

Beef is our Business

Wulf Cattle

Video Only

**OPPORTUNITY
SALE *of* 2016**

Friday, April 1, 2016 ■ 12 Noon

At the farm near Morris, Minnesota

Lunch at 11 a.m.

PLEASE NOTE:

ONLY pictured cattle will be on display sale day at the sale location. Plan to join us March 8th and 9th at Sandy Ridge for the open house and display of the entire sale offering.

SALE ACCOMMODATIONS IN MORRIS:

Grand Stay • (320) 585-4000

Hotel 200 (Formerly Prairie Inn) (320) 589-3030

Super 8 • (320) 589-8888

We hope you can join us sale day. However, we know there will be some scheduling conflicts and distance limitations. In these cases, we have arranged for you to be able to participate in the sale on an absentee basis.

If possible, you can come by and evaluate the animals prior to sale day. If distance is a problem, we can also provide you with a DVD of all the cattle for home viewing. All of the lots in the sale will be available for viewing online prior to sale day at Superior Livestock as well.

Customers tell us that the video does a good job of showing conformation, structural correctness, and how the cattle travel, Etc. Our sale book, with complete data on each animal, is very helpful. Please feel free to call us with questions.

HERE'S HOW IT WORKS

Please call Superior Productions at 800-431-4452 and pre-register for your buyer's number. A registration form needs to be filled out and returned to Superior Productions with a

signature. This registration form is also available on the website at www.SuperiorLivestock.com under the Register for a Buyer Number/Superior Productions tab where it can be printed, completed and either faxed or mailed in. Upon receipt of this information Superior will call you with a buyer's number and the bid line number that you will use on sale day to place bids over the phone.

The sale will be broadcast on the internet at www.SuperiorLivestock.com. Simply go to the website and in the brown Production Auctions box on the Home page, click on the Wulf sale link. From there, users can view the Wulf video catalog and also bid online, provided they have registered. Regardless of internet connection, you will be able to view and listen to the same video feed as seen on the satellite. The bidding process is the same—follow the auction on the internet and call the bid line number to place your bids. Your computer must have Flash Media Player installed to view the auction.

Bidders making purchases via internet at www.SuperiorClickToBid.com will be contacted by the ranch after the sale to settle payment and shipping arrangements.

A Note From Northwest Veterinary & Supply

The Northwest Veterinary & Supply "Cattle Team" is excited to welcome everyone to the 2016 Wulf Cattle Opportunity Sale. We are very happy to once again be a part of the animal health preparation that goes into an event of this magnitude and proud to be associated with a progressive and passionate beef cattle program.

Several days were spent at the facilities on Sandy Ridge performing breeding soundness exams which included evaluation of semen motility and morphology, scrotal measurements, hip heights, and visual examination of hoof and leg conformation. To reduce stress and times through the chute, yearling bulls were also carcass ultrasounded by CUP Lab certified tech and "Cattle Team" member Jeff Schoenfelder at the time of the breeding exam.

All sale animals have received vaccinations for IBR, BVD, PI3, BRSV, Lepto, Vibrio, Clostridial diseases and poured to control external and internal parasites. In addition, heifers have also received their Brucellosis vaccination. Magnets are given for the prevention of hardware disease. Casey actually holds the record of giving over 400 magnets with one plastic balling gun, that deserves a round of applause by itself! Wulf Cattle tests all breeding stock for John's Disease and has a zero tolerance for test positives. These animals and their offspring are removed from their breeding herd to insure the future health of your herd.

We will be available on the day of sale to answer any of your questions and I can always be reached on my cell (605) 481-2920 or email: nwvet@santel.net. Official health papers will be written the day of the sale and if any additional tests are needed we can arrange to have those performed in a timely manner. In good practice, we do encourage a 3 week quarantine period before contact with your herd to allow them to get over the high risk time after the stress of transportation and to work with your local veterinarian to prepare your bull for breeding by repeating a fertility test prior to pasture turn out.

We applaud you on your purchase from Wulf Cattle and we look forward to assisting you with your commitment to improve your herd in any way we can.

Dr. Erik Holum & The Northwest Veterinary "Cattle Team"

Call Superior Productions at 800-431-4452 and pre-register for your buyer's number.

DVAuction
Broadcasting Real-Time Auctions

Watch & bid online for FREE at DV Auction

Can't make the sale? Bid from home with DV Auction's "real-time" internet bidding service!

