37th Opportunity Sale of 2025

Thursday, April 3, 2025 • 12 Noon • ONLINE ONLY

Join us Tuesday, March 25, and Wednesday, March 26, at Sandy Ridge Ranch for our Open House.

SCHEDULE OF EVENTS:

Tuesday, March 25 & Wednesday, March 26

8:00 AM to 5:00 PM.....Open House at Sandy Ridge Ranch
Serving breakfast and lunch both days

12:30 PM.....Educational seminar (both days):
The Future Beef Industry—As We See It

Our 2025 seminar will focus on utilizing data and technology to make genetic progress and advancement in the beef industry, including new EPDs and indexes, carcass grading technology and industry trends.

Auctioneers:

C.K. "Sonny" Booth, Ronn Cunningham and Chisum Peterson

OPEN HOUSE HOTEL ACCOMMODATIONS:

- Sandhills Guest House, Atkinson, NE – 402-925-5600
- Holiday Inn Express, O'Neill, NE – 402-336-4500
- Super 8, O'Neill, NE – 402-413-6609
- Fort Randall Casino and Hotel, Pickstown, SD—605-487-7871
- Rodeway Inn, Ainsworth, NE—402-387-1050
- Holiday Inn Express, Winner, SD—605-842-2255

SELLING 360 LOTS:

Cattle sell in lot number order

330 Registered Bulls

(Limousin, Lim-Flex, Angus)

63 Fall Yearling Bulls • 267 Spring Yearling Bulls

30 Registered Females

(Limousin, Lim-Flex, Angus)

SALE DAY PHONE: Casey Fanta (320) 288-6128

Superior Productions recently launched a new bidding platform. If you plan to watch or bid on Superior Livestock, PLEASE CALL (800) 422-2117 FOR ASSISTANCE WITH ANY OF THE BIDDING PROCESS AT SUPERIOR or sign up to bid on bid.SuperiorLivestock.com.

Buyers may also register on DVAuctions.com

If you have any questions about getting a bidder number, please contact Tammy Mikkelson at (605) 949-5773.

See page 8 for more details on both bidding platforms.

Cattlemen,

We are looking forward to presenting you with this offering for the 37th Annual Wulf Cattle Opportunity Sale!

The cattle in this and every offering are always designed with the same goals in mind. They are bred to enhance all the economically important traits that cattle feeders demand and the consumer desires. We maintain our goal of selecting heavy-muscled cattle that have acceptable marbling. We strive to breed cattle that wean heavy and continue to grow. Therefore, you will get a good payday at weaning and cattle that should continue to be profitable in the feed yard and on the rail. In addition, we select cattle that can gain and grow efficiently, resulting in genetics that lead the industry in feed conversion.

With the strong cattle market, and future prospects looking bright, it is a great time to invest in the best genetics possible. There has never been a better time to position your operation to produce more pounds of product. If you have herd sires that are getting up in age or that have been marginal producers, the salvage value for those bulls is strong, which makes it a great time to upgrade. In addition, you do not want to be caught short in bull power and end up with open cows that could have produced a very valuable calf. The demand for bulls has been strong because of these very factors and we sold bulls late into breeding season last year with progressive ranchers wanting to make sure that they optimized their pregnancy rates. This is why we do not have any two-year-old bulls on the offering this year.

Features that you can always find in Wulf Cattle genetics:

- Complete data collection (Recorded with NALF)
 - Weight traits & measurements taken in large contemporary groups
 - Carcass ultrasounds (EZ Ultrasound)
 - Majority of bulls feed efficiency tested (Vytelle)
 - All genomic enhanced EPDs (Neogen)
 - Actual carcass data used to develop genetics
 - Customers receive carcass data on calves fed in our program (Telus Ag)
- Breeding soundness exams (Sweetgrass Veterinary Services)
 - Semen tested
 - Scrotal measurements
 - Physical soundness evaluation
- Free nationwide delivery to central points
- Sight unseen purchasing
- Genetics specifically selected to fit your program
- Complete satisfaction guaranteed

Come view this year's offering at our Open House at the ranch on March 25 and 26. Join us for lunch and to visit about this year's offering. Then tune in to Superior Livestock, DV Auction or leave your orders with me or any of the sales team to bid on your selections on April 3.

