red Blair's Bingo sire along with countless impressive daughters. Embryos from this matron have sold across North America to some of the top programs and her halfblood Simmental progeny are everything we planned with these matings. Stacking cow families is critical for producing consistent results and these Yankee females are combined with two of the greats - 202Z and 8543.

AJE/JF Ant Joy's Elegance

— cow family

AJE/JF Ant Joy's Elegance was Grand Champion Female at the NWSS Junior Show and she has gone on to be a great breeding piece. Joy's Elegance was strong footed, awesome udder and a picture perfect female that has produced high selling progeny and many show winners including the unbeaten RF Joy's Elegance 747E. This direct daughter by Vindication will breed on the style and presence of her popular dam and we feel she has a big time future ahead of her.

Keystone First Class 1Y

cow family

Keystone First Class 1Y is a female that simply doesn't miss and her specific flush to SooLine Motive 9016 is one of the most consistent flushes ever produced in Mercer, ND. Our 2018 NWSS Grand Champion Pen of SimAngus Heifers was anchored by the Motive x First Class 1Y mating and it has proven to work time and time again. 871F is sired by Structure, who has left an awesome group of maternal powerhouse females in our program and a bull we will be using more into the future.

First Class cow family

DW Eldorene 505R

— cow family

We acquired this gorgeous SimAngus female from the 2017 Werning sale where we were drawn to her body type and maternal look. This cow family backed by some of the most historically reliable Angus genetics and the udder quality is second to none. The Eldorenes are rock solid females with body, power, and look and the functional genetics to last for years.

Eldorene cow family

Haines Cow 19S

— cow family

You can see throughout this catalog how we have focused on cow families in building our program. We have always invested in the best of the breeds to integrate those most potent females into our herd over and over. Some of these families are in the development stage and there is huge opportunity to capitalize on what we have started here. We acquired the Peppa 110C female from the Griswold program as a heifer calf on the strength of her good looks and the Haines Cow 19S reputation. 19S has been a donor cow and has nearly 50 registered progeny in the ASA database. We all know when the High Regard females are good, they're flat awesome and Peppa 110C fits the bill and has been good looking her entire life. These young females have huge upside and offer tons of mating flexibility to today's most popular sires.

Miss Prickly Pear 705T

cow family

This very interesting pair of females originated from the Prickly Pear Simmentals program in Montana that is known for very sound, functional cattle that stand the test of time. The 994W matron is a 1/2 SimAngus that incorporates Traveler 004, EXT, and Hooks Shear Force up close in her pedigree - even without the picture you would know she is going to be good. Then look at her udder quality and overall body type! Her Profit Maker daughter is an attractive bred female with that awesome blaze and is an interesting genetic combination. These are reliable genetics for any breeder to invest in with confidence.

Shawnee Miss 770P

cow family

Here is another one of the most famous cow families in the Simmental breed and in both red and black blaze packages - opportunity is the first word that comes to mind. These females stem from Shawnee Miss 770P, the Goldmine daughter who was an absolute legendary beast filled with power, looks, udder quality, and most importantly - production! She is the dam of Uno Mas, Swagger, and countless impressive high selling and producing daughters. Missy U409 is one of the highlight daughters of 770P - a \$42,000 high seller herself and full sister to Uno Mas. Just look into these females in the ASA database and the number of registered progeny and familiar names - these are prolific females in a number of programs and working with a variety of sire options. Missy E3856 is stamped with the quality of this cow family and she is just a fall 2017 model bred back to the exciting new red sire SVS Bond 973G for a January calf. 9151G is her first calf, born right on the 24 month mark and is an attractive female that incorporates some neat genetics and more top females.

SVF Above & Beyond T87

cow family

The T87 donor cow is renowned across the breed for the valuable she has produced. Her top daughter is the \$140,000 Eternity by Broker who was the 2015 American Royal Champion Female for Miranda Raithel. Other daughters have commanded \$70,000, \$58,000, and \$10,000. We invested in this full sister to the Raithel female - T87 has worked to a number of different sires but Broker just works on her. Centricity is just a four year old female, she's a purebred, she's homozygous polled, and she has her whole productive life in front of her and one of the most recognizable and marketable pedigrees in the breed.

R&R Miss Cut Above Y127

— cow family

We have enjoyed working closely with the talented Hennessy family for years and their Cut Above (Fat Butt) daughter did a lot of showring winning for Shelby. Y127 is considered to be one of the best Fat Butt daughters in existence and most importantly she has been productive as in her first try she raised the AI sire FHEN Halftime who was acquired and promoted by Bloombergs. These Structure daughters are attractively balanced but practical and also bring in the Cobra genetics and Louise cow family. These are big time outcross genetics in purebred, homozygous polled packages.