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab.
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction—a DV representative will notify you once you have been approved.
3. Tune in for the sale and make your purchases! After the sale, contact the sale manager or owner to arrange transportation and payment. High speed internet is required for successful bidding—be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding—if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

www.AmericanCattleServices.com

Dear Beef Producers,

One thing that's always been consistent at Wulf Cattle is the fact that, as progressive beef producers, change is embraced. Some see change as a negative. Wulf Cattle sees change as a problem waiting to be solved or a challenge to be met, but never is the need for change ignored.

From creating a pull-through market to enhance the value of Limousin genetics to adding value to a dairy bull calf, historically viewed as of no value, Wulf Cattle has met a challenge and created an exciting value-added market. In addition, they have convinced the major semen suppliers in the dairy industry to partner with them and grow the market.

Acquiring feedyards and expanding capacity has created extraordinary opportunity for Wulf Cattle customers to be directly connected to the next segment of the supply chain. By supplying Wulf Cattle with high valued feeder calves, the information data stream, seen almost in real time, is critical to moving any operation forward. Even more valuable is direct access to the Wulf Cattle team to assist in making genetic decisions.

As you all know by now, the 2016 sale is a video only auction. Obviously, this is a significant change for Wulf Cattle as well as the entire sales team. Only the cattle pictured in the sale catalog will be on display at the Morris location. However, all cattle were available at Sandy Ridge during an open house held March 8th and 9th.

One of the early adapters of feed efficiency data, Wulf Cattle continues to apply selection pressure to improve efficiency as well as all other traits of economic importance.

The 2016 sale offering is one of the best ever presented by Wulf Cattle. The impact of decades of experience as seedstock producers and cattle feeders, the influence of carcass and genomic information and downright unshakeable business savvy sets this operation apart.

As always, it is our pleasure to work with the entire Wulf Cattle team. This operation isn't simply a seedstock supplier. Wulf Cattle wants to become your partner in adding value and increasing profitability in your operation.

If any of us at American Cattle Services can be of any assistance, please do not hesitate to give us a call.

Sincerely,
Ken Holloway

Cattle Friends,

Once again, it is my pleasure to welcome you to the Wulf Cattle Opportunity Sale. This year marks the 28th annual event and it promises to be a landmark event. We are excited to introduce our innovative new sale format and think it will be beneficial to our operation, you, the buyer and most importantly, the cattle. By bringing only a select group to Morris, Minn. for the sale, the rest of the bulls will be allowed to remain content and comfortable where they were raised and developed at Sandy Ridge Ranch near Atkinson, Neb. They will be available there for viewing any time prior to the sale. The bulls which we will have on display sale day will be representative members of each group. We will have high quality videos of those and each of the other lots that depict them accurately. As always, if you purchase an animal from Wulf Cattle which you are not satisfied with, the animal will be returned for a suitable replacement or sale credit.

This year's offering is larger, deeper and higher quality than ever. We had an excellent growing season which transmitted to heavy weaning calves. These herdsire prospects represent some of our newest, most progressive genetics. They are diverse enough to meet your program's needs, whether you need a terminal cross bull to add pounds and muscle, a multi-trait balanced bull or a maternally oriented bull to build your herd for the future. The group of females selling are the type and kind to build a herd around.

If I can be of any assistance or if you would like to view the offering prior to the sale, please give me a call.

Respectfully,

Casey Fanta
Seedstock Manager

Genetic Consultation

Dear Friends & Fellow Cattlemen,

It was almost impossible to have a conversation between cattle people the last six months without hearing the questions: What happened to our market? Where do you think it is going from here? Our beef industry has been dealt plenty in 2015: a weak dollar (disrupting trade), cheap feed (which created the incentive to make cattle big and fat), and large supplies of pork and chicken (competing for the protein market). It's rough rides like these that help us at Wulf Cattle really appreciate our value added model. Having access to high quality feeder cattle, supplied by all of you that leverage our genetics, is what helps smooth out the bumps, hang in there, and stay the course.

The longer we are in the business, with opportunities we have had to grow our numbers, the more interest we are able to generate in the Wulf fed cattle supply. Processors and end users really appreciate our steady (weekly) supply of high quality cattle that are bred to be efficient, high yielding, and do it on their own, without the use of added growth promotants and antibiotics. Traceability back to the ranch of origin, with third party verification, and the cattle receiving the best animal management and cattle comfort, whose ever watch they are under, qualifies our cattle for premium markets that are consumer driven. Again, we would like to extend a big thanks to all the producers that align themselves with our program, raise us the high quality feeder cattle and make it all possible!