Regards,
Casey Fanta
(320) 288-6128

The crew of Sweetgrass Veterinary Services and myself are excited to welcome everyone to the 2025 Wulf Cattle Opportunity Sale! We take great pride in continuing to perform the herd health preparation for the sale. I'd like to thank Emily, Mandy, Luke, Kayla, and Maddy for their dedication and hard work this time of year when calving and production sale seasons collide!

Several days were spent performing breeding soundness exams which included evaluation of semen motility and morphology, scrotal measurements, hip heights, and visual examination of hoof and leg conformation. To reduce stress and times through the chute, yearling bulls were also carcass ultrasounded by CUP Lab certified tech Jeff Schoenfelder at the time of the breeding exam.

All sale animals have received vaccinations for IBR, BVD, PI3, BRSV, Lepto, Vibrio, Clostridial diseases and poured to control external and internal parasites. In addition, heifers have also received their Brucellosis vaccination. Administration of magnets are given to both bulls and heifers for the prevention of hardware disease. Wulf Cattle tests all breeding stock for Johne's Disease and has a zero tolerance for positive tests. These animals and their offspring are removed from the breeding herd to insure the future health of your herd.

We will be readily available on sale day and can be reached by email at vet@sweetgrassvets.com or at (605) 928-8387 anytime. We will be issuing electronic official health papers for lots sold outside of Nebraska the day of the sale. To assist us in this process, please provide your email and the physical address of where the cattle will be delivered to when you sign up for a bidder number, please refrain from using P.O. Box numbers. You may also find it convenient to download the MyVetLINK app to see your health documents as they are created. In good practice, we do encourage a 3-week quarantine period before contact with your herd to allow them to get over the high-risk time after the stress of transportation and to work with your local veterinarian in preparing your bull for breeding by repeating a fertility test prior to pasture turn out.

Stay Healthy. Stay Happy. Stay Free!

- Feedlot & Carcass Data
- Dairy Beef Program

Dear Friends & Fellow Cattlemen,

It is a pretty good time to be in the beef cattle business. For three years now we have seen the value of all classes of cattle continue to move higher. With some added moisture in parts of the country, we are slowly starting to rebuild the national cow herd. This will likely create even tighter supplies. If we can maintain our robust beef demand, the cattle market should hold at these levels for a good while.

The value-added cattle, Verified Natural & GAP, continue to work best for us. We appreciate all of you that have supplied us with consistent high-quality feeder calves that are Verified Natural & GAP certified. Our internal BeefBuilder™ (Limousin X dairy cattle) program continues with steady growth.

On the genetics front, there are positive changes year over year! Our large database that gets thousands of records added to it each year continues to grow and is what drives our selection and advances our genetic progress. First, we have installed more new Grow Safe feed intake measuring systems at our Sandy Ridge Ranch. This triples the amount of feed intake records we can collect per year, now allowing us to capture feed intake data on our entire calf crop; including all bulls, replacement heifers, and pedigreed finished cattle. Wulf Cattle continues to be leaders having the largest data bank in the Limousin breed for feed intake.

In addition, we are excited about the new NALF TPI (Terminal Profit Index). This will replace both NALF's old MTI index and the Wulf Cattle indexes we previously provided in front of our catalog. Given that TPI considers the actual economic value of each trait and its relevance to beef production, we are certain it is progress, and a much better selection tool than we used in the past. We have modeled this new TPI index and compared it with our own fed cattle data and know that correlations are very high with where the profit margins are.

We look forward to seeing you all at our Open House and seminar on March 25th and 26th. Come see the bulls and enjoy the cattle friendly fellowship with the Wulf Cattle Team and others. Then, be sure not to miss our online sale from the comforts of your home on Thursday April 3rd.

Kind Regards,
Jerry Wulf

Open House at Sandy Ridge Ranch

Tuesday, March 25 & Wednesday, March 26

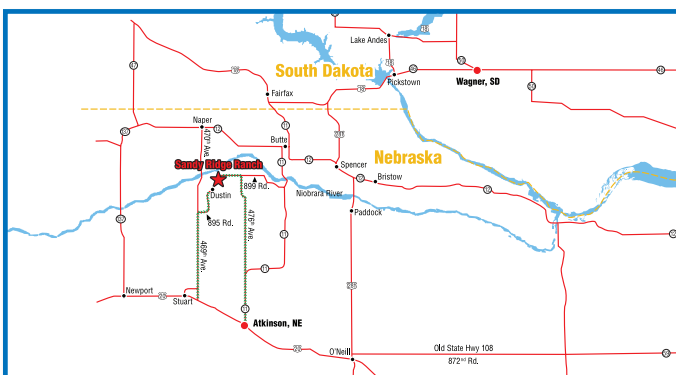

8:00 AM to 5:00 PM • Serving breakfast and lunch both days

Seminar:
"The Future Beef Industry—As We See It"
Time: 12:30 PM (Both days)

Our 2025 discussion will focus on utilizing data and technology to make genetic progress and advancement in the beef industry.

