If you need any assistance with your purchases or want to discuss the genetics selling then please feel free to contact R & R Marketing Company. As a paid marketing agent for the consignors we take pride in the opportunity to work closely with each and every consignor. We can assist you with your phone order and/or handle your bid in the most confidential manner. Email, call or text and we will be more than happy to assist.

Funding for this Limousin Beef Agribition Sale is provided by ... The Tennessee agricultural Enhancement Program and the Tennessee Department of Agriculture and www.picktnproducts.org

SALE HEADQUARTERS - Holiday Inn Express, 615.994.3225
826 S Cumberland Street, Lebanon, TN 37087

TRUCKING - Will be available on site to haul any purchases out the day of the sale. To make prior arrangements feel free to call R & R Marketing Company at 615.330.2735 and we will make your buying easy and accommodating.

ANNOUNCEMENTS - Announcements at the sale by the owners, auctioneer or sale management will take precedence over statements in the sale catalog.

SALE ORDER AND SUPPLEMENTAL INFORMATION - Sale order will be posted Friday, March 11th at www.RRMktg.com

TERMS AND CONDITIONS - Terms of the sale are cash unless satisfactory credit arrangements have been made prior to the sale. A representative will be on hand sale day if your wishes are to insure your purchases. Please note: The sale manager is only an agent for the seller and has no responsibility other than those involved in conducting the sale. All persons who attend the sale do so at their own risk. Neither the sale manager nor the consignors assume liability, legal or otherwise for any accidents which may occur.

PAYMENT - Cattle must be paid for at the time of the sale unless prior arrangements are made with sale management at 615.330.2735.

OFFERING 30 LIMOUSIN & LIM-FLEX LOTS

- 3 Bulls
- 10 Bred Heifers
- 8 Open Heifers

Tennessee Beef Agribition Junior
Heifer & Steer Show
Sunday - March 13, 2016 - 9:00 a.m. CDT

An open to the world junior heifer and steer show will be held in conjunction with the twenty-eighth Annual Tennessee Beef Agribition. The Agribition is held at the James E. Ward Agricultural Center in Lebanon, Tennessee. The junior show will start with steers followed by heifers. Two rings of heifers will show at the same time, and breeds will not be rotated.

The rules for the event are as follows:

- Breed association rules for junior shows will apply to each respective breed.
- No pre-entry is required. Entry forms will be available Friday and Saturday.
- Due to limited parking facilities, all trailers must be parked in the designated parking area. On Saturday, Junior cattle will be allowed in the stalls when sales are completed and sale cattle are removed.
- All junior cattle should be on the grounds and processed by 5:00 p.m. on Saturday, March 12th. Heifers and steers will be processed Saturday from 2:00 until 5:00 p.m. CST. All heifers purchased from late afternoon sales should be entered ASAP.
- ** There will be a \$20 per head entry fee at the 2016 event. ** All classes will be placed through fifth place, and premiums will be paid for 1st - 5th. The top five heifers and top five steers will pay \$300, \$200, \$150, \$100 and \$50.
- Heifer and steer breed shows will be available for the following breeds: Angus, Charolais, Gelbvieh, Hereford/Polled Hereford, Limousin, Shorthorn and Simmental. Breed rotation will be Z to A (Angus, Charolais... will show last). Any breed having a sale will qualify to have a junior breed show.
- All other breeds (AOB), including commercial heifers and cross-bred steers will compete in AOB classes. AOB heifers will show by weight.
- Heifers eligible to show must be born on or after September 1, 2014. Heifer classes will be based on the futurity system and will be determined after all entries are made. Steers will show by breed with classes determined by weight.
- Heifers (born on or after 09/01/14) purchased in any of the Agribition sales will be eligible to compete in the Junior Show. **Check the respective breed catalog to see if percentage cattle show as AOB.**

This is the absolute finest bull ever created in the small, yet exclusive breeding program of Jeff and Kaye Kaufman at Agri-Exposure, LLC. Upon visual appraisal, he is superb and excels in muscle and volume. His rib and hip are exceptional and certainly make you a fan at first glance. His dam is the \$43,000 valued TGBC Swizzle who is working in the CMC Program in GA. She comes from the same cow family that produced TGBC Swizzle and MAGS Manda, the maternal granddam of EBFL Ypsilanti. Anyone who has seen "Chairman" in person says his phenotypic strengths are the same as those of his National Champion sire, EF Xcessive Force. AGRI Chairman will have GEPD's by sale day and sellers are willing to discuss continuing to show him at buyer's expense. BW: 74 lbs.; WW: 720 lbs.

