

RUST MOUNTAIN VIEW RANCH
MERCER, ND

production sale

MONDAY OCT. 25, 2021
AT THE RANCH - 1PM CT

Welcome from Rust Mountain View

On behalf of all of us at Rust Mountain View Ranch we'd like to say thank you for your interest in our program and would also like to thank our past buyers. Without our great customer base none of this would be possible!

This will be the last large group of natural calves to be offered for sale from the summer program that we dispersed last year. After this sale we will be completely an ET program sourcing the genetics from our roughly 20 donor cows. With that being said we have left open all the 2020 summer born heifers to allow you to breed them to a bull of your choice and if your program is fall calving this will fit perfectly for you. If you're a spring calving program you will be able to take advantage of the extra age of the females and also be able to pick the bull of your choice. Something new this year is ALL 2021 spring born calves will be broke to tie. We are currently working on this group to get them broke to lead as I write this letter. If this is something that interests you, we will have more information on each

heifer as we get closer to sale day.

Over the past several years we have heard from our customers on how nice it has been to turn full brothers into their cow herds. They have commented that their calves have come off the cow with more consistent weights and eye appeal in their females. With consistency comes added value for the customer and that is what we are trying to do for our customer each and every year, ADD VALUE. We believe that we will be doing our part as a registered breeder in adding value to our customers cow herd by making this transition all ET program. We have poured our hearts, soul, and extensive financial resources into accumulating this donor herd and we are extremely proud of it!

We are so honored to say we are part of the cattle industry. Each year there are new challenges and opportunities which makes this industry so exciting and rewarding! There is nothing that is more rewarding than overcoming challenges and seeing the end result of years of hard work come to fruition! We have truly

enjoyed watching these heifers evolve into the genetic gems that you imagined and hoped they would be when you first planned the flush! As always it continues to be our utmost passion to bring the greatest cattle possible to our customer base with your needs in mind first and foremost! Buy with confidence at this year's sale because these heifers come from 10 plus years of embryo transfer and their mothers were the backbone of our program!

Like always if you have any questions about the catalog, or our new philosophies of an extensive ET program please don't hesitate to give us a call. We enjoy the conversations and look forward to them each and every year. If you're ever in the area we'd love to have a visit and show you around the ranch. The coffee's always on!

Thank you again for your interest in our program!

PRODUCTION SALE**

Welcome from Bohrson

Rust Mountain View Ranch is committed to raising the very best cattle and do so with family values at the very forefront of their priorities. This family operation is salt of the earth and truly the type of people you want to work with. They always stand behind their product to the fullest ability and want the very best for their customers which allows you to invest with confidence in this program. Their loyalty and dedication to acquire and raise leading stock so their customers can access the very best genetics in the business is to be commended. You can be sure to join us all on sale day to access awesome genetics and even better people behind them that are a pleasure to do business with.

The Rust family has always been committed to producing the very best for you, the valued customer. The cow families in this book are flat out awesome and extremely exciting from start to finish. They represent the very best in each respected breed and the Rust family has invested large resources into assembling the best of the best. Predictability and marketability are deep in the offering and whether it is Simmental, Angus or Charolais that you seek, the Rust family has an offering that is to be commended. When one talks about the very best and most famous cows in each respected breed, they have done a great job here in assembling those genetics to escalate their program.

You can step into this offering and boast your program forward as they have good looking cattle out of the best cows in the world and still conscious of strong data numbers to sell alongside. They check off all the boxes and watch the fine details closely in order to take the guesswork out of your next purchase. We encourage you to join us on sale day in Mercer, ND but if you can't make it due to your busy schedule, feel free to reach out to any of the sales staff to represent you in a professional manner. We look forward to seeing you come sale day for an awesome line-up of sale cattle backed by some of the best people in the business.

Best regards,

Scott Bohrson

Welcome from Innovation

Welcome to Mercer, North Dakota, home of Rust Mountain View Ranch; one of the premier multi-breed seedstock providers in the country. While parts of the country have been blessed with above average moisture, we are certainly aware of the struggles that the Northcentral and Northwestern states have been faced with over the past year. Farmers and ranchers are not the type of people to call it quits. The saying holds true, "tough times never last, tough people do." The industry has seen tremendous demand the past 90 days, as cow-calf producers have been rewarded through the marketing of their feeder cattle selling for record prices from coast to coast and border to border this summer and early fall.

A year ago, the Rust family made a strategic and certainly difficult business decision that that led them to a mature cowherd dispersal. The "elite of the elite" were offered and have been put to work in top programs across North America. The forethought and vision to convert the program to predominantly embryo transfer calves will increase the uniformity and quality of their program more aggressively certainly comes with a cost, however the Rust family is fully committed to providing a product that will positively impact their customer's bottomline.

The largest number of ET calves born in the history of Rust Mountain View Ranch came in 2021. W/C Angel 2870Z, RF Certainly Flirtin 202Z, Bailey's MS Dreamy Miss Werning KP 8543U 946W, RF Scream 215Z, Brooking Beauty 333, Soo Line Rose 1019, SAV Emblynette 1786, and many more influential females of significance within the industry have expedited the process of genetic progression at RMVR. The expansion of the ET program has allowed for more full brothers and half-brothers to be offered in both the February and May bull sales in Mercer.

The fundamentals will always remain first, and the cattle that call Rust Mountain View Ranch home are required to work for a living if they plan on an extended tenure. The cattle that carry the RMVR prefix have earned this privilege based on their quality and functionality. The same strict culling tactics and selection pressure has been emphasized as the Rust family turns the page to the next chapter of their program.

Consider this your personal invitation to make a long weekend of it and join us in beautiful Mercer, North Dakota for a talented multi-breed offering that is sure to impress! The offering will be convenient to view any time prior to the sale and we encourage you to come see this set of females for yourself; they're worth the trip! If you have questions about this offering, please do not hesitate to reach out to any of the Rust Family or sale staff prior to the sale to discuss the offering.

Enjoy the cattle,

Graham Blagg

Kicking off this years fall female sale is a trio of royally bred sweethearts that represent the very best of our program and the best genetics in the Simmental & Angus breeds. Their sire, Fort Knox is the exciting 2019 \$180,000 high seller at the Werning Sale that has quickly become one of the most exciting breeding pieces to enter the breed. Their dam, Night Rose 903G is a leading donor that represents the 8543U cow family on the top side and the illustrious Rose cow family on the bottom side. We are proud of this flush and confident they'll make a positive impact for the successful buyers for decades into the future.

A sale feature here with a standout female out of the famous 404B donor female that has made such a positive impact on our program. The dam, 115F is a beauty of a donor female that is catching her stride as a major donor female that excels in udder quality, foot strength and structural soundness. When mated with our herd sire, Profit Maker it was a genetic explosion and this homo polled female is bred for profitability.

404B is a true great one and a female that has had a lasting impression on our program as she simply doesn't miss. She started her career by being successfully shown as a Supreme Champion Female at Edmonton FarmFair and Agribition along side her dam and has never looked back as she entered production. She is as consistent and high quality of a producer as we have utilized and her daughter here, 031H is an impressive female that deserves to make your short list.