• NEW EPDs & INDEXES • CARCASS GRADING TECHNOLOGY • INDUSTRY TRENDS

We invite you to join us at Sandy Ridge Ranch and spend the day leisurely walking through the sale offering. Plan to join us for the educational seminar beginning at 12:30 PM both days. Since the 37th Annual Opportunity Sale is VIDEO ONLY, this is your chance to be onsite and appraise the sale offering.

Directions to Sandy Ridge Ranch

- From Stuart, Nebraska—North on 469th Avenue 14 miles to 895 Rd. Turn east 2.5 miles and north 4 miles.
- From Butte, Nebraska—1 mile west of Butte, turn south onto Highway 11 6.1 miles. First right after the Niobrara River, turn west onto 899 Rd. 10.9 miles.
- From Atkinson, Nebraska—North on Highway 11, 7.9 miles. Continue straight onto 476 Avenue 14.5 miles. Turn west onto 899 Rd. 2.9 miles.
- From Naper, Nebraska—11.7 miles south 895th Rd. Turn east, 2.5 miles and north 4 miles.

**FOR HELP WITH REGISTRATION OR ANY PART OF THE BIDDING PROCESS
PLEASE CALL SUPERIOR AT (800) 422-2117.**

VIEWING THE AUCTION

The auction will be broadcast online at Bid.SuperiorLivestock.com and the pre-recorded videos will also be hosted there. You do not need an account to watch the auction or view videos.

ONLINE BIDDING

Go to Bid.SuperiorLivestock.com for Superior's new online bidding platform. If you have not registered there before you will need to create an account. The first time you register an account you will receive a confirmation e-mail that you must click on. Once you have completed this, select the auction you would like to bid on and click the "Request a Buyer Number" button. The first time you request a buyer number you will be sent a confirmation code via text. Enter that code in the login portal and you will receive a buyer number. This 2-step verification process will only have to be done once and in the future you will be able to simply login and request a buyer number and receive it instantly for any auction. Once you have successfully registered and received

a buyer number it will show your name and buyer number on both the video preview page and the online bidding page when you are logged in. If you have an account at LiveAuctions.tv you may skip the registration process and use those login credentials to request a buyer number as LiveAuctions is a division of Superior Livestock. For more details on registering an account and also how to bid, you may watch a tutorial at Bid.SuperiorLivestock.com/how-it-works.

TURN IN BIDS OVER THE PHONE

This is Superior's traditional method of buying cattle and is the suggested process for anybody who does not have consistent, high-speed internet. You still must register an account at Bid.SuperiorLivestock.com and request a buyer number. Once you receive a buyer number you will see the bid line phone number. Just watch the auction online and call in at least 2 lots ahead of the lot you are looking to bid on. A Superior Livestock representative will be with you on the phone and will assist you in placing bids.

**Watch & bid online for FREE at DV Auction
Buying online is as easy as 1, 2, 3...**

1. Create an account at www.dvauction.com under the "register" tab.
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction—a DV representative will notify you once you have been approved.
3. Tune in for the sale and make your purchases! After the sale, contact the sale manager or owner to arrange transportation and payment. High speed internet is required for successful bidding. Be sure to check the lag-time monitor in the top left corner

to ensure real-time broadcasts.

PROXY BIDDING: If you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

Notes Regarding EPDs & Ratios

EPDs of Limousin and Percentage animals are percentile ranked among themselves and Lim-Flex animals are percentile ranked among themselves. However, the REA & MARB scan measurements from Limousin, Percentage & Lim-Flex all ratio together, if they are within the same contemporary group.