Those of you that have been selling to Wulf Cattle, your feeder cattle will soon be receiving your carcass and health data on your last year calves. If you have any questions, we invite you to give any of the Wulf Cattle team a call. We will be happy to discuss it with you. Raising cattle that stay healthy, convert feed efficiently, and hang up a superior carcass is and always will be what we are pursuing.

Featured this year are feed efficiency indexes on our entire bull offering. Being able to put selection pressure on feed efficiency in Limousin cattle, inherently better feed converters, holds a lot of potential and keeps us excited! Continued progress in this very relevant trait will help to keep us competitive as beef producers.

Lastly, I want to invite you all to attend two very exciting events. March 8 and 9, we hope you'll come see our Sandy Ridge Ranch located near Atkinson, Neb., to view the 2016 Opportunity Sale offering and meet the Wulf Cattle team. Then, in Morris, Minn., on Thursday, March 31 and Friday, April 1, we'll be hosting our annual sale seminar and 28th annual bull sale. Travel safely and we look forward to seeing you soon.

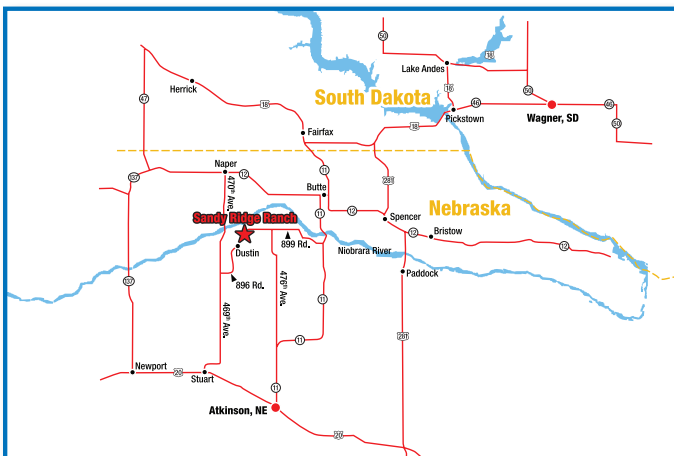

Kind Regards,
Jerry Wulf

Thursday, March 31 Wulf Seminar & Open Panel Discussion 5:30 p.m. supper followed by seminar at 7 p.m. "Low Stress Cattle Handling"

Welcome comments: **Jerry Wulf**
Speaker: **Tom Noffsinger, DVM**
Sale overview and moderator: **Casey Fanta**

Dr. Noffsinger is known across the continent for his passion and enthusiasm for working with feedyards and ranches on low stress cattle handling. More and more feedyards and ranches are incorporating this philosophy and production practice into daily operations to benefit both cattle and animal handlers.

Directions to Sandy Ridge Ranch

- From Stuart, Nebraska—North on 469th Avenue 14 miles to 894 Rd. Turn east 2.5 miles and north 4 miles.
- From Naper, Nebraska—South on 470th Avenue 12.7 miles to 894 Rd. Turn east 2.5 miles and north 4 miles.
- From Butte, Nebraska—1 mile west of Butte, turn south onto Highway 11 6.1 miles. First right after the Niobrara River, turn west onto 899 Rd. 10.9 miles.
- From Atkinson, Nebraska—North on Highway 11 7.9 miles. Continue straight onto 476 Avenue 14.5 miles. Turn west onto 899 Rd. 2.9 miles.

2016 Wulf Cattle Indexes

A method to simplify your bull selection and help you find the correct herd sires for your operation.

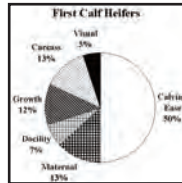

The indexes presented here can simplify your bull selection and help best match herd sires to your operation. Single-trait selection is not wise, rather, cattle with a balance of traits that match your production needs provide the greatest profit potential. Therefore, indexes were developed to combine traits of economic importance. Each index combines 19 different measurements grouped into six economically important categories.

- Breeding first-calf heifers
- Producing calves for the mainstream market using terminal sires
- Producing calves for the mainstream market while keeping replacement heifers

First Calf Heifers

This index score sires according to their usefulness on first calf heifers. While calving ease is the major driver in this index, a balance among the other traits is required to score high.