TNT Miss W49

— cow family

We purchased a number of donors and strong production females from the influential TNT program as we go going in the Simmental breed and have always been impressed with the production capabilities of these cows. W49 herself was a Gunner * Dream On combination and we have built off her daughter 369A who has been a strong breeding piece for us and is in her prime. She incorporates the very prolific 902J female that the Wheatland program is built around. You can see the consistency in type and kind of females in this cow family and here is an opportunity to purchase the lead female and her two full sister daughters, all of which are homozygous polled.

Lazy H Chances Are W7

cow family

Chances Are W7 was a \$26,000 high selling Dream On daughter from the Lazy H program who was a multiple show winner. She stems from the Kate M821 donor that produced a lot of attractive show progeny and was a highlight of the Lazy H sales. We mated W7 with the immortal power sire TNT Tanker to produce the dam of these young full sisters, a 2 year old from the summer calving program and a bred heifer bred up to calve in mid March. The Husker mating with this cow family has combined the great Werning 534R production with the Tanker power and growth and the W7 phenotype into these intriguing youngsters.

Simmental Production Females

When building our program we always sourced the strength of cow families and invested in the best genetics that we could source throughout the continent. There are cows in the next 12 pages that are past donors and many that we are confident can be invested in to be your next donor to enhance the most progressive programs. We are proud of our program and would like to feature every single cow but spacing just isn't possible but pay attention here as many of our very elite fall into this next section with great breeding pieces. The black group will include standouts such as a \$17,000 high seller from the famous LaBatte program, Werning 531C who is SimAngus cow family we believe in, Nevas L93 produced countless high sellers for Spring Creek, Cheyenne 14U who has produced hundreds of thousands in revenue, OPPS WIS GM2 who is the dam of Dynamite Black plus many more. The red section is stacked with cow power with Miss C Jack Y123 feature females, one of the best red donors in the sale with Anything Goes, the 34X cow family from the good people at Deeg's who is the keeper kind, cornerstone cow families from our friends - the Maders such as the Agribition Champion 202S donor females cow family and the Blackgold/Sierra cow families, and don't overlook a sleeper like Lot 179 who is a maternal sister to a \$46,000 female to Braydon Thompson ... plus so many more. We are confident that the true cattleman that do their homework will find some true diamonds in the rough in this deep group of production females.

Soo Line Rose 1019

cow family

Rose 1019 is one of the most physically impressive and productive donor cows we have ever owned. She has been everything we dreamt of when we acquired her to anchor our SimAngus and Angus programs and she has worked to every sire of either breed that we have mated her to. It's no surprise as she is likely the top daughter of the great Motive 9016 and her dam, Rose 918, is widely considered the best daughter of Final Answer. 1019 is a dominant female that captures everyone's attention with her presence and power and her production results are impressive. She was the dam of 2/3 of our 2018 NWSS Champion Heifer pen and the entire 2020 NWSS heifer pen. The Rose accomplishments across our program, Brooking, and ZWT are extensive and here is your opportunity to enlist your own Rose.

2018 Grand Champion Pen of SimAngus Heifers - Lead & Anchor Female were Rose 1019 daughters

PE to S A V One Nation 9520 from March 25 - May 8 :: PE to Ellingson Aquifer 9137 from April 27 - June 23. Due January 2021

The Beauty cow family rose to prominence in the Soo Line program where TLA Beauty 5R raised the great Motive 9016 and sold in 2011 for \$45,000 to ZWT. She is now a featured donor at Coleman Angus. TLA Beauty 6R is her full sister who hit her stride after being acquired by Brooking Angus Ranch and has never looked back. She has been a foundation of the Brooking program and her influence is seen throughout their impressive herdsire and donor pens. We have invested in a few of highlight "best of the best" Beauty females over the years, initially the Bank Note daughter 6066 as a bred in 2017 and then 8187 by Natural Law the following year. These females have moved our Angus program forward and we are just starting to see their influence and it is impressive! The quality of the cow families integrated into the following females is simply staggering - Beauty, Rose, Annie K, Magnolia, Blackcap May - there is no way you can go wrong with these maternal genetics.