THE FEED EFFICIENCY SUB-INDEX, \$G OR \$GAIN

Dry matter intake is a key component to \$G along with an animals PWG potential to reflect an animal's feed conversion capability. The key to DMI is to remember a lower percentile rank is not necessarily a bad thing. Cattle that are giving you back adequate gain for their intake are still producing pounds efficiently. The real use of DMI is to get to the correct expression of feed conversion rates. \$G is used to find cattle that are superior for Feed Efficiency.

You will find cattle that range in the 50th to 90th percentile for DMI but rank exceptionally well on their new (\$ Gain EPD) if they are converting their intake. The \$G sub-index that will be published weekly by IGS simply measures cost of feed and an animal's individual intake versus the value of a fed steer on a 5-year average adjusted by an individual animal's gain.

The formula for \$G is listed below:

$$(\text{Ration cost @ } \$280 \text{ per ton}/2000 \text{ lbs} = -.14 \times \text{DMI EPD}) + (\text{Fed market value at } \$1.17/160 \text{ days} \times \text{PWG}) = \$G \text{ (Feed efficiency sub index)}$$

\$G for feed conversion represents the marginal value of gain over feed cost. The higher the \$G sub-index EPD, the better or reflective of superior conversion of feed to pounds gained. (Cost of feed based off an animals DMI is calculated as a negative number and added back to the market value per pound X an animals' post weaning gain).

When evaluating a sires for \$G, The EPD range for All Limousin Active sires reflects a high of .25, an average of .10 and a low of -0.03 for NALF's active sires.

NALF'S NEW TERMINAL PROFIT INDEX (TPI) & FEED CONVERSION SUB-INDEX (\$G)

What are these new NALF index's and how you should evaluate cattle accordingly? It is important to remember that the TPI index is not an index for selecting replacement heifers or female selection. This index is for identifying **Terminal Sires** that excel in feeding performance in today's formula and grid-based marketing of today's fed cattle environment.

The North American Limousin Foundation released its Terminal Index last February which is built utilizing iGENDEC. Recently at its summer board meeting, the NALF board of directors approved an adjustment to the Terminal Profit Index which increases the emphasis on dry matter conversion rates by incorporating weaning to yearling weight spread for cattle, PWG (YW-WW) weighted by a marginal economic value of \$.277).

iGENDEC is a web-based tool to enable the construction of economically optimal selection indexes. iGENDEC allows for index customization through adjustment of economic and production parameters to reflect actual historical price data and made available via the Beef Improvement Federation.

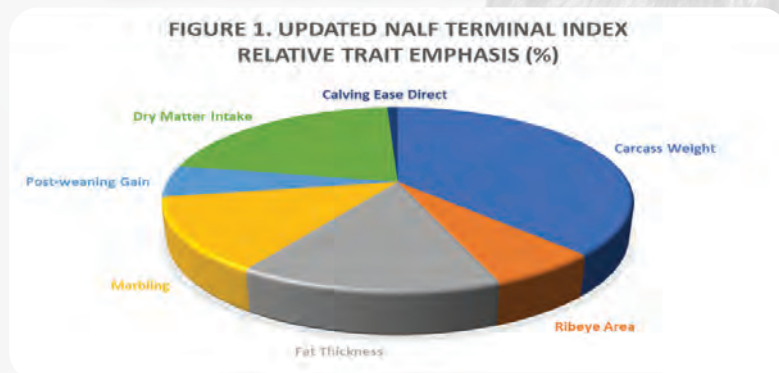

The new **Terminal Profit Index (TPI)** has been constructed to identify sires that produce the highest profit potential for fed cattle utilizing traits that directly impact feeding performance and superior carcass traits. The new index was created using the most recent 10 years of USDA reported fed cattle and grid pricing data, K-State reported feedlot cattle performance and NALF data. The new TPI index models the use of Limousin sires on Angus based cows with all calves marketed on a value-based carcass grid. The units reported represent expected differences in profit per mating.

The following EPD traits are included in TPI and their corresponding Marginal Economic values used in the Terminal Profit Index. **HCW \$1.608, REA \$23.36, FAT-\$162.185, MS \$43.01, DMI -\$20.856, CE \$.957, PWG SPREAD \$.277.**

The marginal values which are determined by parameters in the iGENDEC program and simply multiplied by each EPD trait and then added up for a total \$ index value on each animal in the herdbook. The range seen on NALF's 4500 active sires reflects a high of \$210.00 and a low of -\$16.00 with a mean of \$94.00.