Throughout 2015 TMCK LaVeda and her bull calf, KJAW Yaxis 001C, on side were a force to be reckoned with in both the open and junior shows across the country. They were reserve champion cow-calf at the Southeast Summer Classic MOE show and Champion Pair at the World Beef Expo and then went on to be Junior National Reserve Champion Cow-Calf pair in Tulsa, Much of the success was attributed to his dam's perfectly designed, functional udder and his tremendous performance. Individually, he won his division several times and at World Beef Expo he walked in the ring on the side of the cow weighing 929 lbs. Yearling Weight available at sale time. Maternally speaking he is from the same family that produced many time champion TMCK Architect and he is sired the now syndicated MAGS Yaxis, who is not available on the public market. Study the numbers on this bull, one of the complete to sell in the entire breed this year. BW: 74 lbs.; WW: 890 lbs.; YW: 1,310 lbs.

Solid is either de ned as being "rm and stable" or can be meant to be "dependable and reliable," with that in mind what better word can be used to describe your future herd sire? ELCX Axle 364A is as solid as they come from the ground up; comes from solid genetic background and from one of the most solid breeding programs in the country. His sire, MAGS Xyloid will go down in history as one of the most consistent producers of phenotypically superior cattle and his maternal granddam, MAGS Lady Ace is one of the all-time top producers of production type cattle in the Magness program. From a performance stand point, ELCX Axle is bred for pro t and ranks in the top 20% for \$MTI and top 15% for MB. BW: 72 lbs.; Adj. WW: 720 lbs.

A.I. 11.23.15 to MAGS Aviator 373A; P.E. 12.09.15 to 02.25.16 to RVF Arsenal 179A

This flush was highly productive for Riverside Valley Farm, several high quality replacements flush-mates to RVF Bernadette 676B ET have been retained and are destined to enter their embryo program. AUTO Pure Black 245Y has been a tremendous addition to the Riverside Valley system, her calves are particularly maternal looking, and so very easy to mate on paper. She is on-target to be a stand out donor for us in the years to come. "Bernadette" is a homozygous black / homozygous polled and has a nice blending on a .64 REA and .09 MB EPD's and is sired by the \$120,000 valued EBFL Ypsilanti.

Due for a fall calf sired by Eathington Sub-Zero (AAA 17379591 Angus).

Straight from the heart of Julia Weaber's breeding program, is this class winner from the National Junior Show in Tulsa. It was a hard decision to let go of this ultra complete female who ties together phenotype, pedigree and performance. Her dam and granddam were both successfully campaigned by Julia on a regional and national basis. Be sure to critique the EPD profile on this prestigious female, she excels in every trait for calving ease, growth, maternal and carcass traits, just like her dam and her syndicated sire, MAGS Y-Axis who is going making his way into the hearts of many Limousin producers who like to sleep at night during calving season and deposit big checks come sale time. Homozygous polled / homozygous black.

Consigned by Agri-Exposure / Julia Weaber, Harrodsburg, KY

Many Limousin enthusiasts would count down the days until the Etherton Farms Sale catalog would come in the mail and see what was being offered that year, especially the front end of the catalog. That is just where the dam of this female was highlighted, EF Zowie was a breathtaking heifer and has turned into such a maternal looking cow. Owen Cattle Company has made the difficult decision to sell this homozygous polled / homozygous black granddaughter of Sennett Whisper and EF Xcessive Force.

Six months safe bred to Blackjacks 7229 255 (Purebred Angus Consensus son)

Here is Red female who is due late spring and you will earn a return on by the end of the year when she weans her Lim-Flex calf. 309A traces back to the famed Cookie cow family which is can be found on the foundation level of many top breeding programs. Upon analyzing this Liberty Ranch bred female's data, you will find that she is in the top 10% of the breed for FT and YG epd and the top 20% for REA EPD.

Six months safe bred to Blackjacks 7229 255 (Purebred Angus Consensus son)

Owen Cattle Co. has brought us a quality set of Red females, all of which will make such a nice addition to any herd. RAGF 25 Xempo is a granddaughter of past national champion EF Main Stay 541M out of a WULFS Nobel Prize daughter. This exceptional red female is young and has many productive years ahead of her, she also posts a MK that lands her in top 15% of the breed.