Calving Ease = Birth Weight EPD, Calving Ease Direct EPD, Actual Birth Weight
Maternal = Scrotal EPD, Milk EPD, Calving Ease Maternal EPD, Actual Scrotal
Docility = Docility EPD

Growth = Weaning Wt EPD, Yearling Wt EPD, Carcass Wt EPD, Act. WW, Act. YW
Carcass = Ribeye EPD relative to Carcass Wt EPD, Yield Grade EPD, Marbling EPD, Ultrasound ribeye to YW, Ultrasound marbling (Muscling and marbling are given greater or lesser importance depending on the index - see individual index descriptions).

Visual = Wulf's visual score

Calving Ease Sires

Keeping Replacements

Main Stream Sires

The icons listed below appear directly adjacent to each sale lot to serve as a quick reference to the corresponding Wulf Cattle Index.

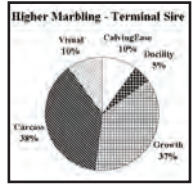

* Indexes on all yearling bulls are based on EPDs only. They will be recalculated in March to include actual yearling data and visual scores. The updated indexes will be published on the Supplement Sheet and available one week prior to the sale at www.WulfCattle.com

Mainstream Markets—Terminal Sire

This index scores bulls for use s terminal sires to produce calves for the mainstream market. Their calves may be sold at weaning or retained in the foodlot and sold cash or on the grid. Growth traits are given the most emphasis in this index, followed by carcass traits that emphasize a balance between muscle and marbling.

* Indexes on all yearling bulls are based on EPDs only. They will be recalculated in March to include actual yearling data and visual scores. The updated indexes will be published on the Supplement Sheet and available one week prior to the sale at www.WulfCattle.com

- Powerful carcass traits with exceptional scan data and EPD's that concur
- Xcellsior x Xtractor pedigree that packs our most predominant genetics into one pedigree

How The Bulls Are Developed

The bulls are grown from weaning to yearling with a projected average daily gain of 3+ pounds per day. The ration consists mainly of silage and grass hay along with supplemental corn and protein. The yearling to two-year-olds are backed off the energy and protein and fed with a projected gain of 2 lbs. per day. The coming two-year-olds and fall yearlings have been running on large pastures with big draws and trees for protection this fall and winter, along with supplemental feed. All bulls have been semen tested. The scrotal measurement is given in cm. and adjusted to 365 days. There will be a supplement sheet provided sale day with adjusted yearling weights, scrotal and carcass measurements and feed efficiency indexes on the yearling bulls. Since

the standard guarantee of NALF does not address the guarantee of freezable semen, Wulf Cattle will guarantee the bulls to produce freezable semen by 18 mo. of age. All bulls were vaccinated for 7-way and IBR, BVD, PI-3, BRSV, Pasturella and Haemophilus, Vibrio and Lepto. They were also poured and given a magnet.

A supplement sheet will be available approximately one week prior to the sale with adjusted yearling weights, scrotal, carcass measurements and feed efficiency indexes on the yearling bulls. It can be found at www.WulfCattle.com. Visit www.WulfCattle.com or www.Superiorlive.com to view the videos of the sale cattle.

2016 Spring Bull Retirement March 31 from 3:00- 6:00 PM & April 1 from 8:00-11:00 AM

Get paid a premium to retire your herd sire this fall! Make arrangements to bring your used herd bull to the farm near Morris, Minn on March 31 from 3-6 p.m and April 1 from 8-11 a.m. Wulfs have a certified scale at the farm. We will have an American Foods buyer there bidding top prices on your bulls. They must meet all USDA withdrawals for any animal health products they have been given. All breeds are welcome, except dairy breeds, Longhorns and Corrientes.

Wulfs will add an additional premium to the value of the retired bull.

- 1-4 bulls = \$200 per bull
- 5-9 bulls = \$250 per bull
- 10+ bulls = \$300 per bull

American foods will pay Wulfs for the bulls. You will receive full value plus the premium to be used as sale credit at Wulf's Opportunity Sale of 2016 on Friday April 1.

**** Call us starting March 28th for a bull price estimate at (320)392-5802 or email wulf@wulfcattle.com. Contact us with any questions and let us know if you are bringing in your bulls.**

Often times it's more efficient and easier on the cattle to do it the "old" way!

2016 Open Yearling Heifers

Due to the continued expansion of Wulf Cattle, we are not offering bred females in the sale again this year. We always have bred females for sale private treaty and would be happy to visit with you if you need any females. The open yearling females are right out of the heart of our program, going back to many of the herd matrons. The young females are grown on a corn silage and ground alfalfa diet with supplemented

protein. We raise the heifers with a projected ADG of two pounds per day. We will supply the pelvic area measurement and yearling weight on the coming yearling heifers on a supplement sheet on sale day. All females were vaccinated for 7 way and for IBR, BVD, PI-3, BRSV, Pasturella, Haemophilus and poured with Ivomec.