Blackcap May 6566

cow family

The Blackcap May cow family is known worldwide and is possibly the highest income cow family in the breed. Of course the most famous is SAV Blackcap May 4136 who is the dam of Resource, Renown, Pedigree, Sensation, Seedstock, President, Raindance, Rainfall, and so many more. We acquired her full sister, the 6566 female and have successfully mated her a number of ways which is no surprise when you build from a cow family like this and stack 004, 5175, and Right Time in her pedigree. The following genetic and physical gems allow you to continue what we have started with 6566 daughters by the best sires in the breed filled with quality, name recognition, and marketability.

SAV Blackcap May 4136 - full sib to 6566 with over \$10 million in progeny sales

SAV May 2397 - dam of 6566, 4th top income cow with nearly \$2 million in progeny sales

EA Blacklass 7600

cow family

The Ellingson program in the heart of North Dakota has bred some of the Angus breed's greats and the Blacklass cow family produced one of their top accomplishments to date, the \$70,000 Ellingson Roughrider 4202. In fact, the Blacklass 8914 matriarch is the dam of Roughrider and also the maternal granddam of 9208. 9208 is a unique genetic combination of the productive outcross sire Powerpoint with Capitalist 028 and the Blacklass cow family and she has a strong EPD profile. This female is impressive to look at with added width and fluency on the move and an overall productive, balanced look. Blacklass 8914, is still in production at Ellingson's at 12 years of age so you can rely on this cow family for production, longevity, and marketability.

Blacklass cow family

HF Echo 111Y

— cow family

The Echo cow family at Hamilton Farms has been a staple of Angus success for years and the 111Y female distinguished herself with the production of the 2018 Supreme Female over all breeds at Agribition, PM Echo 8'16. This is a huge accomplishment and we knew acquiring full sibling embryos would be a sound investment. The Natural Law females are absolutely stunning and get even better as they mature and have been dominant in the show ring as pairs. Rust Miss Echo 9553G is an impressive young female with shape, style, balance, and a reliable pedigree - she has all the bells and whistles and still offers worlds of mating flexibility.

ANGUS

Emblynette

cow family

The Emblynette cow family name is known around the world and has stood the test of time! It is interesting to go back through the years and generation upon generation of Emblynette females that have built up this powerful cow family. Emblynettes are always packed with power, production abilities, udder quality, and all functional Angus traits - there is a reason they are featured every year in the Schaff, Ellingson, Janssen programs and many more. Every Angus herd should have at least one Emblynette and here is your chance at four!

Madame Pride

cow family

If you have read this book front to back it is probably sounding quite redundant by now, but we do truly believe in these influential cow families and have stacked and acquired as many as possible in both breeds. We couldn't make that statement without having some Madame Pride females on the ranch. They have been the foundation of the Schaff Angus Valley cow herd and has produced such herdsires as the record selling \$1.51 million SAV America 8018 and \$235,000 SAV Supercharger 6813. The quality and earning capabilities of Madame Pride females are second to none and you can immediately put a household name in your herd.

Red Angus Introduction

5 Oaks Farm

Rust Mountain View Ranch has a long-standing tradition of producing elite Red Angus cattle. Individuals such as WSF MS Yankee 13T, ROJAS Navarre 6054, U2 Blue Collar 295E, DAMAR Trump C512, and TWG Tango 156D have called home to Mercer, North Dakota. The influence that the listed individuals have had on the breed is substantial, with the common denominator being emphasis on the maternal lineage that supports each and every individual that carries a RAAA number. Moving forward, a special sale guest will join forces with Rust Mountain View Ranch in order to continue to provide elite Red Angus genetics.

The Giffey family of Five Oaks Farm of Sparta, Tennessee will be providing a select group of Red Angus females for your appraisal on October 26, 2020. Travis, Gail, and their sons; Grady, Gavin, Gunnar Gage, and Grant Giffey have invested in the foundation of their Red Angus breeding program through several key purchases at Rust Mountain View Ranch. A hand-picked group of females that were born and developed in North Dakota at Rust Mountain View Ranch will sell. Five Oaks Farms will continue to participate in future marketing events in Mercer, North Dakota, supplying high quality Red Angus genetics to the loyal customer base that has come to rely on Rust Mountain View Ranch as their multi-breed seedstock source.

Firebrand is a hot sire that combines two of the best cow families at Brooking, Rose and Annie K. He was a \$95,000 highlight in Bank Note's first calf crop and he sired the \$53,500 calf at side of the female the swept the Canadian Supremes in 2019. Firebrand semen has been in demand worldwide and the results are evident.

Part of the historic mating of Charlo to the great 4136, Raindance was a \$450,000 selection by ST Genetics that has become their cornerstone sire and one of the top registration sires in the breed. The first Raindance daughters in production at SAV are some of the best females ever raised in that program.