A.I. 12.01.15 to RLBH Air Force One; P.E. 12.09.15 to 1.30.16 to ELCX Balancer 170Z

A proven daughter of the Demar Farms donor SBLX University Girls 105U, their top selection out of the Jepson dispersal. Sired by the growth trait specialist, MAGS Wazowski, "University Girl 48Z" has a stellar 120 YW epd and there is no doubt in our mind that growth and performance alone is going to propel this female to the top of any herd that she goes into. Her potential for profitability as a herd sire maker is unlimited with the growth, marbling and SMTI data that she possesses, clearly a formula for success. She currently has a 71 SMTI which ranks her about 97% of her peers.

Sells seven months bred to ELCX Remington 270Z

Homozygous Polled, Red, Purebred females are hard to come by and are in high demand. The potential for return on your investment in "Future Idol" looks very promising. Being she is a daughter of AUTO American Idol, out of a JCL Lodestar granddaughter 558Y should be a top producer and she is just four years old and is in the cusp of entering her most profitable years.

Just a September calf, this exceptional female is bred for success, just look at her maternal sister who is al being generously offered in this year's sale by Owen Cattle Co. Sired by SBLX Yinnie, who is an SAV Providence out of the ELWM Ginnie P58G who is the dam of Carrousel's Peaches and Carrousel's Pina Colada and the grand dam of many of the elite cattle that are offered annual by our friends at Pinegar Limousin. If you are in the market for a young, halter-broke heifer for a Junior to show in Lexington this summer, this may just be your answer.

The Schillings Wallace progeny have been very well received across the country and successful in the showing. Triple Creek Lady is a paternal sister to the 2013 Reserve Grand Champion Female at Jr. Nationals as well as the Grand Champion Female at the 2013 Louisville Jr. Show. Paul Steelman has worked diligently under the tutelage of several of the elite breeders in the country to build his breeding program, "Lady" is a prime example of what he is accomplishing as his Junior career is coming to an end.

When we first heard that Kelley and Holly Owen were offering this heifer for the sale, we couldn't believe they would want to part with the very first natural heifer of ELCX Anastasia 323A. "Anastasia" was a successful show heifer for Edwards Land & Cattle who had many admirers in her day. She is a maternal granddaughter of TMCK Balancer, who has made some impressive females in his own right. Needless to say, we are thrilled the Owens family is very dedicated to this event and the Limousin breed in TN and were willing to put their best foot forward when we called looking for lots.

This exceptional Red heifer by our balanced trait LH Uhaul son, BDHC Ironman is sure to turn heads. Just an April baby, she already has that promising look and shape that we all appreciate. She carries exceptional strength in the calving ease department posting double digit figures for CED, a negative BW EPD and is in the top 15% of the breed for CEM. This Red Angus influenced Lim-Flex female could easily be classified as necessary piece in a breeding scenario that is focused on producing herd sires.

Selling half interest with the option to double up and take all

Cameron Bryant and Freebird Farms successfully showed this female through the fall circuit and she was a truly standout heifer. Her pedigree is quite intriguing, she is sired by MAGS Xyloid, who is one of the very ultimate show sires in recent years and then maternally she goes back to AMBL Luvly 340Y. "340Y" is the original Luvly female that was bred by the late Floyd McGowan. "Princess Kate" has a tremendous disposition, is nicely balanced and extremely eye appealing.

PBRS Ironside has produced several prestigious females for Riverside Valley Farm, who will go on to make exceptional brood cows and we suspect will have fertility and significant calving ease working to their advantage. RVF Cadence 713C is black a and polled phenotypically and will sell halter-broke and ready to breed. "Cadence" should offer you some flexibility come sire selection time, since she is a 68% Lim-Flex and calculates a 1.1 BW and 100 YW epd.

RVF Clarabella 709C is a direct daughter of Riverside Valley's retired show bull who has transitioned so nicely into a breeding bull MAGS Yu The Man. When he was being campaigned in the show ring he was a Division contender in Denver and was slapped champion bull at the Tennessee State Fair. Her carcass EPD's are particularly attractive, she is balanced in both quality grade and yield grade driven columns.

SKLS is an absolutely beautiful 78% Lim-Flex female bred in the Logan Hills program. She is a special daughter of EXLR Wilma 711U out the Heldermon bred donor who highlighted the Tubmill Creek/Greenbrier Cattle Company donor line up, PERF BP LS 554R. 554R progeny are starting to make their mark on programs across the country and will definitely be apparent as sires and dams in many upcoming sales in elite programs. This double polled, double black rock star of a replacement heifer is balanced across the board from CED through YW. In terms of carcass traits she is impressively above breed average for CW, REA and MB as well as \$MTI.