2016 Spring Bull Retirement

March 31 from 3:00- 6:00 PM & April 1
from 8:00-11:00 AM

Get paid a premium to retire your herd sire this fall! Make arrangements to bring your used herd bull to the farm near Morris, Minn on March 31 from 3-6 p.m and April 1 from 8-11 a.m. Wulfs have a certified scale at the farm. We will have an American Foods buyer there bidding top prices on your bulls. They must meet all USDA withdrawals for any animal health products they have been given. All breeds are welcome, except dairy breeds, Longhorns and Corrientes.

Wulfs will add an additional premium to the value of the retired bull.

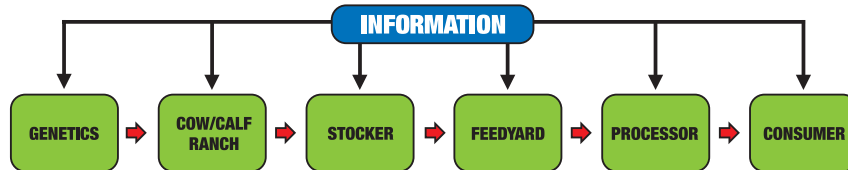

- 1-4 bulls = \$200 per bull
- 5-9 bulls = \$250 per bull
- 10+ bulls = \$300 per bull

American foods will pay Wulfs for the bulls. You will receive full value plus the premium to be used as sale credit at Wulf's Opportunity Sale of 2016 on Friday April 1.

**** Call us starting March 28th for a bull price estimate at (320)392-5802 or email wulf@wulfcattle.com. Contact us with any questions and let us know if you are bringing in your bulls.**

Wulf Cattle Beef Industry Supply Chain

Be Kind Tips

Wulf Cattle is committed to best practice animal handling and welfare.

Be Kind is an initiative practiced throughout all Wulf Cattle, combining BQA as well as humane handling guidelines.

The Beef Quality Assurance guidelines states, diets for all classes of beef cattle should meet the recommendations of the National Research Council or a reputable nutritional consultant.

- Cattle need access to a clean adequate water supply.
- Avoid feed and water interruptions to cattle longer than 24 hours.
- Provide adequate feed and be sure the ingredients quality is enough to meet the nutritional needs of your cattle.

When there are extreme weather circumstances such as; droughts, frost, and floods. The feed stuffs should be tested for substances that may be detrimental to the animal, such as nitrates, prussic acid, and mycotoxins.

Familiarize yourself with the potential micronutrient deficiencies or excesses in your area. Use a formulated supplement appropriate for your geographical area.

Only USDA, FDA and EPA approved products should be fed to your cattle.

Body condition scoring (BCS) your Beef Cows is a

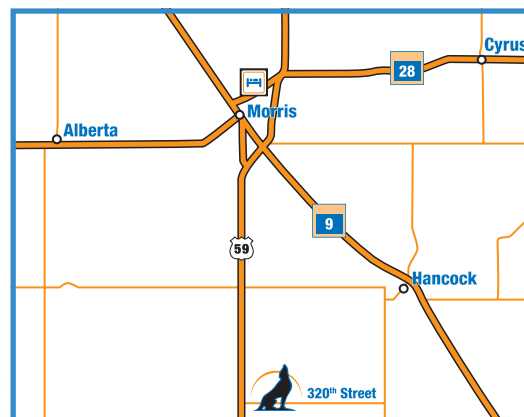

good scientific method to assess the nutritional status of your cow herd. The most common system is the one to nine BCS system. A BCS 1 is very thin and a BCS 9 is obese. Seldom do we see the two extremes. Most cows are between BCS 3 and 7.

- For optimal health and production, target a BCS of 5-6. Keep in mind BCS during calving will impact your calf as well as the performance of the cow during breeding.
- BCS of 2 or less is not acceptable and should be fixed as soon as possible.
- When there are long periods of drought and there is a shortage in feedstuffs, BCS may decline temporarily. Remember this is not desirable but may be outside your control until drought relief is achieved.
- When weather changes and the temperature decreases, your cows will require additional energy needs. Select a ration that will accommodate your cattle.
- A good website to find information on BCS cow herd is <http://beef.unl.edu/beef-cattle-production>
