CF Sugar Britches,
paternal grand sire
of Lots 1 & 4.

Southern
Farrah
0100, dam

If your serious about raising solid functional beefmaster cattle and in the hunt for the next herd-sire prospect, look no further! This Sugar Britches grandson is the complete package. When studying 488 the first thing to hit you is his raw power, massive foot, but yet so smooth in his design and he can flat out move. 488 is backed by a solid well known cow family that is genetically predictable. If your making bulls to sell, producing heifers to retain, or making top end show prospects 488 has all the bases covered. Be sure to study this guy!

Commercial men and seedstock producers alike should have 413 at the top of the list. Here is a baldy son of The Lady's Man that should be a female maker. This guy is massive bellied, good shoulder, and real sound in his structure, you will be able to keep this guy around for years to come not to mention how easy keeping he is.

Herd Sire Prospect

THANK YOU to Far Reach Ranch, Bert Tucker, in Kenansville, FL for purchasing this bull before the sale!

This purebred Beefmaster bull is bred to be a great one! Take a look at his sire and dam and you will see why he is so good. He is massive in terms of pounds, performance and over all weight. This bull is excellent in his structure and proudly represents the premier Beefmaster genetics that Southern Cattle Company has been known for producing over the years.

Don't over-look 438 just because he is the last lot of beefmaster bulls. This Ladys Man son is powerful in his design, stout from the ground up, and has a lot of flex in his joints. He is one of the biggest footed bulls in the offering and comes from a proven cow family.

Switching gears to a few full brothers, and what away to start off the red Brangus division. C2 has been a stand out since day one and seems to keep getting better every day! The guy should make those females that will make your mouth water and all your neighbors will want to buy! 157C2 is the best made bull of the three brothers that just puts all the right pieces together!

LSF Nextpectation sure did the job to make these first generation red Brangus. 157C is a moderate, excellent on his feet and legs that should work in a registered or commercial program. Don't let a few stripes scare you he is a good as any red Brangus that walks.
