Ultra Elite

ONLINE SALE

Show Me Wagyu Partners would like to sincerely thank all of you for your support and interest in our Akaushi genetics and programs.

It is so exciting to watch this amazing Akaushi breed that we are all so passionate about growing so fast! Whatever it is that you enjoy the most, from F1's production and the feed lot, to full blood breeding stock and everything in between ... this breed is GROWING and we are so and proud to be able to be a part of it!

Our vision at Show Me Wagyu Partners is to create the Ultimate in elite breeding stock while keeping the focus on carcass traits.

Our donors represent some of the very finest in original import genetics and elite mating while keeping with this vision.

The lots listed on this sale are out of some of our top donors and are an excellent representation of what we have worked so hard to achieve.

We truly hope that you enjoy this offering and wish each and everyone of you all the best that this amazing breed has to offer!

TERMS & CONDITIONS ...

REGISTRATIONS, TRANSFERS AND EMBRYO TRANSFERS //

Within 60 days of the date of the sale, the cattle sold will be transferred (registrations) to the new owners through the offices of the American Akaushi Association. The fee is paid for by the seller. Genetics are available to register with the American Wagyu Association. (excluding lots 17, 18 & 22).

PAYMENT //

All lots must be paid for immediately following the conclusion of the Show Me Wagyu Partners “Ultra-Elite” Online Sale, unless prior payment arrangements have been made with any representative of Wagyu365. Buyers are welcome to pay by credit card. If so, you will be charged a 3% fee on the total sum of your purchase.

DELIVERY //

Buyers are responsible for any shipping cost pertaining to embryo or semen purchases, or trucking of live animals. Wagyu365 buyers and Show Me Wagyu will work together to make this the easiest and most efficient process possible.

LIVESTOCK MORTALITY INSURANCE //

Any representative of the Wagyu365 team can assist any buyer with insurance regarding their purchases.

MANAGEMENT //

Auction money and proceeds will be conducted under
Randall O. Ratliff, DBA R & R Marketing, P.O. Box 60097, Nashville, TN 37206

Dear Akaushi Enthusiasts,

It is an honor to be working closely with Show Me Wagyu Partners in the marketing of some of their finest genetics they have ever created. The genetics you find throughout this sale catalog are from the heart of the Show Me herd and we are proud to showcase them to the public in this online sales event. The SMW program was built with only the "finest genetics" and has continued to excel in the creation of the very finest that the breed has to offer. The sale features the new and fresh genetics packages from the heart of the "Show Me" embryo transplant program and semen from their elite and proven sires. If there are any questions in the sale please let any of us with the W365 team know and we will get right back with you.

Sincerely,

Randall O. Ratliff

Genetics are able to be registered with the AWA.

Here is an ultra-rare direct daughter of Rueshaw! Rueshaw is one of the original import sires from 1976, his semen is extremely rare and when available sells for \$8,000+ per straw. Behind this we find Big Al, who is known as one of the best all round Akaushi sires ever. He brings a balance of growth, maternals, and marbling. This is all stacked on one of the premier cow families in Akaushi, the Kaedemaru maternal line. This family has produced some of the most popular sires in the breed including WSI Umemaru, SOR Hastings, SOR Mr Hiromitsu, and LAG Mr Honjo Masamune. Don't miss this standout female, she is one to take home and build a program around!

Many breeders continually look for chances to bring Hikari and Rueshaw into their breeding programs and this is a perfect opportunity to do that. This embryo lot puts the highly proven Hikari over top of the extremely desirable Akiko maternal line. It really doesn't get any better than this! The dam is sired by the Akiko son, Big Al, further intensifying the Akiko influence in these embryos. The next dam in the maternal line is Rueshaw daughter 2633A and she is a full sister to Brady! She is commonly known as the "Z Cow". The next sire back is Rueshaw again, completing successive matings of Rueshaw on top of the incredible Akiko cow herself. This lot offers the total package - powerful genetics, elite pedigree, and household name-branding!

KAEDEMARU

Take a look at this lot! Seldom seen is the opportunity to purchase Rueshaw sired embryos. Take advantage of this chance to obtain embryos not only sired by Rueshaw but, mated to the Big Al daughter, LAG 1100. The pedigree continues to build extreme value through the maternal grandsire, Tamamaru, and then the matriarch of this elite maternal line, Kaedemaru. This could well be one of those once in a lifetime investment opportunities that will be the foundation of an incredible breeding program.

This sire, Heartbrand H0518E, is a son of Hikari from the original import cow Marunami. These embryos provide an excellent and ultra-rare opportunity to invest in his genetics. Combine H0518E with this donor dam, 121G, and you have a tremendous investment opportunity to acquire genetics that are difficult to find. The donor, 121G, is a Big AI daughter that traces back to the JVP standouts Kuniiso and Kunisakae through the highly proven bulls, Rueshaw and WSI Umemaru. This lot provides a smart investment package.

KALANGA KAJIYUKO

Dos Equis is a young, homozygous polled bull sired by King David that took the breed by storm last year with his enormous selling price. He is a household name now! Here is an opportunity to invest in genetics sired by Dos Equis. The dam of these embryos descends from the Fuyuko maternal line, making her a bit different than the typical pedigree. Her pedigree is built on Rueshamaru x Red Emperor x Kalanga Kajikari x Shigemaru x Tamamaru. Imagine the opportunities that these embryos will provide. Don't miss out on this lot.

Hikari is one of the sires whose name is instantly recognizable in the Akaushi breed. He contributes his outstanding genetics to these embryos which trace through the donor dam to the Akaushi matron, Kaedemaru. The donor dam boasts a highly reliable and respected sire stack of Brady, Big Al, and then Tamamaru. This pedigree will spell confidence to any breeder. Hikari on Kaedemaru genetics will be a winning combination in any herd.

KAEDEMARU

Brady is the sire of this embryo lot. He is proving to be a popular sire, and rightfully so. He is well known for his combination of double Rueshaw breeding on top of the legendary breed matron, Akiko. The embryo donor, LAG 1100, is a daughter of Big Al, which brings in another cross of Akiko bloodlines! LAG 1100 is a maternal granddaughter of Kaedemaru, with her maternal grand-sire being Tamamaru. Resulting calves will be full siblings to Lot 9. There is tremendous genetic value in this lot.

RUESHAW 430
KAEDEMARU 2
RUESHAW 430
JC MS HAKARI 40

This embryo package will attract a lot of attention, simply because the sire is the Akaushi immortal, Big Al. The donor dam, Runami 089E, stems from the JVP import program. Her great-granddam is Homare J 30E, a very well-known and highly breed –impacting daughter of the original Wagyu import sire, Judo. This maternal line has produced some amazing cattle and will continue to do so with the genetics in these embryos. The sire of this donor dam, Rueshamaru, is a Rueshaw son and maternal grandson of the legendary Kaedemaru. These embryos provide some unique genetics combining Kaedemaru and Homare on the maternal side.

HIKARI
KAEDEMARU
TAMAMARU
KAEDEMARU

This embryo package offers an exceptional genetic opportunity. The sire of the embryos, Mr Rueshaw, is a Rueshaw son of the standout Big Al daughter, Brook B0445N who in turn is out of the famed Ringo, who is a Namimaru daughter of Marunami! The donor dam, C1088C, is a powerful genetic rarity. She is a double bred Kaedemaru, the result of mating WSI Umamaru to his maternal sister, Kaedemaru 2. C1099C is a full sister to Hiromitsu! Wow! This genetic combination opens the door to many breeding options.
