# HeartBrand<sup>®</sup> BEEF

In 2023, HeartBrand Beef graded a total of 29,632 individual carcass sides utilizing a camera grading system. To our knowledge, this is the largest set of Akaushi cattle ever graded, and quite possibly, the largest set of Wagyu cattle graded in the United States that can be used for breeding evaluations and data. The average marbling on all 29,632 sides revealed a score of 749.96. In comparison to USDA grading scales, this average marbling score is equivalent to Slightly Abundant 50 and would be equal to USDA Prime. The yield grade landed at 3 when evaluating the data from these sides and showed a ribeye area of 13.39. These numbers speak volumes for the industry.

If you want to be a part of raising higher quality beef, we invite you to join! Joining is easy—the first step is buying a bull. HeartBrand currently has over 20,000 head on feed across three different states at five feedlots. These calves were bought from producers who purchased one or more HeartBrand Akaushi bulls and chose to sell their calves back to us. What are we doing with this many calves on feed? HeartBrand runs the second largest Wagyu beef program in the U.S., and we source our calves from producers who buy HeartBrand Akaushi bulls just like the ones offered in this catalog.

While we purchase lots of calves from producers, the opportunities with this breed are endless. The calves can be

finished out and used to supply any meat program depending on your demand whether that is all-natural, grass fed, grain fed, organic, or even locally raised beef. An Akaushi bull will upgrade any beef program. At the end of the day, we want you to make the highest profit possible on your herd and follow what makes the most sense for you and your family. The progeny from our bulls will be considered free market trade and there is no obligation to sell your calves back to HeartBrand or for HeartBrand to purchase from you. We welcome you to find the best opportunity to put the most money in your pocket, and we believe you could raise that bar with an Akaushi bull.

Over the past 10 years, we have had the pleasure of watching firsthand the impact Akaushi beef has made on the consumer. Our Akaushi beef program has grown drastically in size because we produce what the customer wants: marbled beef at a decent price. Akaushi beef is served in some of the best restaurants in the country and offered in many retail stores across the U.S. Customers are asking for better quality beef and that's what we are serving.

If you agree with today's consumer and want tasty, tender, marbled beef for the future, Akaushi is the breed for you. We look forward to you joining the movement of raising better beef for the future.

## *Influenced Bulls*

**RUESHAW 430**  
AF6808

In 1976, Rueshaw 430 was one of the very first wagyu bulls to ever leave Japan. A full blood Akaushi bull, Rueshaw was the Japanese Red National Champion Bull in 1975. He originated from the Kumamoto Region which is the heart of the Japanese Akaushi breeding capital. Rueshaw 430 was a bull imported before his time. He possessed a valuable outcross of blood in his genetic makeup that is vital to the Akaushi stud breeders.

# AF6809 JUDO

## *Influenced Bulls*

**JUDO 1223**  
AF6809

Judo was imported with Rueshaw into America in 1976 for research purposes. He is an outcross to the 1994 importation of reds. Semen collected is limited and in high demand in the states. Judo can be a valuable breeding tool in the limited Akaushi genetics pool to manage inbreeding. Take this rare opportunity to acquire his genetics while it lasts!

**HIKARI**  
AF107

Hikari has a fantastic legacy that precedes him. This foundation bull is known for his extreme balance of growth with high marbling and carcass traits. He is a son of Japanese legend, Dai 10 Mitsumaru 76 who also sired breed legends Big Al, Kaedemaru, and “the Elephant Cow” Heartbrand T0504E. Hikari has produced elite bulls such as H0518E, Umemaru, Kotsukari, and Heartbrand Hercules 2619A!

## *Influenced Bulls*

**SHIGEMARU**  
AF110

Shigemaru is one of the three imported bulls that came to the United States from Japan in the 1990's. This import sire is the most widely used of the bloodlines for his breeding versatility. He is known for moderating frame size, adding body mass and structural width in his progeny. His daughters are built broody, good footed and are high maternal performers. Use Shigemaru with confidence in laying a good foundation of skeletal width and maternal genetics.

BEEF

In 2023, HeartBrand Beef graded a total of 29,632 individual carcass sides utilizing a camera grading system. To our knowledge, this is the largest set of Akaushi cattle ever graded, and quite possibly, the largest set of Wagyu cattle graded in the United States that can be used for breeding evaluations and data. The average marbling on all 29,632 sides revealed a score of 749.96. In comparison to USDA grading scales, this average marbling score is equivalent to Slightly Abundant 50 and would be equal to USDA Prime. The yield grade landed at 3 when evaluating the data from these sides and showed a ribeye area of 13.39.

## *Influenced Bulls*

**TAMAMARU**  
AF109

Tamamaru is one of the most widely used and predictable Akaushi bulls due to his consistency and legendary mother, Dai 8 Marunami. There's no other foundation sire that can add the length of body and stoutness of structure. His sire, Dai 5 Tamanami Tokkyu 96 provides a slight outcross to the rest of the 1994 importation. Tamamaru is a paternal sib to the foundation cow Dai 9 Kobai 73. Tamamaru is F11 free.

# SUPERIOR CATTLE, DESIRABLE TRAITS. AMAZING VALUE. INNOVATE WITH AKAUSHI CATTLE.

## WHAT IS AKAUSHI?

Akaushi is known as the “Emperor’s Breed.” All Akaushi are Wagyu, but not all Wagyu are Akaushi. The Akaushi breed did not exist outside of Japan until the 1990s. Akaushi cattle are known worldwide for their distinct marbling that gives Akaushi beef a melt-in-your-mouth tenderness and rich, buttery flavor.

Since the 1990’s, American Akaushi genetics have increased carcass performance and premium grade opportunities for cattle producers throughout the country.

While Akaushi beef is prized for its marbling and intense flavor, Akaushi cattle boast extremely efficient, consistent production. They excel at important traits, like growth, fertility, vigor and longevity. The American Akaushi breed offers one-of-a-kind opportunities to improve consistency, maintain uniformity and help maximize the gap between profit and loss in your herd.

## BREED BENEFITS

Looking for a new herd sire? Need higher cattle prices?

Next breeding season consider American Akaushi genetics for your herd. This breed consistently produces high USDA Quality Grade carcasses for increased profitability. Recent F1 carcass data shows Akaushi cattle grade an average of 51.4% Prime and 47.4% Choice, which is key to driving Akaushi beef demand with consumers.

Ranchers prize these traits in their Akaushi herds:

- **Quality Grade** – Five times the industry average for USDA PRIME
- **Bull longevity** – American Akaushi bulls typically last 10+ years
- **Cow longevity** – American Akaushi cows average 8 years of calving due to their high fertility, udder quality, and functional feet and legs
- **Calving ease** – More live calves on the ground
- **Environmental adaptability** – The Akaushi breed is successful across all climates, including cold, heat, high altitude, etc.
