Safe bred 8 months to MAGS Bronson 2226B on 1/27/17. Here
is a true F2 female who stacks Angus x Purebred on top of each
other in her elite pedigree. These make some of the very best
females and truly express a tremendous amount of hybrid vigor.
This is particularly evident when you study 5822C's carcass
data, she is highly desirable for ALL carcass traits, highlighted with being in the
top 10% for MB and FT, as well as the top 10% for \$MTI. These are numbers
that aren't available every day, especially when you combine them with her
birth to yearling data and maternal figures. She truly is a result of generational
planned matings! A daughter of one of the most famous cows in the Lim-Flex
population and by the \$120,000-valued EBFL Ypsilanti, make SSTO Cathy
5822C a genetic treasure you will want to make sure shows up on your herd
inventory this spring!

AI'd 7/4/16 to HUBB Bulletproof (43% Lim-Flex, P/HB). PE'd 7/6/16 to 8/6/16 to HUBB Bulletproof. JCL has dug deep into their replacement pen to offer an elite female out of the PBRS Unbelievable 8149U cow family, the very same cow family that has produced Linden Linthicumis top show heifers and bull the past several years. †The dam of this female is a maternal sister to JCL Katniss LNLM 2072, who won both the National Junior Show and All-American Futurity; as well as JCL Thriller, the 2014 National Junior Show Champion Bull. 515C is sired by our lead-off herd sire by BC Lookout, JCL Black Jet 220Z. This May heifer has exceptional lines, is smooth shouldered and elegant fronted. She is particularly fresh in her appearance and is going to make an exceptional foundation type female.

CONSIGNED BY: STOWERS LIMOUSIN, BRIDGEPORT, TX

Safe Bred 8 months to MAGS Bronson 2226B on 1/27/17. SSTO Cold Play 5831C is cumulation of two of the breed's great sires, DHVO Deuce 132R and AUTO Black Dakota 129J, and would cross beautifully with any leading purebred, Lim-Flex or Angus sire! Her scan data was highly desirably with a 4.12 IMF and her EPD profile puts her in the top 10% for WW and YW. †When she crossed the scales at weaning time, she ratio'd a 110 and carried that same ratio through yearling time. When you see her in person, she will impress you with how stout she is from the ground up and just how much skeletal dimension she offers, while maintaining a neat profile and attractive pattern.

AI'd 5/10/15 to EBFL Ypsilanti 420Y. We are very excited with the offspring by MAGS Zincograph, they are certainly living up our expectations as one of our leading herd sires. His data and structure alone make him a sire who seriously needs to be considered. Study her and you will find as much true shape as any heifer we have offered for public auction in quite some time. This 31% double homozygous female is a marbling specialist and is in the top 5% for \$MTI. Her dam, a purebred Angus, ranks in the top 1% for MB. Individually, 5843C posted impressive scan data with a 109 ratio for REA and a remarkable 119 ratio for IMF.

Consider the genetic potential represented in this stout young package. His dam is from the D'Hanis cow family that produced Deuce. His sire, MAGS York, was a part of the Magness pen in Denver. The blending of these lines has produced a strong EPD profile and an equally pleasing phenotype. He is square in the hip, full of muscle, and sound in his structure. His depth and style reflect his incredible heritage.
